

In order to force through Congress his "neutrality" legislation lifting the embargo on arms, President Roosevelt perpetrated a fraud on the American people.

A grave accusation? But here are the facts:

How did Roosevelt get a majority in Congress? By promising and appending to the embargo-lifting proposal a provision that neither arms nor anything else would go to belligerents in American ships.

Here are the exact words used by the Democratic leader, Senator Barkley:

"Whether it be wheat, or corn, or tobacco, or shoes, or typewriters, or tanks . . . or anything that can be recalled by mind of man, it cannot be shipped to a belligerent nation or through a dager zone anywhere in the world in an American ship. . . . Because I want no war I am supporting and propose to vote for a measure which involves the greatest sacrifice ever made by any nation in the history of mankind in order to avoid war."

Promise—And Performance

That solemn promise, embodied in the legislation, netted NEW YORK-2,259 first choice rotes were cast by Bronx bor-Roosevelt a majority.

American ships, carrying war materials to England and France, are certain to be torpedoed by German U-boats. That means a series of "incidents," such as happened in 1915 and 1916 under identical conditions, and which enabled Wilson to drag us into war. Everybody understands this. That's why the one popular item in the Neutrality Act was that which barred American shipping from the war zones. And that's why Roosevelt is conniving to violate that provision. For Roosevelt is heading for war as fast as he can drag the American people along.

Waiting for the Storm to Subside

In the face of the widespread protests against the Maritime failed in his attempted squeeze frightened mare from such Commission's action, Roosevelt had to order the Commission play on Finland. to hold up final approval until further investigation. Or, more accurately, until Roosevelt thinks the storm has subsided. Oil on the East Coast.

Social Security Denied

While the corporation concentrates on propaganda, the state administration uses more forceful methods to starve the workers into submission. With the exception of one vote-that of the President of the Michigan Federation of Labor, John Reid-the State Social Security Board refuses to grant a dime's worth of compensation to the 55,000 Chrysler workers. On the spurious grounds that the Chrysler workers are involved in a "labor dispute" their rightful compensation is denied. Just how this squares with granting 10,000 Briggs workers unemployment insurance -locked out just as the Chrysler workers-is not made clear. But this Board needn't explain such "small" points-after all Chry-

sler's millions are involved, and that should be reason enough.

Hand in hand with the Security eals for registration in the Board, the welfare authorities are 'training bases" are daily made joining in to make the securing of over the "mike" at the NMU relief tough for the Chrysler hall. SOCIALIST APPEAL

NOVEMBER 17, 1939

The importance of labor unity is emphasized every time any kind of a meeting between CIO and AFL officials is reported in the press by the prominence giv en to those reports.

And when President Roosevelt's conference with John L Lewis and William Green was announced it naturally was given widest publicity. For this was a very important meeting.

Each week that brings Roose velt's determination to participate in the second world war to a stronger conviction, also emphasizes that the continued rivalry and struggle between the labor organizations disrupts the plans of the war machine. This has often been explained in previous columns in the Socialist Appeal.

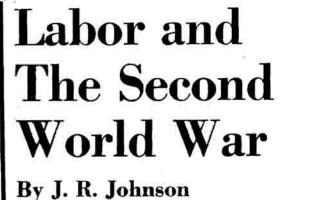

Since "unofficial" intervention by Roosevelt through Madame Perkins brought no results. Roosevelt took the bull by the horns and sumomned Lewis and Green to a conference.

Will Lewis Agree?

Proposals from the War Department to the CIO and the AFL on the role of unions in war time had been studied by the labor chieftains. A general picture of these proposals is given by Robert Bendiner in the current issue of The Nation.

"In the M-Day preview now showing before an exclusive audience of trade union executives, the program for labor is reliably held to look something like this: First an emergency period will be proclaimed, even before the declaration of war, during which the President will suspend the provisions of the Walsh-Healy Act, which requires the maintenance of specific labor standards in the manufacture of products bought by the federal government. During this period, and subsequently, the Employment Service, now removed from the jurisdiction of the Labor Department and placed under the supervision of Paul V. McNutt, will become a key agency, geared to distribute and furnish adequate supplies of skilled labor to all war industries and to prevent its diversion into armed forces."

War Dictatorship Outright capitulation to these totalitarian - and shocking although not surprising-proposals

VII

The failures of Russia, the degradation of Russia, are in the last analysis due to the failure of the workers of the world to establish socialism. Had countries like France, Britain, Germany, and the United States followed the road to collective ownership and planned economy, what they would have done in twenty years would not only have lifted the workers and the entire population of these countries to undreamt of heights of social well-being and equality. It would have prevented the emergence of such a hydra-headed monster as the Stalinist bureaucracy and its corrupt spawn, the Browders, the Fosters, the Fords, and their kindred throughout the world.

Those who have studied the true causes of the rise and decline of Soviet Russia know that its history is an argument not against, but for socialism, an indictment not of collective ownership and planned economy but of the chaos of capitalism. It is capitalism that, using the cowardice and selfishness of the Stalinist bureaucrats, has managed to stave off victorious revolution and slowly drags the Soviet Union down into the blood and muck of world imperialism. Without the socialist revolution in one or more of the advanced countries, Soviet Russia is doomed. That is the key to the understanding of Soviet Russia, yesterday, today, and tomorrow. No wonder that Lenin in the five years of his working life as ruler of the country publicly repeated this profound truth little less than fifty times.

