Novack Starts National CRDC Speaking Tour

ROCHESTER, N. Y. - George Novack, National Secretary of the CRDC, addressed his first meeting on March 16, under the auspices of the Rochester Branch of the Civil Rights Defense Committee. This was the first city to be visited by George Novack, on his coast to coast tour. Many members of the audience decided to join the CRDC after listening to Novack's talk on the Minneapolis Labor Case.

Mr. Hansen, ex-Teamsters Union official and delegate to the Rochester Trades & Labor Council, now a prominent figure in the Firemen's Union, was elected president of the expanded Local CRDC Committee. Other union leaders who offered their services in the Local Committee included a second chief of the Brotherhood of Locomotive Engineers, a steel worker who belongs to the only steel workers local in town, and several additional railroad union men. A program of activity was mapped out which will include securing support from local unions, petition gathering and the raising of funds to provide relief for the 18 prisoners and their families. It is anticipated that resolutions and petitions will come pouring in during the next few weeks. GOOD RESPONSE

In a truly symbolic climax to frameup.

Thus, the administration's prosecution of the most consistent and uncompromising working class opponents of fascism, the Trotskyists, which began with the seizing of the books and pamphlets containing their ideas, reaches a symbolic culmination with a book-burning in the traditions of Hitlerism.

Unions Led Into A Trap By Labor Fakers As Roosevelt Shunts Wage Dispute to Congress

By R. Bell

For two years the top leaders of the AFL and CIO have led the labor movement in a merry chase after the will-o-thewisp of Roosevelt's promises to "stabilize" the cost of living. In exchange for these promises they accepted the Little Steel formula and took an active part in doing the dirty work of the board in enforcing the wage freeze on the workers. Pucheu Trial Bares Betrayal Of France

Refusal or failure to bring him to trial would have meant giving mortal offense to the underground movement in metropolitan France which had already sentenced Pucheu to death as a traitor. It would have shattered whatever illusions the French masses still retain regarding the pretended "patriotism" of the French of the death sentence, to trial meant risking an expose of the New York Times during brush of collaboration with the hated Nazis. It also meant in-

troducing discord and apprehension into the ranks of the French capitalists, for none of them thereafter would feel safe.

De Gaulle was unable to avoid holding the trial, however, which soon developed into a dramatic expose, not alone of the treachery of the single defendant who appeared, but of the French ruling class as a whole, (Dispatches just received say Pucheu has since been executed).

THE TRIAL

The trial opened in Algiers on March 4 and ended on March 11 when Pucheu was found guilty on one of a series of charges and sentenced to death. The condemned man is expected to appeal to de Gaulle for a commutation

Anti-Union Record Of The War Labor Board

By Ruth Johnson

Since Pearl Harbor, the Roosevelt administration has intensified and accelerated its program of binding the labor movement within the governmental strait-jacket and subordinating it to the war machine and its needs. The prime agency which has carried through this policy, is the War Labor Board, which has assumed ever greater authority over the labor movement and arrogated to itself powers of a supreme arbiter over the affairs of the labor unions.

The entire officialdom of the AFL and CIO surrendered to the war machine, immediately after U.S. entry into the "shooting war" by giving up labor's strike weapon. In return for this labor disarmament, Roosevelt set up the War Labor Board, composed of 4 employer members, 4 representatives of the AFL and CIO and 4 "publie" members. This board was supposed to give "justice" to the labor movement. Roosevelt, through the WLB, also promised the bureaucrats to guarantee their organizations by the grant of the mongrel closed shop-"maintenance of membership."

WLB Procedure

By January 1942, the rigamarole of WLB procedure had been set. It provided for (1) Direct labor-employer negotiations until the possibility of agreement had been exhausted; (2) Further negotiations under the supervision of the United States Conciliation Service; (3) Certification of the dispute to the WLB; (4) Mediation by a WLB panel which had no power to make public recommendations; (5) Voluntary arbitration through an arbiter selected by the

WLB, or in case of disagreement, by an arbiter chosen by lot from a panel named by Roosevelt: (6) Final arbitration by the full WLB, empowered to make binding determinations and awards.

