Stop Exclusion Proceedings Against Róger Calero!

We protest the Immigration and Naturalization Service's moves to exclude Róger Calero, the associate editor of *Perspectiva Mundial* magazine and a staff writer for the *Militant* newsweekly, and a permanent resident of the United States for the past 12 years. The INS detention of Calero at Houston International Airport on December 3, 2002, and its attempt to revoke his permanent residence status are an attack on his right to work as a journalist in this country, and on the rights of everyone.

The decision of the INS to release Calero from detention on December 13 did not stop their drive to deport Calero from the United States. They are pressing to drag him before an Immigration Court and demand his removal.

We the undersigned demand the INS immediately drop its effort to deport Róger Calero to Nicaragua, and allow him to exercise his right to live and work in the United States.