Against War Means For Socialism

From all the above it follows that the struggle against war is the struggle against capitalism for the socialist society. The workers must fight against their own capitalists at every turn-in the factories, in the legislatures, against the WPA cuts, against the anti-alien bills, against the armament budgets whether large or small, against Roosevelt's foreign policy, against his ceaseless propaganda that America must prepare for a war in defense of "peace" and "democracy." Any concession to the capitalists on any front means just so much more freedom for them in their relentless drive to war. If war does come, the word will go forth that we must have "national unity" against aggressor. Then more than ever it will be necessary to continue resistance. legal and illegal.

The masses may be swept into the war. But those who recognize the true nature of imperialist war, though they may have to submit for a period, must never for a moment relax their opposition, but continue to seek ways and means of influencing the masses against the war. For history shows us that though the people, under the stimulus of fright, propaganda, and mass hysteria, may enter a war, the strain that it imposes upon them is such that revulsion soon begins. This can culminate, as it has culminated before, in a determination to sweep away those responsible for the slaughter, the suffering, the privation. In their rec-

of the War Department would sound the death knell of union independence, and expose Lewis and Green beyond all repair.

However, already a section of the AFL and the CIO leaders have accepted in principle the ideas of the militarists. The blast of the Navy Department against the CIO reflects its aggravation at the resistance it has thus far met from part of the top CIO circle.

Is it a wonder that Lewis entered the White House with trepidation? And that he was very silent after the conference, in marked contrast to his bombastic utterances after the conference last Spring with Roosevelt and Green?

Roosevelt talked cold turkey to the labor leaders at the conference last week. Last Spring he tried to use a big stick but it didn't have much weight behind it. For that was in the pre-wan period. Now Lewis and Green understand, if they had any doubts the deadly seriousness of the Roosevelt demand for labor unity behind his war program.

Clubbing was not necessary for Green. He has indicated often enough that he is ready to serve as an agent of the war machine at any time. But Lewis has been a bad actor, as his Labor Day speech indicated. Lewis is more subject to rank and file pressure. His coolness and reluctance to the Roosevelt program has been obvious.

Now comes the big test. Will Lewis try to outdo Green? Seek to utilize the plans of the War Department to establish himself as the chief lieutenant of the Army within the labor movement Or can the ranks of the CIO put on more pressure and force Lewis to resist the reactionary pro posals of Roosevelt. Can the CIO call for labor unity against the war program, instead of being forced into a unity behind the program? This is the vital issue before the American labor movement today.

The future of the labor movement rests on its accepting the road of struggle against the Roosevelt war plans, uniting behind a program of militant action to preserve its liberties, advance its organization, and obtain its rights in collective bargaining.

ognition of the real enemy at home, they forget the supposed enemy abroad. That is what we must work for.

The revolutionary fighter against imperialist war must remember that it was not the statesmen who brought the last war to a conclusion. It was the revolutionary workers of Russia who, by the Russian revolution of 1917, made the first great break in the war. And the German workers, by their revolution against the Kaiser and his government, brought the 1914-1918 war to an end.

The Sham Fighters Against War

If the workers do not succeed in stopping Roosevelt from dragging us into the war, who will do it? Many so-called anti-war groups and persons tell the masses it is they who will. Test them all by their stand on the capitalist system. If they are not fighting to overthrow it, they belong to capitalist society and are in the camp of the enemy. Isolationists like Senator Borah fill the public press. But it is the finance-capitalists like Morgan who decide, and when they give the word and Roosevelt drags the people in, Borah will not call upon the workers to stop Roosevelt. He and his kind will say, "My country, right or wrong," and support the war with the rest.

The labor leaders like Lewis and Green follow Roosevelt like the trained lap-dogs that they are. In Germany, in Britain, in France, when the last war came these pampered, well fed, capitalist-aping lackeys called the workers to the colors. And in 1939 as in 1914 they have shown once more that as long as they can sit in the offices, draw their fat salaries, visit the best hotels in the company of "good society," they have no quarrel with capitalism and will support their imperialist masters in whatever way they are told to. Look for a moment at their record.

In 1918-1920 the capitalist system was rocking in Europe. The capitalists, utterly discredited, were hated by millions of workers and farmers in every country. All that was needed was resolute leadership. But these labor leaders, who had talked about socialism for twenty years or more, went to the rescue of capitalism and, having the confidence of the workers, preserved instead of overturning the system. The capitalists left them in control for a time and, when the revolutionary energy of the workers had been dissipated, rewarded the social-democrats with the fascist terror. Against fascism as against war the labor leaders were helpless, and for the same reason. Well paid and comfortable under the capitalist system, they work to preserve it, with the resulting ruin of both them and the workers who follow them. In America as elsewhere the social-democrat leaders support capitalism. They must be bracketed with the imperialist war-mongers and fought on the war issue without quarter.

The papers to the South ,and uses them against the workers of his own color. hall with a big anti-union mob. For the great steel strike in 1919 the white capitalists brought in Smith rants against the United Automobile Workers and against 30,000 Negroes. For these capitalists, the race question was certainly 'communism". On the same pronot the main question.

Negroes Enter Industry

leaders but spilling the familiar This sending for Negroes to help break the struggles of the union-busting line that always white workers was part of the general economic movement of the parades under the name of times-the migration of over a million Negroes to the North. Thus 'Americanism" and "patriotism" in the Allegheny district of Pennsylvania in 1910, there were 100 Negro steel workers, in 1915 there were 2,500, in 1916 there were 8,325, in 1923, there were 16,000.

