Mass Resistance Rises Against Hitler's Rule

General Strikes Sweep Denmark As Nazis Proclaim Martial Law; Anti-War Demonstrations in Bulgaria; Ferment Grows in Germany

By Miriam Carter

Heartened by the Soviet victories and the militancy of the Italian people, the European masses have resumed the struggle against their fascist oppressors with renewed intensity. The most important recent developments are the general strikes and demonstrations in Denmark, anti-war and anti-Nazi demonstrations in Bulgaria, and a growing tension within Germany which is reflected in the appointment of Heinrich Himmler, head of the Gestapo, as Reich Min-

ister of Interior. the "model protectorate."

"Square Shooting" and the Speedup

The current issue of Fortune Magazine has a long article praising the Detroit Murray Corporation of America for its incentive wage plan and the 'square shooting that helps to account for labor satisfaction with incentives."

The ink was hardly dry on this article when 9,000 UAW members employed by the Murray Corporation walked out on August 28 in protest against a provocative company order docking a half-hour's pay from the wages of workers who were a minute or more late from their fifteen-minute lunch per-

The auto barons have not changed their spots. They are still the same gang of greedy, chiselling anti-labor profiteers. The incentive plan is being pushed today with the argument that the bosses, concerned with increasing production alone, will not chisel on the workers, as they did under previous versions of the speedup plan. The Murray experience shows how false this argument is and how little the bosses are to be trusted in anything.

Workers Vote to Strike in Every One of 13 NLRB Polls Under Smith-Connally Act

By Farrell Dobbs

Armed with new police powers against the unions by President Roosevelt's sanctions order of August 16, the War Labor Board is now more arrogant than ever in applying the administration's policy of keeping wages frozen despite runaway prices. Among the workers, on the other hand, widespread dissatisfaction with WLB policies and the no-strike pledge is reflected in recent strike votes. The National Labor

Relations Board reported 5 on August 28 that in every Association. Under the pressure of the miners' militant strike one of 13 strike ballots struggle, the greedy mine owners taken under the Smith-had agreed to pay \$1.25 a day for travel time underground. Happy Days For Big Business

Corporation profits are continuing to break all records. According to the official figures released by the Commerce Department in its August business survey, corporations are now raking in profits after taxes at the unprecedented annual rate of \$8,600,000,000 and will do even better in the second half of 1943, and still better in 1944. Big Business is pocketing almost a billion and a half more boodle annually than it did in the best peacetime year, 1929. Since the outbreak of World War II in 1939 these profiteers admit to having pocketed more than 34 billion

dollars in profits alone. Not only the profits of peacetime but the profits of the last war pale into insignificance beside the astronomic sums Big Business is coining out of the suffering and blood of the current slaughter.

Tasks Of The Coming Auto Union Convention

By E. R. Frank

The eyes of the whole labor movement are again turned on the United Auto Workers Union, whose eighth convention will open in Buffalo on October 4. For the UAW is today the strongest trade union in the country. Its membership has passed the million mark and is still growing.

The UAW has more than mere size to recommend it as the most important union in America. Unlike many other unions, it was built and grew strong in bitter strike struggles against America's industrial giants. Above all other unions the UAW is distinguished by the active participation of a greater percentage of its shop militants and stewards in the work and decisions of the union.

Contrast With Last Year

The eighth convention of the UAW, in contrast to the convention of a year ago, will meet at a time when the top leadership is split in two sections. After Pearl Harbor, the Reuther and Addes factions united organizationally - they had always been united on basic program - and formed a unified leadership. At the Chicago convention last year, this united leadership confronted the rank and file and unanimously fought for the adoption of a pro-Roosevelt, pro-war "union sacrifice" program Likewise in unanimity, they unsuccessfully attempted to deprive the membership of many of its democratic rights.

The leading militants who protested against the cowardly policy of the UAW leadership thus faced the opposition of a united leadership. That is why for the first time in UAW history the militants found that they were forced to rely solely on their own resources, strength and program. The beneficial effects of this course were obvious at once. The key questions agitating the auto workers were debated openly and squarely at the convention on the level of the political understanding of the delegates. The fight for a militant program was not deflected or obscured by considerations of unprincipled clique alliances or horse-trading of votes.