Basing its policy on Roosevelt's wagefreeze directives, the War Labor Board established the Little Steel formula in July, 1942, setting the precedent for a maximum increase of 15 per cent to compensate for the 15 per cent increase in the cost of living between Jan. 1, 1941, and May, 1942. A few days later in the case of Remington Rand, the WLB announced: "Contrary to some reports it (the Little Steel formula) does not guarantee to labor that existing standards of living will be maintained throughout the war." Thus the board made clear very early in the game, that it would not consider further increases in the cost of living a justifiable reason for adjusting the wage-freeze formula.

Following this pronouncement, the Board on September 17, 1942 ruled against the United Automobile Workers, CIO, rejecting the union principle that wage differentials in an industry should be wiped out. The UAW, seeking at that time a \$1 a day increase at General Motors, had presented data to show a 6.7 cents differential between General Motors and Ford workers. The WLB would permit no more than a 4 cents an hour token increase.

Step Further

The Board took a step further a month later, when it refused to remove wage-inequalities existing in Ford plants in various parts of the country. Not a single penny was granted to the Ford workers.

months, the auto workers seven months, to wrest even these anti-labor decisions from the War Labor Board. And that was no accident, for the entire bargaining machinery was deliberately designed to prolong negotiations and to discourage the labor movement from even presenting its wage demands and grievances. The board would have an "advisory panel" take months to study an important case and bring in recommendations. The board would then brusquely set aside its own panel's studies and recommendations. The advisory panel recommended in the steel case, an increase of \$1 a day, which the Board whittled down to 44 cents; in the later case of the United Rubber Workers, the panel's recommendation of 8 cents an hour was tossed out, and a meager 3 cents an hour increase finally voted by the Board.

Lee Pressman

Lee Pressman, CIO Chief Counsel, reported to the 1942 CIO Convention: "As of a week ago, there were in the offices of the War Labor Board, about three or four thousand wage agreements. . . the division handling voluntary agreements. . . simply had not made any record of them. . . it may take anywhere from a couple of weeks to eight months to get approval. . . then if the employer has indicated a price increase may be necessary. . . you. . . must go to the OPA for approval." He further pointed out that the head of the conciliation service had 8000 disputed cases to which he was supposed to assign mediators.

Other union officials described the attitude of management, more arrogant than

unions before the time-consuming processes of the WLB. On every grievance, no matter how small, the bosses would cynically say, "Take it to Washington!"

Growing Resentment

The growing resentment of labor to the incessant delays, finally forced the Board in 1943 to set up regional offices to "expedite" negotiations. But to assure even greater delays where they were deemed advisable, the National Board reserved the right to review on its own initiative, any cases it chose.

In addition to keeping wages frozen and tying up the labor unions in the endless red tape of WLB "mediation machinery," the board undertook to intervene directly into the internal affairs of the unions, dictating local constitutions, determining questions of union security and "disciplining" the membership.

In May 1942, the War Labor Board set the pattern for this usurpation of union rights. While awarding maintenance of membership to the union at International Harvester, the WLB added that the government would conduct a secret referendum of the workers, to determine whether they wished to accept the Board ruling. This was a direct encroachment upon the union's rights to conduct its own meetings and to independently ratify or reject its contracts.

Almost simultaneously, the Board, in the New Jersey Walker-Turner Co. case, insisted on reviewing the constitution of the union, a local of the United Electrical, Radio and Machine Workers, CIO, assuming the right to pass judgment on union policy.

The Board then ordered the local not to discipline any members causing stoppages; charge more than \$1 a month dues and \$2 initiation fee. Thus, questions of union finances and constitutions were now subject to the arbitrary decision of the WLB.

From these invasions into the internal affairs of the unions, it was a natural step for the War Labor Board to seize the right to police and punish the labor movement.

Punishments

In June 1942, weary of delays in negotiations, 140 workers at the Arkwright Corporation Textile Plant in Fall River, Mass., went on strike. William Davis, "public" member and chairman of the WLB, rushed a telegram to the local offices of the United States Employment Service, stating "Fixers and changers at Arkwright Corporation have failed to end strike in accordance with NWLB request. . . proceed at once to. . . secure necessary replacements as previously arranged."

Following up its successful venture into the field of strike-breaking, the WLB began to mete out penalties. In September 1942, the board denied to the AFL Federal General Chemical Workers of Buffalo, any form of "union security" because in June the workers, fed up with the red tape and delays, had staged a protest strike.