As an official of the Carnegie Steel Company said in an interview given to Messers Cayton and Mitchell on July 6, 1934:

As far as I am concerned I believe that the Negro has been a lifesaver to the Steel company. When we have had labor disputes or when we needed more men for expansion we have gone to the South and brought up thousands of them. I don't know what this company ites after leaving the C.P. It would have done without Negroes." (Black Workers and New Unions, P. 7.)

On the whole, between 1890 and 1930, the number of Negroes in the iron, steel, machinery and vehicle industries, increased from less than 25,000 to 250,000.

The Dirty Work for the Negro

What sort of jobs did Negroes get in the industry? Naturally tin's AFL union. nothing but the unskilled, the lowest paid, the most unpleasant jobs. Between 1910 and 1930 the Negro made little progress in getting nounced an 'organizing drive" in against all anti-war elements. Their present attempt to pose as the better kind of job. Take for instance the work in blast furnaces hte Chrysler plants. The only anti-war martyrs is poppycock. They remain war-mongers, and steel-rolling mills. In 1910 there were between 45 Negroes out of men he will organize will be scabs every 1000 working as laborers in these industries. In 1930 there and strikebreakers. were 85. Thus the number of Negroes almost doubled. But it was Who is financing Gerald Smith chiefly laborer's jobs that the Negroes got. In 1910 out of every 1000 who has suddenly appeared on laborers, 69 were Negroes. In 1930, there were 165 Negroes out of the scene with unlimited reevery 1000. But whereas in 1910 there were 29 Negroes out of every sources? For the last few 1000 skilled workers, in 1930 there were only 40. Thus 96 more la- months Smith has been dodging borers got jobs, proportionally, but only 11 skilled workers. That is process servers all over the couna point we have to keep our eye on. As for office jobs there were 3 try. The hotel keepers are trying Negroes out of every 1000 in 1910, and only one out of every 1000 to collect big unpaid bills. in 1930

SOCIALIST APPEAL

The Difference Between Fritz, Kuhn and Earl Browder

(Continued from Page 1) iticians are beginning to holler

When American Legionnaires and other hoodlums attacked public forum of the Communist Party in Detroit, last Friday night, they did so with the assurance that it was in line with the Roosevelt government's policy. For that was the meaning of the Federal government's indictment of the head of the Communist Party on a patently flimsy technicality. The government was putting the Communist Party outside the pale, and reactionaries everywhere are taking the hint.

The assault on the meeting was, of course, facilitated by the growing isolation of the Communist Party. Its brazen Workers Age goes on to register a protest against the indictworkers as a tool of the Hitler-Stalin war camp. Tens of thousands of workers, formerly friendly to it, feel nothing but break the neck of white workers, he sends for Negroes, most often hall with a big anti-union mob. Attract of the land of the l attack of the hoodlums-these creatures are scarcely daringgram are Pat McCartney and

Part of Roosevelt's War Drive William Nowell, posing as labor

We have previously condemned the increasingly generalized attack by the government on the Communist Party, and the latest incident serves to underline the importance of this prob-

lem. The government is attacking the Communist Party as Martin Goons with Smith part of the government's drive to crush all real opposition to America's entry into the war. The Stalinists are being at tacked, first and most prominently, precisely because the Com-Stalinist party. He forgot to tell munist Party today meets with so little sympathy in the labor movement. But this attack is paving the way for attacks against all anti-war militants and against all labor militants vice McCartney after saw in the who will resist the regimentation of labor by the war machine. Browder and his mates are of course reaping what they have sown. The Stalinists, up to the Stalin-Hitler pact, were picket lines. McCartney and Now- the most vociferous supporters of Roosevelt and his war preparations. They covered up every attack that the govern ment made against labor. They tried to create a lynch spirit

> with this difference : they are now whooping it up for the war camp to which Roosevelt is opposed.

Only Labor Can Cleanse Labor

It is not for the sake of the Stalinists, but for the sake of the labor movement and the real anti-war fighters that we call upon the working class to condemn and oppose the legal and illegal pogroms launched against the Stalinists.

We are for cleansing the labor movement of the poison of Stalinism-but that's labor's own job, which cannot be farmed out to the government, reactionary hoodlums or, for that matter, to John L. Lewis and William Green. Only the con-

is a dangerous tendency in certain sections of the labor movebeat and terrorize all militant Party. For example, the Socialist Party organ declares editor-

"It (the Socialist Party) does not believe that the present legal difficulties of Browder and his men are civil liberties or labor issues. Not any more than the legal difficulties of Fritz Kuhn, Father Coughlin, and other foreign or native fascists." (The Call, Nov. 11.) stone) says:

AN EDITORIAL

"The Communist party is in no sense of the word . . . a bona fide part of the labor movement of whatever tendency. . . . It is a force outside of and hostile to the labor movement, its organizations, aims and aspirations. It is on the same plane with the German-American Bund of Fritz Kuhn, which is notoriously an agency of the German Nazi regime and the Gestapo." (Workers Age. Nov. 4.)