The lineup for the coming Buffalo convention shapes up somewhat differently. Today the UAW Executive Board is split again. Two caucuses, one under the leadership of Reuther, the other under the leadership of Frankensteen and Addes, are feverishly lining up support for the convention,

The faction fight flared into the open over six months ago when Reuther and Addes clashed over the issue of incentive pay. Under Reuther's leadership, the Executive Board rejected the proposals of Addes and condemned the incentive pay program. The heated nature of the faction struggle became obvious when La Motte, director of the Chrysler locals, publicly accused Reuther last May of "fomenting" the four-day Chrysler strike. The faction fight reached a high point at the Michigan State CIO convention in July of this year when the supporters of Addes and

Reuther lined up in two hostile caucuses and bitterly fought each other on the convention floor.

Differences in the Leadership

What are the differences that led the UAW leaders to split again and launch a factional fight in the union?

The program of the Addes-Frankensteen group is a replica inside the UAW of the Murray program in the national CIO. Like Murray, the Frankensteen-Addes group wants to hogtie the labor movement to the war machine, to convert the labor movement into a miserable appendage of Roosevelt and the Democratic party. Like Murray, Frankensteen and Addes follow a policy of cooperating with the Stalinists in the unions where the latter constitute a force. Of course, these bureaucrats do not have to alter their program in the slightest to do that., In all practical respects their program is today identical with the fink program

The Reuther faction likewise espouses a pro-war, pro-Roosevelt "sacrifice" program. Why has it then organized a separate faction and why does it wage bitter warfare with the Addes-Frankensteen faction? Since the last convention Reuther and the UAW top officials associated with him have grown increasingly aware of the rising dissatisfaction of the American worker with the Roosevelt labor policy. In the UAW, this sentiment is of an especially articulate and explosive character. Reuther and his supporters understand better than the others the tremendous potentialities of this rank and file movement. That is why they have decided to try to take the leadership of it. The new faction fight has started in the UAW for the same basic reasons as the faction fights of the past: the dissatisfaction of the rank and file and their determination to force through a more aggressive program. This growing resentment has now found its reflection in the top leadership of the union itself.

But just as in the past, the top bureaucrats do not take the leadership in order to lead a principled fight for a more militant labor program. Invariably in the past these top bureaucrats have used the dissatisfaction of the rank and file for their own narrow clique aims, to strengthen their personal hold on the leadership at the expense of their rivals. Invariably, they toned down the program of the progressive opposition and steered the fight into harmless channels. That was the pattern of Reuther's leadership in the past struggles in the UAW. That is the pattern of his leadership today,

Under the direction of the Reuther caucus, the demand for action to rescind the no-strike pledge at the recent Michigan State CIO convention was deliberately watered down to a recommendation to Murray and the national CIO officials who continue to reaffirm the no-strike pledge. A similar fate overtook the proposal to launch an independent labor party. The original resolution, which proposed to break with the two employer-dominated parties, was changed to a proposal to launch the independent labor party for the purpose of upholding Roosevelt's war leadership. And again, as in the past, a major part of the time and effort of the Reuther caucus was spent in horse-trading and lining up votes to elect Reutherites as state officers, not in order to carry through a more militant program, but to tighten the hold of the Reuther caucus on the Michigan State CIO machine.

Present Policy of Reutherites

The insincerity and lack of principles of the Reuther leadership were even more glaringly revealed in the aftermath of the Michigan CIO convention. The CIO leaders took fright at the tremendous scope of the labor party sentiment and set up a "political committee" under the national chairmanship of Sidney Hillman for the purpose of heading it off and deflecting it into the channels of a fourth-term campaign in 1944. At the midwest CIO conference called by Hillman in Chicago, the Reuther leaders present acquiesced in this sellout and forgot all about their speeches at the Michigan CIO convention. Several of them expressed themselves as completely satisfied with the Hillman proposals.

The convention program of the Reuther caucus shows where the Reutherites are really heading. "We stand," the caucus document reads, "for an aggressive program of political action based on full support of the CIO policy of mobilizing labor, farmers and all progressive forces for united political action behind President Roosevelt and for the election of public officials who will advance the interests of the common people against the forces of reaction.

"We stand for continued full support of President Roosevelt and Philip Murray. . .".