Quite illogically, in another article on the same page, the the leading figure of India's na-

ment of Browder, correctly pointing out that it is directly linked with Roosevelt's foreign policy, and that in the process of persecuting the Stalinists, vital democratic rights and "liberals" and civil service bubecause the Workers Age does not dream of protesting the mass organization of the Indian unprecedented, certainly, since Detroit became a stronghold prosecution of Fritz Kuhn although it puts him on the same middle class. plane with Browder.

We don't give a damn what the government does to Kuhn,

except to point out its significance as an index to Roosevelt's commitment to the Chamberlain-Daladier war camp. For the ish authorities in India, gave his quarrel between Roosevelt and Kuhn is one between two im- unqualified and unhesitating supperialist bandits. It does not touch the labor movement, be- port to the war. He proclaimed cause Kuhn is an avowed enemy of the labor movement and justice. any Nazis found in the labor movement should be thrown out forthwith.

Against Patriotic "Logic"

But to lump Kuhn and Browder into the same category is a dangerous error. It can only be done by one kind of logic: the logic of "democratic" patriotism, whereby the enemies of the "democratic" war camp are all on the same plane. That is precisely the logic by which the war-mongering New Leader, du and Moslem alike to join the organ of the Social Democratic Federation, supports the per- British armies. secution of Browder.

The Socialist party and the Lovestoneites, in their identification of Kuhn and Browder, have done what they are doing bined (close to 2,000,000). They in so many important issues today: they are yielding to the fought in France, China, the Galpressure of the democratic imperialist war camp. A this false course only at the peril of surrendering entirely to stream of wealth poured from Inthe war-mongers and the war dictatorship. dia into the British war chest.

Earl Browder is part of the labor movement in exactly the try to satisfy the needs of the same sense as Louis Waldman, leader of the war-mongering war. India mobilized its huge man-power and resources for the social democrats. The Communist party and the Social-Demo-British . . . and obtained absocratic Federation are on an equal plane. One is the agent of lutely nothing. the Hitler-Stalin war camp, the other is the agent of the GANDHI'S RECORD TODAY democratic war camp. We would like to see labor free itself AND WHAT IT MEANS

The American born usually take all the best jobs for themselves and dirty discredited name—what of scious, democratic action of the rank and file of labor can put Nevertheless, so long as they are part of the labor movement, World War opened up, Gandhi so long as their members play a role in the trade unions and expressed his immediate willing-ness to perform his 1914 role all It is necessary to emphasize sharply this fact, because there secure the adherence of workers, both in the unions and to over again. He alone of the Conis a dangerous tendency in certain sections of the labor move-ment to refuse to condemn the persecution of the Communist within the labor movement. In settling that quarrel we want to the British. He didn't even ask no "help" from anybody outside the labor movement. Govern- for any promises as he had in ment repressions against the Communist party and the Social 1914! He was prepared to betray Democratic Federation are repressions by the capitalist class the nationalist cause even more against a section of the labor movement, and we defend all shamefully! sections of the labor movement against the capitalist class.

How Gandhi 'Fought' the Last War

By SHERMAN STANLEY

It is instructive to contrast the records and activities of Mohandas K. Gandhi, leader of the 5,000,000 strong Indian Nationalist Congress, in the last war and the present war.

Gandhi, just returned from South Africa where he had first developed his theories and methods of non-violent, passive resistance, rapidly asserted himself as tionalist cause

The Congress, which previously had been a small pro-British organization of wealthy Indian reaucrats, began to grow rapidly

A SUMMARY OF HIS 1914-1918 RECORD

Was the Negro an Inferior Worker?

the Mohawk Valley Formula in Was the Negro an inferior worker? The bosses at one time used to say so, but as they found it necessary to use the Negro more and creating "public sentiment" and organizing vigilante gangs have more, they changed their tune. Take this interview with a Buffalo superintendent of a steel plant:

"We found most of them good workmen. There are some who are poor, but in general they are good men. I don't see any difference between the races."

Or this statement by the assistant superintendent of a steel plant in Cleveland:

"Some of the very best workers we had were Negroes-I will say that the colored are on a par with the white."

Take this from a Superintendent of Safety and Welfare in Homestead, Pa:

"The Negroes that we brought up are superior to the whites that we brought in. We got one group of whites from Kentucky Hills district. They were just the poor white trash and were no good at all. We also got a shipment of whites from around Buffalo but they were just riff-raff. The Negroes are superior to them as workmen and morally. Also I believe they are better physically." (Black Workers and New Unions, P. 35.)

Where did the white bosses learn this? They wouldn't have said it twenty years ago. Some of them deny the Negro's capacity up to ing social insurance. The first church. today. But on the whole they have been driven by economic neces- struggle will see the lines swell sity to accept the Negro in the industry and then to recognize that struggle will see the he can do the job as well as any other.

us, we will win."

-work campaign.

All of the preliminary steps of

But the workers were having a much longer time to recognize the Negro. First it seemed to them that being white meant a better The workers will fight. The chance to get a job and a better-paid job. Which was true, though biggest turnout thus far of local it wasn't the whole truth. And secondly, although the white bosses union officers was seen last were forced to recognize the ability of the Negro, they did not go Thursday night at a special meetout of their way to help the workers, white and black, to overcome ing. At this meeting it was dethe prejudices. For them to do that would have been suicide. It cided to issue a tabloid paper for would have meant the unity of black and white workers, which, for city-wide distribution explaining the bosses, is the beginning of the end. So in some plants Negroes the union's position on the lockand whites continued to be segregated in the lunch-room. In another out. This Wednesday a huge mass plant the company built a swimming pool with money collected from meeting in Cadillac Square in both white and black and they prohibited the blacks from using the support of the Chrysler workers pool. In Gary, Indiana, the United States Steel Company took it will be held by the UAW-CIO. upon itself to see that Negroes were kept out of all the municipal In a front page editorial in the parks except one. United Automobile Worker, the

By this means the company aimed at keeping the Negroes and auto workers union gives corporawhites in the plants divided. The superintendent and officials of the tion and their stooge press the plant actually told the Negro workers that if they used a certain only answer they can understand: park they would lose their jobs. Why? Every white worker and Ne-"We Accept the Challenge!", the gro worker should ask himself this question and think over it until headline reads. "Solidarity Will he got the answer. Why were the bosses so anxious to prevent Defeat the Corporation's Union-Negro workers and their wives and children from using a park along Smashing Drive". with white workers and their families? Was it because the bosses loved the whites so much that they wanted to save them from Negro acting tough. But we have an contamination? But since when have bosses been so concerned about answer that has humbled what happens to workers after they leave work? The reason is obvi-

ous. The boss wanted to keep them apart. Naturally the white workers should have opposed this immediately, should have demanded that the Negroes be allowed to use whatever park they wanted, should have insisted upon it. But the workers are not as quick as the bosses at seeing these things. They see them in time, however. In succeeding articles we shall see how the white steel-workers as a whole, recognizd the necessity of cooperating with their Negro brothers in industry. We shall have to note particularly why they recognised it, and how this recognition

expressed itself.

FIGHT WITH THE SOCIALIST WORKERS PARTY FOR:

1. A job and a decent living for every worker.

- 2. Open the idle factories operate them under workers' control.
- A Twenty-Billion dollar Federal public works and housing program.
- 4. Thirty-thirty-\$30-weekly minimum wage-30hour weekly maximum for all workers on all jobs. 5. Thirty dollar weekly old-age and disability
- pension.
- 6. Expropriate the Sixty Families.
- 7. All war funds to the unemployed. 8. A people's referendum on any and all wars.
- 9. No secret diplomacy.
- 10. An independent Labor Party. Workers' Defense Guards against vigilante and 11.
- Fascist attacks. Full social, political and economic equality for 12. the Negro people.

Roosevelt's Russian Policy

With the careful deliberation that marks all its moves in the field of foreign policy, the Roosevelt administration has set about preparing the ground for American intervention in an eventual war of the imperialist powers against the Soviet Union.

Besides the open espousal of the Anglo-French cause in the present war, this is the cardinal premise right now of the Roosevelt foreign policy.

It is demonstrated in scores of ways, big and small. Hitler has theoretically been the main object of hostility but never after any of Hitler's many open attacks on the U.S. government did Roosevelt have his secretary make a public reply, as he had him do after Molotov's recent speech. Roosevelt stepped into the Finnish business in a manner precisely calculated to fan American hostility to Russia-and let it be perfectly plain: this hostility is not aimed at the perfidious Stalin, his crimes against the workers of Russia and of the world, but against the root and branch of the workers' state itself.

ism, but because we are vitally concerned in the defense of the workers' state that Stalin rules today as a usurper. And we'll defend that best, we'll ensure the end of all the Stalins, Hitlers, Roosevelts, and Chamberlains, by first establishing our own workers' power right here.

The War Boom

"Well anyway, the war's going to provide jobs"-how many hungry lads have though that! But it isn't so.

The war boom is on. Industrial production has gone beyond the peak levels of 1929. But ten million unemployed, even by the government's conservative estimate, still walk the streets in vain search of non-existent jobs.

Madame Perkins made a speech in Washington, Nov. 13, boasting that "this Fall industrial production has gone to the peak levels of 1929." But she immediately had to add: "That does not mean that employment will be correspondingly quite as high, since machine processes are increasingly efficient and the amount of goods produced by each worker averages more than it did ten years ago."

It's a mad world, my masters, as even Shakespeare's fool knew. More is being produced now than-was being produced ten years ago; every worker turns out more goods than each individual worker used to turn out. And the result? Disaster for the working class.

Where does the money go that used to be-paid to some ten million additional workers to turn out the same amount of goods ten years ago? That money now goes into the pockets of the bosses. Instead of more money to the workers because they produce more, and less hours of work so that everybody can enjoy the improved productivity, ten million workers and their dependents take the rap.

The war's going to provide no jobs for the unemployed .What it will provide them with is a uniform and early prospects of a coffin.

The war is a good thing for the fat cats and for nobody else. That's why we're against the war and why every worker who wants to live should be against the war.

The real fight for jobs is a fight against the war and the war-makers. All war funds to the unemployed! Expropriate the Sixty Familiesthe war makers! A job and a decent living for every worker!

The New York Vote

In its first appearance on the ballot in New York City, the Socialist Workers Party polled 2,259 recorded votes in the borough of the Bronx for its Council candidate, Max Shachtman. The results of the Manhattan write-in for By Dwight Macdonald

SPARKS IN THE NEWS

The Food Stamp Plan again

When I wrote in the New International several months ago about the Government's ingenious orange and blue stamp plan for feeding the unemployed on Federal 'surplus commodities". I looked long and earnestly into the mouth of that particular gift horse.