One of the few points of their faction program at the Michigan Convention to which the Reuther leaders continue their allegiance is their organizational opposition to the Stalinists, (Politically they are in virtual agreement.) Like Dubinsky in New York, Reuther wants to isolate the Stalinists and destroy their influence in the labor movement.

The New Tactic of Stalinists

At the Michigan CIO convention, the Stalinists took a leading part in organizing the Addes caucus in the debates on the convention floor and in lining up votes for the faction slate. Moreover, from the beginning of the coal crisis last March right up to the state CIO convention, the Stalinists were busy conducting a smear campaign against Reuther because of his opposition to the incentive plan.

Following their debacle at the Michigan CIO convention, the Stalinists hastily came to the conclusion that their too obvious factional leadership was a mistake and placed them in too vulnerable a position within the UAW. The Stalinists became convinced that the heated factional atmosphere that prevails in the union makes it more difficult to squelch the rank and file oppo-

sition and to hound the militants out of positions of influence. The Stalinists thereupon dropped their vilification campaign against Reuther and launched a new drive to reunite the Reuther and Addes groups for the purpose of reestablishing a united leadership. A united leadership, they felt sure, could more successfully attempt to repulse the growing rank and file opposition to the CIO policies of surrender and defeat. They propose to fight the growing militancy of the union membership by the slogan of unity. Break up the factions, they cry, let us have an end to all factionalism. Let us have unity behind the leadership of Roosevelt and Murray. The Stalinists are pushing the same old fink program in the UAW but under new methods and new slogans.

The Chicago Convention

The UAW Chicago convention of August, 1942 registered the first important union protest against Roosevelt's domestic policy. But that is all it was, a protest. The auto workers still considered the author of this policy as "the greatest humanitarian ever in the White House." They were still confused as to how to remedy the desperate plight of the labor movement. The savagely critical, full scale debate of the Chicago convention on the Roosevelt labor policy was concluded by adopting the lame demand that Roosevelt instruct the WLB to set up regional boards! The delegates were still under the Roosevelt "hypnosis," they had still not attained the political clarity to work out an effective alternative program to the sellout policies of the UAW and CIO top leadership. The proposal of one delegate to rescind the union's no-strike pledge met with absolutely no response on the part of the convention. For all its militancy and the bitterness of its criticism, the Chicago convention constituted no more than

Witness the great advance in the political thinking of the auto workers as demonstrated at the Michigan State CIO convention one year later. The delegates not only criticize and attack the leadership. They propose an alternative program of action. In spite of the distorted form of its resolutions, the Michigan CIO convention demands for rescinding the no-strike pledge and the launching of an independent party of labor constituted a call for the economic and political independence of the labor movement. Unquestionably these two demands will become the key points of debate on the union's policies at the coming Buffalo

The Buffalo convention will meet in a fateful hour of American labor history. Roosevelt has just renewed a vicious antilabor offensive by his decree authorizing "sanctions" against the labor unions. At the same time, the WLB has served notice through its infamous decisions in the recent shipbuilding and coal mining cases that the wage freeze remains. The auto workers, smarting under the new repressions and the skyrocketing war inflation, are in a fever of resentment and dissatisfaction. They are seeking a way out.

A Clearer Understanding Today

Today the auto workers have a clearer idea of what they want than they had a year ago. The hardships and experiences of the past twelve months have clarified many things. The three coal strikes of 1943 have not gone by without leaving an indelible impression on the minds of the union militants. They possess a more conscious, more precise alternative program to the treacherous program of the CIO leadership. They want to break with the whole setup which shackles their unions to the war machinery. They want to smash the Little Steel formula by which their wages remain frozen under conditions of soaring war prices. That is what the rank and file are thinking and mean when they compress it in the single phrase: Rescind the no-strike pledge.

The auto workers are likewise sick and tired of the pushing around they have been taking at the hands of their alleged representatives in the government. They want to see the government run by men who represent them and their interests. That is what the rank and file mean when they compress it in the formula: Build a labor party.

What the Auto Union Needs

Will the convention give adequate expression to these aspirations of the rank and file? All the bitter experiences of the past struggles in the auto union point to the evil effects that invariably follow when the militants place their reliance on the leadership of a Reuther, an Addes or some other bureaucrat. All past experiences along this line attest to the fact that the top bureaucrats take the leadership only to behead it, only to strengthen their own clique control over the union. The militants must take these lessons to heart. They must not water down their program or their fight for the interests of the men back home in the shops, in return for some posts on the Executive Board. They must not make unprincipled deals to elect some individual to office at the expense of program and a clear, decisive fight for the program on the convention floor.

If the leading militants under the leadership of Reuther and his friends succeed in kicking off the Executive Board two or three of the most obnoxious bureaucrats, that will have very little significance for the progress of the labor movement. It will contribute little or nothing to the solution of their problems.

If the militants absorb the lessons of the past, they will rely only on their own strength and resources. They will refuse to blunt their aims by those trades or unprincipled deals. They will make a clear-cut fight for a militant labor program, headed by the key proposals to rescind the no-strike pledge and to build an independent party of labor. Only in this way will the eighth convention of the UAW give true expression to the desires and the aspirations of the auto union membership and provide inspiration and leadership for a campaign to repulse the union-busting offensive of the bosses and the government.

Trotsky Memorial Meeting Held By Seattle Branch

SEATTLE - The local branch of the Socialist Workers Party held a Trotsky Memorial Meeting on Sunday, August 22. The main address was delivered by Art Sharon who reviewed Trotsky's life, revolutionary career, and teachings especially in the light of the great current events which are verifying in life the reality and truth of Trotsky's program The speaker pointed out that Trot sky stood side by side with Lenin in guiding the first stage of the world revolution which began with the victory of the Russian tober revolution of 1917. In the years of reaction that followed Trotsky prepared for the second stage of the world revolution which is now unfolding and which

destined to guide. Following Sharon's talk, the au dience heard an electrical trans cription of Trotsky's speech on the occasion of the founding

The following telegram was sen by the meeting to Natalia Trotsky "Seattle Trotskyists and friends join in sending you re-affirma tion of our confidence in the com ing victory of the Fourth International. The stormy days now upon us bring our Old Man's vindication.

MOTHER RUSSIA by Maurice Hindus. Double-

For twenty years Maurice Hindus has been

visiting Russia ostensibly "with only one purpose

in view - to hear the people talk." The fact, how-

ever, that he has been permitted by the Kremlin

to return time and time again means that all his

His latest book is still another indication that

Hindus reports the "way the people talk" in or-

der again to justify the current political line of

We shall confine ourselves to the following

1. Hindus attempts to show that the magnifi-

cent defense of the Soviet workers is based upon

the Stalinist theory of "socialism in one country."

Nowhere does he undertake a political exposition

of this theory: "This is not the time and place to

discuss and examine the historic controversy," he

writes. But his whole examination of Soviet life

is an oblique defense of the Stalinist theory. All

the internal reactionary moves of Stalinism -

forced collectivization, the purges, reactionary

legislation on working conditions, family, divorce,

etc. — are palmed off as inevitable prerequisites

for the defense against imperialism. And there is

not a single word about the international conse-

quences of "socialism in one country" - the cruel

defeats in China, Germany, Spain, etc., which

2. Hindus devotes whole chapters to singing

the praise of "old Russia," "Mother Russia." Sta-

lin dares not summon the Russian workers to bat-

tle by reminding them of the great traditions of

the Red Army under the leadership of Trotsky.

The glorious achievements under men like Trot-

sky, Muralov, Smirnov, Mrachkovsky and other

legendary heroes of the Civil War are kept from

the masses; but the feudal nobility of "old Rus-

by the Kremlin's literary hacks as "glorious an-

Trotskyism in more than one instance. For example, he attempts to imply that the five year plans were the product of the genius of Stalin and "socialism in one country." It is an historical fact that it was Trotsky and the Left Opposition who first raised the campaign for the industrialization of Russia and fought for it as an integral part of the struggle against Stalinism. Abandoning revolutionary internationalism, Stalin then appropriated the Trotskyist program of industrialization and applied it in his own bureaucratic and distorted manner. Not a word of this is to be found in Hindus; on the contrary, we read the following miserable summary: "Stalin won. The exile, imprisonment and eventual execution of various opposition groups signalized among other things the Russian break with the Trotskyite

Hindus prefers to omit the fact that Stalin's break "with the Trotskyite idea" was really his betrayal of Marxism-Leninism. The Kremlin and all its agents must bury in silence or slander the meaning of all the events since Lenin's death.