There was at that time a plan to extend the sale of food stamps to families not on relief whose income was less than \$19.50 a week. As I pointed out then, this move, although it meant an immediate gain in living standards for these non-relief poor families, had some dangerous ong-range implications.

One of these was that it tended to extend the stamp plan as a substitute for relief, since in many communities local officials, regardless of the intentions of Washington, would so use the plan. Another, which applies to the whole food stamp plan despite the raptures with which the liberal press has greeted it, is that the substitution of food stamps for cash relief is a step backward towards the old food basket relief of Hooverian days. Finally, this extension of Government control over the consumption habits of those on relief-and, in this latest development of the nonrelief poorer families-was one more step in the process of tieing down the masses with bureaucratic regulations.

Too Many Guinea Pigs!

The WPA's plan was to try out the new extension of the foo dstamp idea first in Pottawatomie County, Oklahoma. Recently, "after considerable delay", this initial test experiment got under weigh. A report in the N. Y. Times explains the reasons for this delay. At first, all non-relief families with an income of under \$19.50 a week were declared eligible for food stamps. "A survey of the county, however, showed that such a maximum would place on the eligibility list almost half the families in the county."

Thus the social breakdown of American capitalism has already gone so far-hail the American Standard of Living, at \$19.50 per family per week!-that it is now found impossible to increase the income of the masses even in the niggardly and bureaucratic way proposed by the food stamp plans. The WPA officials temporarily avoided this difficulty by arbitrarily restricting the test experiment to four hundred families. But the other thousands of families with incomes of \$19.50 a week down still exist in Pottawatomie County. And they must still be reckoned with once the new plan gets out of the test tube stage.

If the Supreme Court upholds the recent decision of the Third Circuit Court of Appeals, Tom Girdler's Republic Steel Company will have to rehire 5,000 employees fired during the 1937 steel strike. It will also have to pay each of them back wages for th centire period since the strike, an act of enforced philanthropy which will probably cost Republic in the vicinity of \$7,500,000.

Republic, which was put together just before the 1929 crash by the high-flying Cyrus Eaton, has never been able to accumulate the fat cash reserves of the other big steel companies. Financially, Republic has always been the weak link in the chain of the steel industry. If it actually has to pay ou tany such sum as \$7,500,000, Republic may be crippled or even put out of business.

This would be tough on Tom Girdler. But I must admit that this particular human tragedy leaves me unmoved. If ever there is a fascist drive to power in this country, Girdler will be one of the ringleaders. Even in the steel industry, Girdler stands out for his personal ruthlessness and barbarism. There is something warped and subhuman about his personality. He is a great hunter and horseman, and he makes it clear that he infinitely prefers horses to men. The only time I ever saw him, years ago, long before the Little Steel Strike and the Massilon and Memorial Day massacres, I received an unforgettable impression of inhumanity and even positive malevolence.

Like Shooting Rabbits . . .

In the World of Labor

-By Paul G. Stevens

Republic had just taken over the Corrigan-Mc-Kinney steel plant in Cleveland, and was "rationalizing" it-that is, firing about half the employees. In describing this operation, Girdler dwelt with evident pleasure on the .hundreds of Corrigan-McKinney workers he had been able to eliminate. He told how he and four or five other top executives made a tour of the entire plant the day Republic took over, constituting themselves a sort of firing squad to "execute" on the spot the superfluous workers. "We'd see five or six men working around a blast furnace," he reminisced pleasantly. "We'd go up to them and point out three or four-'You. . . you. . . you. . get your pay check. You're through!" " This seemed to amuse him. With a grin he summed up what the episode had meant to him: "It was some slaughter! Like shooting rabbits sitting!"

The dead end which imperialism has reached is shown with striking clarity by the inability of any of the warring powers to state its "war aims." All the rhetoric of all the propagandists is unable to hide the fact that they cannot tell the people of the world, in simple and concrete terms, what they are fighting for.

Jovernment

Their

Germany, in line with its "peace offensive," declared that there was nothing to fight about. What this meant, of course, was that Germany wanted to preserve its conquests while it got ready for new ones. The older Nazi talk about "re-uniting the German race" no longer makes sense, with Czechs and Poles and Slovaks now under Nazi rule.

Chamberlain has been trying to get by with the expressed goal of "wiping out Hitlerism." This was good for a speech or two, but it wears thin with repitition. Everyone is compelled to ask: what will take the place of Hitlerism? What will guarantee against worse than Hitlerism? Who will do the wiping out, and how?

The moral weakness in this inability to state war aims is already being widely felt in the belligerent countries. A clamor is arising-especially, it seems, in England-for something more definite in the way of a perspective and goal. A modest enough request, surely: if we are to die, we should at least be told what we are dying for.

Here and there, publicists, journalists and even statesmen are trying to put some sort of goal into words.

The Federal States of Europe

It is of very great interest to observe that, in almost every case, when imaginations get going they reach out toward the notion of a "federated Europe." Even before the war began, Clarence Streit's essay along these lines (Union Now) gained considerable popularit,y and a society has been formed to propagate his plan. In recent weeks, several British writers have presented their varieties of similar schemes.

In his Armistice Day address at Swarthmore College, no less a figure than the Marquess of Lothian. new British Ambassador to Washington, came out for the same slogan. True enough, Lord Lothian is hardly yet a fiery crusader. Nobody, he remarked, had offer-ed "any practical scheme of Federation" and a "large scale European federation" was not yet in sight; but, according to the Times, the Ambassador foresaw the eventual application to Europe of the federal principle tried first on the American Continent a century and a half ago.