There is one point on which we can agree with Hindus. Speculating on the possible dissolution of the Comintern (before it occurred) he writes: "But let us not hasten to assume that the rebelliousness which now empties itself into the communist parties would cease to exist. Most emphatically it would find an outlet elsewhere, in a new organization or in the Trotskyite Fourth Interna-

JOIN US IN FIGHTING FOR:

- 1. Military training of workers, financed by the government, but under control of the trade unions. Special officers' training camps, financed by the government but controlled by the trade unions, to train workers to become officers.
- 2. Trade union wages for all workers drafted into the army.
- 3. Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.
- 8. A Workers' and Farmers' Govern-
- The defense of the Soviet Union against imperialist attack.

Labor Day Lies Of Union Haters

On Labor Day the Democratic and Republican "friends of labor" will momentarily conceal the knives they and their colleagues have been plunging into the workers' backs for the past year. On the platform, in the press and on the air they will praise labor, make unlimited promises, tell the workers to trust in the capitalist system or in the benevolence of Roosevelt. And the union bureaucrats will rub their paunches in approval.

WLB Chairman Davis has provided a sample of this fake oratory in his Labor Day statement to the labor press. "This is our Labor Day pledge to you," declares Davis. "The National War Labor Board will give your case full and fair treatment, and will act on it with all possible speed."

This promise will be greeted with loud jeers by the millions of workers in auto, rubber, steel, packinghouse and shipyards who waited month after month for the WLB to pass on their demands and then had them denied or slashed to a pittance. The miners received no "full and fair treatment" from this "court packed against labor." The WLB did not even stop to hear their case before they tried to hang the UMW.

The labor movement finds itself in a blind alley on this Labor Day because it has followed the policy of trusting in the false promises of such "friends of labor" as Davis and Roosevelt. The AFL-CIO leaders continue this policy even though its bankruptcy is manifest. They suppress every attempt of their rank and file to rely upon their own independent power in economic action against the employers. They try to head off the growing movement for an independent labor party in order to cling to Roosevelt's coat-tails no matter where labor is being dragged.

To prevent their conditions from going from bad to worse, the workers must break, and force their leaders to break, with all the scoundrels who make a profession of deceiving and betraying the workers for the benefit of the bosses. They must break with the two capitalist parties. They must build their own political organization, an independent labor party based upon the trade unions and pledged to a militant program of action in defense of labor's rights and welfare.

The USSR And The Plan To Isolate It

The Kremlin is becoming more and more outspoken about the plans being cooked up by its "allies" in Washington and London (with the help of the Vatican) to isolate the Soviet Union in the post-war Europe. Several weeks ago, the Moscow periodical, War and the Working Class, openly charged in an article that a cordon sanitaire is being organized against the USSR along her western boundaries. The Soviet Embassy in Washington is now circulating this article in its current inform-

The Kremlin still pretends that the plans to bottle up the USSR emanate from a handful of reactionaries. But the truth is that a cordon sanitaire against the Soviet Union is an integral part of the Roosevelt-Churchill "democratic" program for the reconstruction of Europe. Why? Because London and Washington want first and foremost to preserve capitalism in Europe. And the preservation of the capitalist order requires the isolation and the eventual destruction of the first workers' state.

Undeniable dangers are looming ahead for the USSR. Far from averting them, it is precisely the Kremlin that bears the greatest responsibility for these dangers. Stalin's policy calls for the preservation of the capitaist order in Europe. This is the 'concession" he made in return for a military alliance. Thereby Stalin has facilitated the capitalist attempts to isolate the Soviet Union.

The only other order possible for Europe is the socialist order. Only by the extension of the Soviet property forms - nationalized property - to the rest of Europe can the USSR escape isolation and survive. Once again it is Stalin who has done the most to bar the road to the struggle for the establishment of the Socialist United States of Europe.

The diplomatic moves and counter-moves of the Kremlin and its "allies" give expression to the fundamental class differences and the irreconcilable conflict between the two social orders. In the critical days ahead this conflict is destined to come to the fore more and more sharply.

Navy's Attack On The Brewster Union

The action of the U.S. Navy in arresting more than a score of guards working at the Johnsville plant of the Brewster Aeronautical Corporation and now holding four guards for court-martial is an ominous indication of the growing trend of the government towards totalitarianism and anti-labor repression. Increasingly we are beginning to hear of the Army, Navy or some other arm of the military injecting itself into the internal affairs of a union and under the guise of patriotism sweeping aside the contract in existence between the union and the management. The brass hats of the military have ordered the "disciplining" of union members. They have demanded the abrogation of certain clauses of union agreements. In many cases, they have ordered the outright dismissal and blacklisting of militant union fighters.

The United Auto Workers union, with which the Brewster local is affiliated, has already suffered heavy blows from these many encroachments of the military. Union militants have been fired and blacklisted under Army orders in the Buick, Bohn, Bell Aircraft and numerous other plants. The rank and file outcry against this brazen union-busting campaign on the part of the military became so strong six months ago that the International Executive Board officially took cognizance of the matter at its March meeting and protested the action of the Army. But of course, the Board even in this case did not deviate from its cowardly, capitulatory policy. The Board did not propose an aggressive line of action to hurl back the anti-labor offensive of the bosses via the military brass hats. It merely demanded that the army not fire any union members without first granting them a full and impartial hearing!

Now Thomas and Company have gone so far in their treachery that up to the present time they have not even bothered to protest, much less propose to fight, the infamous action of the Navy in the Brewster plant.

The Brewster incident illustrates again the fact that the top bureaucrats are so tied up in the war machine, they are so dependent on the government, they have so completely taken on the job of labor agents of the employer-dominated government that they cannot and will not defend even these elementary rights of the union membership.

The coming Buffalo convention of the UAW will do well to give unambiguous warning to these anti-labor brass hats that labor will not tolerate totalitarian interference with its rights.

The Struggle For A Proletarian Party

By JAMES P. CANNON

Leon Trotsky appraised this companion volume to his

"In Defense of Marxism" as follows:

"It is the writing of a genuine workers' leader. If the

discussion had not produced more than this document,

Price: Paper Cover, \$1.50

Clothbound, \$2.00

and the Communist Party. Nevertheless, it is plain from the reports which have come through that these organizations,

the time being, to be holding po-

sitions of leadership among the

workers — the liberal capitalist

Action Party, the Socialist Party

despite the "leftist" proclamations attributed to them, have been the chief factor restraining the masses from revolutionary actions against the government. These organizations have denounced the government for continuing Italy's alliance with Hittempt to organize the workers for the overthrow of the government, despite the obvious readiness to struggle shown by the workers in their splendid demonstrations and their response to calls for oneday strikes, half-hour work stoppages, parades, etc. Instead of fighting to replace the Badoglio regime with a government representing the workers, they have followed the policy of "putting pressure" on the government.

The first reports about a 'truce" between these organizations and the government, begun in order not to "embarrass" Badoglio and increase the difficulties facing him in the form of German opposition to Italy's withdrawal from the war, were received in August. Later a dispatch from Berne reported:

"Late last night a conference between the left-wing leaders and military commanders in Milan, seeking an 'armistice in labor strife pending the outcome of the government's negotiations' broke up with a deadlock." (N.Y. Times,

August 18.) Another indication of the policy pursued by these organizations was the conference held between some of their representatives in the northern cities and Labor Minister Piccardi, To strengthen their bargaining power, the leaders of the workers called a 24hour strike which the authorities responsible for the arrest of the were completely unable to preplant guards. We trusted the vent - and then these leaders Navy. They came to us and ask- entered into discussion with the

Of course, no organization least of all the Marxist party is called upon to attempt the revolutionary overthrow of the government if the conditions are not "Every six months the plant ripe for it. But no party can ture if today it sows illusions ture of the government, as the has been doing.

There is a revolutionary situation in Italy today, but it may be overcome by Badoglio and the ruling class if they are given time. The main problem presently facing the Italian people is still the task of creating a party which has no intention of compromising with any capitalist regime but which is on the contradeclared. He warned the members ants' Government, the only kind

What Causes Delay in Delivery of 'Militant'

A number of new readers have complained about the long delay which sometimes occurs between the time that The Militant is mailed and the time when it reaches subscribers. There was a lapse of something like ten days in the delivery of one issue last month.