True enough, also, Lord Lothian found that "one necessary preliminary is the defeat of totalitarian imperialism." The British are always careful not to clutter up their wars with ideals; ideals are always a matter for an indefinite future.

But we cannot dismiss this spreading talk about a federated Europe as mere casual daydreaming. There is more to it than that, and we shall find it cropping up more and more prominently. We must be sure to understand what is at issue.

The Paralysis of Nationalism

It is a fact that the political organization of Europe into its madhouse of "sovereign" nations makes impossible a free secure and expanding life for the peoples of Europe. And, when today we listen to the Lord Lothians, let us remember that it was the victors of Versailles who fastened on Europe these political lines, without regard to the economic, social or cultural needs of the peoples. National states, the political form under which a young and vigorous capitalism pushed through the structure of feudalism, have become a most terrible obstacle to mankind. What an overpowering burden it is to Europe: these thousands of customs houses; the blood-sucking tariffs; the dozens of swarming bureaucracies; the border lines of billions of dollars worth of forts, with all the national armies and guns and planes to accompany them; the passports and identity cards and work cards. No rational organization of economic and human resources as a whole is even conceivable under such circumstances. And immeasurable human energies are squandered daily, even in peace-time, to sustain this mad national structure.

On the broader diplomatic field the chief field of American intervention is with respect to Japan. American diplomacy is engaged in trying to woo Japan into a bloc of powers for war against Russia. The Anglo-French reduction of garrisons in China is part of this game.

Just as Chamberlain tried at Munich to bring Germany and Russia into conflict rather than let events slide toward an Anglo-German clash, Roosevelt is now trying to embroil Japan and Russia' and thereby spare Wall Street the expense of dealing itself with Japan first and Russia afterward. Where Chamberlain failed, Roosevelt thinks he can succeed.

The New York Times, which speaks with the voice of Wall Street imperialism, last Sunday drew a pregnant parallel between the present U.S. attitude toward Russia and the relations between the young American Republic and the revolutionary government in France nearly 150 years ago.

"... Relations with France, not long after our Revolutionary War, were embittered to the extreme," said the Times editorial, "when the transitory sansculotte government at Paris, overriding all considerations of international propriety, undertook first to interfere in our internal politics, next to blackmail our evoys for the safety of our ships upon the seas. The return of friendliness with France, now unbroken for a century, came when orderly diplomatic relations had been restored by the ending of the regime of fanaticism."

With the vicious anti-Red campaign already in full swing and the City of Flint hullabaloo echoing in our ears, we have no difficulty in understanding just what the Times means. It means that this country aims at "ending the regime of fanaticism" in Russia in order to restore "orderly diplomatic relations." It issues a call for the overthrow of the Russian regime and will work toward that end, just as the British capitalists worked for years to crush revolutionary France 150 years ago.

We'll fight that attempt, not because we are interested in defending the foul regime of StalinLyman Paine will not be known until the final official tabulations are made public.

The votes recorded for Shachtman were the first-choice votes given him under the proportional representation system. As soon as he was eliminated the second and third and fourth choice votes given to the S.W.P. were naturally lost in the division of these returns among the other candidates. Shachtman's actual vote undoubtedly ran many thousands above the recorded figure.

But this is not the important thing. The fact that we won a place on the ballot, securing thousands more than the required signatures to get it, represents a long stride forward for our party. More important still is the fact that in this campaign with leaflets, street-corner meetings, and indoor meetings, we brought to many more thousands of Bronx workers the firm, uncompromising anti-war program of our party.

The boss parties and the American Labor Party came before the workers as the avowed supporters of the Washington-London-Paris axis in the present war. The Communist Party stood as the representative of the Berlin-Moscow axis. We emerged as the fighting representatives of the third camp that uncompromisingly fights all the war - makers and strikes for a workers' peace through workers' power.

That our vote was small was a reflection only of the fact that our party is still small and its voice barely heard among the thunder of its opponents. But its ideas are great and powerful and will one day encompass the world. The New York campaign was one step in bringing that day nearer.

ompletely disappeared. Nor has there been any noticeable Stalinist effort to issue an illegal press. Only "La Vie Ouvriere," the Stalinist trade union weekly still appears with a semblance of regularity. The last issue of that paper whose contents have come to our attention shows that the Stalinists had not yet made their turn from social patriotis mto the new, camouflaged, "anti-war" position by the end of September. Thus, G. Monmousseau, the editor, writes in a leading article:

French Labor Under the Heel

Only the scantiest scraps of information re-

garding the labor movement have managed to

come out of France. Labor news from that war-

torn country is almost as rare as from Germany.

The labor press has been reduced to a shadow

of its former self. All the Stalinist dailies have

of the War Dictatorship—

"The struggle for liberty against Hitlerite barbarism does not signify for those who fight in the ranks of the countries subjected to this aggression merely defense at any price of the nation itself against foreign oppression; it also means, at the same time, defense of public liberties, of democracy and of all that which comprises the possibilities of social progress and human libera-

In the Middle of the Crossing

This was written weeks after the C.P. had already been dissolved by the Daladier government, and only testifies in part to the great confusion in the ranks of the Stalinist functionaries, who for months now have been juggling phrases which try to reconcile "democratic" patriotism with approval of the Stalin-Hitler Pact and the line flowing from it.