These delays are not the fault of The Militant. The editorial staff regularly submits the last of its copy to the printers early on Wednesday morning, and the circulation department regularly prepares the copies of the paper for mailing on Thursday morning. What happens to the paper thereafter rests in the hands of Post Office Department and Justice Department officials in Washington.

In March of this year the Postmaster General, in a decision widely criticized in labor and liberal circles, revoked the second-class mailing privileges of The Militant because of its criticisms of the administration's domestic and foreign policies, its denunciations of Big Business and its advocacy of an independent labor party and a Workers' and Farmers' Government. The arbitrary and flimsy pretext for this act was the government's contention that an individual reading The Militant's criticism of the administration and Big Business might be persuaded thereby not to enlist in the armed forces.

The Militant announced its intention to contest this decision in the courts, and as a preparatory step filed a reapplication for its second-class privileges early in July. No word has since been received about the fate of this reapplication. Meanwhile the paper continues to go through the U.S. mails under third-class and fourth-class rates, with each issue being held up until it has been examined and released in Washington.

Readers who wish to do something about the delay in the delivery of The Militant should direct their complaints not to us, but to Postmaster General Walker, Washington, D. C.

The Dissolution of the **Canadian Communist Party**

The Communist Party of Canada was liquidated last month when the Canadian Stalinists formally launched a "Labor Progressive Party" - an "all-inclusive labor-farmer movement"-in a convention at Toronto.

The new Stalinist program in Canada shows how far these renegades have travelled on the road of their betrayal of Marxism, and the world working class. The primary planks, in line with the Kremlin's policy, call for national unity to win the war. First and foremost, of course, is the opening of the "second front" in Europe. The Canadian version of the Stalinist speedup or "incentive plan" is dished up in the guise of a "partnership" between farmers and labor with the government for "greater war production." The sole concession to the immediate demands and needs of the Canadian workers is a plank calling for "equal pay for equal work for women and youth over 18."

The bulk of the program is devoted to post-war reconstruction. And even here the Stalinists do not go beyond a mild program of reforms to preserve capitalism in Canada. They ask for a few reforms in taxes and in the constitution, promise unemployment and health insurance, "security for the armed forces upon demobilization," tax-exemption for disabled citizens, etc. The most radical proposals call for a minimum post-war wage of \$25 a week, a billion dollar housing program, "a national agricultural policy" and the "nationalization of productive monopolies."

This wretched prescription for the patching up of Canadian capitalism is sugar-coated with a promise of "greater democracy to Canada." There is no mention of socialism and socialist tasks. There is only a promise that "eventually socialism may be established." All this, lies Tim Buck, the "National Leader" of the revamped Stalinist organization, is in "the spirit of the teachings of Marx, Engels and Lenin." (Daily Worker, August 30.)

Among the pretexts cited for the liquidation of the old organization is the failure of the Canadian government to lift the ban on the Communist Party. Therefore the Stalinists proceeded to organize a new party for the support of this self-same government.

Davies' Film Picketed By British Trotskyists

The Davies' whitewash film, "Mission To Moscow," has been consistently picketed during its showings in London by members of the Trotskyist Workers' International League. The theatres are picketed with placards exposing the lies of the film. The demonstrators also sell a special penny folder telling the truth about the GPU-Hollywood whitewash of Stalin's crimes. During the first week-end of the film's run 7,000 copies of this folder were sold and thousands of theatre-goers and passers-by expressed interest in the placards and the purpose of the demonstration.

Some of the demontrators have remained at their posts as long as 8 to 10 hours without a break,

The Socialist Appeal, organ of the W.I.L., reports: "Several of our comrades were assaulted by hysterical Stalinist men and women (a miserable bunch of middle class patriots) with the object of creating a scene and attracting the notice of the police. Out of the huge crowds which collected as a result of these attacks, hundreds of people bought the folder exposing the film. Each day a few of our comrades have been arrested by the police and lugged off to the police station on a charge of 'obstruction.' The Stalinists selling Davies' book, 'Mission To Moscow' and anti-Trotskyist pamphlets are usually left unmolested by the police."