The great trade union daily, "Le Peuple," has been transformed into a weekly. The social democratic press has likewise suspended most of its daily publications, with only "Le Populaire" still appearing regularly.

Naturally, as was to be expected, the entire social democratic leadership, both the "collective security" faction under Leon Blum and the "pacifist" faction under Paul Faure, is completely backing the Daladier government in its conduct of the war.

Syndicalism — Its Fruits

But even the pacifist syndicalists under Belin and Dumoulin have given up every pretense of an anti-war struggle. Thus, their weekly, Syndicats, declares that "we will take care not to give any council (sic) in the conduct of military operations" and further, that "in order to make all the arrangements corresponding to the necessities of such production as is indispensable to armament and to the human possibilities (sic), it is necessary that our syndicalism be freed from outside control.'

In other words, their slogan "for the independence of syndicalism" turned out in practice to be a cover under which control of the trade unions was transferred from the Stalinists . . . to Daladier.

This inauspicious realization of "independence" has borne some pretty rotten fruit for the mass of the workers in the unions. Thus, their press is muzzled, hundreds of their militants arrested for 'seditious" language, correspondence spied, communications suppressed, agreements violated, sowar, liberty and democracy, like the monuments in the public squares, are sort of hidden from sight by sand-bag embankments. Later on, the sandbags will be removed. . . ."

cial legislation abolished and, above all-their

40-hour week transformed into a 72-hour week,

their paid vacations abrogated, their wages re-

duced anywhere from 30 to 40 per cent, not to

speak of the wholesale slaughter of the trade

Belin explains all these fruits of "independent

"In a period of war it is hard to see what re-

mains of democracy and liberty. . . . In times of

unionists sent to the front.

trade unionism" away as follows:

Thousands of workers have replied to this state of affairs with a mass exodus from the unions.

The First Rumblings of Revolt

But the revolutionary voices are not silenced altogether in the trade unions. Thus, the Federation of Technicians, with which militants of the Fourth International have long been identified, has publicly proclaimed its revolutionary internationalist position. Its stand has been endorsed by several local unions and trade union councils. At present they are engaged in a struggle to prevent their expulsion from the CGT.

Here and there in a factory, the "International" is sung spontaneously by the workers. In the Paris munition works a mass movement against reduction of wages has begun to make itself felt In one factory a social patriot calling for support to Daladier was recently sent to the hospital by a group of enraged workers. Even at the front the soldiers are beginning to grumble against the "war of the bosses." Our comrades report that on a recent visit to the front, Daladier was booed in the trenches

These are but the first rumblings of a native "bolshevism," says one of our correspondents which the French bourgeoisie fears far more than the so-called imported variety which it has been able quite easily to suppress.

For International Solidarity-S.O.S. From China

Recently a comrade representing the Chinese section of the Fourth International passed through here .The comrade gave an account of the work of that section which is testimony of an unquenchable heroism in the face of untold dangers. More than 500 comrades, concentrated in the main industrial centers and in the guerilla armies fighting Japanese imperialism, are waging a daily battle for the ideas of revolutionary internationalism. Two monthly illegal papers and a legal weekly make their way regularly to the factories in Shanghai and the other industrial cities.

We have just received urgent word from our comrades in China, however, that without immediate financial aid their organization faces almost certain extinction: In the past comrades here have responded promptly and generously to the appeals of our Chinese organization. Will we now, at this critical moment, fail to respond again?

We must not let down our valiant Chinese section in this hour of need! Rush donations, no matter how small, to the Socialist Appeal, 116 University Place, New York City! Hold social affairs! Take up collections among your friends! Our Chinese organization needs your help at once. Do your bit!

And, though these things are most conspicuously true of Europe, they hold for the entire world. Under the conditions of modern science, technique and production, the national state everywhere paralyzes the progress of mankind.

But Whose Federation?

This is why we, as socialists, agree a thousand times with the perspective of a federated Europewe go much further, and call for a federated world. But the question does not end with the hare concept of a federation. We must ask: who will do the federating?

It is not at all improbable that, whoever wins the war, some sort of federal plan for Europe will be set up. Too many persons have come to realize the impossibility of the nationalist structure; that structure has been proved too dangerously unstable. But: whose federation?

Hitler, in his own way, has proved himself something of a federalist. If he has the chance, he will undoubtedly show great talents along federal lines. He has already constructed a federation out of Germany, the Saar, Austria, Czecho-slovakia, western Poland. It was, among other things, precisely the insane Versailles-born national structure that permitted

him to do so. And Hitler's federation of Europe would mean, exactly, the reduction of the national states of Europe to Nazi provinces.

Lord Lothian is now looking forward to a federation. It would differ from Hitler's only in having its capital at London (or possibly Paris) instead of Berlin, and in the reduction of the national states to provinces of Anglo-British instead of German imperialism.

For Lord Lothian and for Hitler, a federated Europe means merely a new name for an advanced type of imperialist tyranny.

If federation is to mean freedom and peace and progress for the peoples of Europe, there is only one basis on which it can be constructed: on the basis of socialism. And there is only one force that can set up such a federation: the workers and peasants of Europe struggling against their imperialist governments and against their war. In that struggle German workers fight not against but alongside of the workers of France and England.

A federated Europe? Yes: this is what we call foi as the solution to the war. And we sum up that goal in our great slogan: For a Socialist United States of Europe!