Three Conditions

In December, in granting maintenance of membership to the UAW at the Pontiac Yellow Coach Plant, where a series of walkouts had followed company provocations, the Board laid down three conditions: that the security clause would be withdrawn if future stoppages occured; that the union would be held responsible to the WLB to

and that the international union should appoint a representative to investigate the local, its leadership, and members responsible for work stoppages, and report findings

to the WLB. In the more recent Cramp Shipyard case, the Board imposed penalties on wages, by specifying that the workers would lose one month's retroactive pay.

In the course of its 27-month history, the War Labor Board has proved itself to be a policeman wielding a long club against the labor movement. Month by month, it has arrogated to itself more and more power, month by month it has established one anti-labor precedent after another, until today it stands forth as a real dictator over the labor movement, keeping wages frozen, breaking strikes, and throttling the independent existence of the unions.

The first task of the union movement, if it wishes to regain its independence and rights, is a decisive, sharp break with this wage-freezing, anti-labor agency. Once the labor members are removed from the WLB, once the labor movement declares a vote of no-confidence in the board, the WLB will burst like an inflated balloon that has been pricked with a pin. This was demonstrated during the first coal strike in 1941 when Lewis forced the withdrawal of the CIO representatives from the old labor board and the board promptly went up in smoke. The rank and file must make the demand loud, clear and unmistakable to the union bureaucrats: Get off the War Labor Board! Labor needs a new declaration of independence!

Labor Must Rally To Free Kelly Postal, A Gallant Fighter Framed By The Bosses

Kelly Postal, life-long fighter for labor and militant defender. of trade union democracy, has been rotting in the State Prison at Stillwater, Minnesota, since June 21, 1943. Dictator Daniel J. Tobin sions to their colonial slaves in can imperialists intend to step of the AFL Teamsters, with the connivance of the Minneapolis, order to postpone the day of into Japan's shoes, to dominate Hennepin County and Minnesota boss-dominated courts, had him "put away" for up to five years in one of the dirtiest and crudest frameups ever perpetrated against an incorruptible and fearless union leader.

> The charge which Tobin brought against Postal was "embezzlement of funds," because Postal, as Secretary-Treasurer of Local 544, had loyally fulfilled the overwhelming vote of the local membership directing him to transfer the local's funds to the new affiliation when the Minneapolis truck drivers in June 1941 voted to

His real "crime," which brought upon him the relentless and vindictive persecution of the gangster-ridden Tobin machine and as a "continuous and progressive through our fear of standing on the federal, state and local governments, was his outstanding role effort to better their political, the eternal principle of freedom as one of the leaders of famed Local 544, which had dared to oppose social and economic conditions as a natural and inalienable right the corrupt overlordship of Tobin and had transformed the once until they reach the same level of all. The peoples of France, open shop citadel of Minneapolis into a union town.

Although the mechanism of the frameup differed, the Postal case is in reality part and parcel of the Roosevelt administration's frameup and imprisonment of the 18 Trotskyist and Local 544-CIO leaders under the Smith "Omnibus Gag" Act. Postal was one of the original 28 defendants in the Smith Act case who went on trial in the fall of 1941, but he was acquitted with nine others. His acquittal, discouraging as those three little however, only infuriated the Tobin gang, which then sought other words 'in due course' has happen- means for wreaking vengeance upon a man whom they correctly ed to the Koreans since the last considered to be one of their most uncompromising opponents.

No one, however, claimed that complete program of social uplift they will not suffer defeat Postal had used a penny of the allegedly embezzled union funds for other than union purposes.

This first frameup attempt misfired. Presiding Judge Hall refused to become a party to the frameup, and ordered a directed acquittal for Postal. In his declaration to the jury, Judge Hall stated:

Today, the fight to free Kelly Postal stands on a broader plane than opposition to an individual act of injustice, important as every such act is. The whole question of trade union democracy is involved. Has a local union the right to dispose of its own funds, have union men the right to say what shall be done with the money they voluntarily contribute to their own union? That is the issue.

But even more than this is involved, as Kelly Postal's life record in the labor movement indicates. Postal has been a militant trade unionist for more than thirty years. After serving with a machine gun company in the front lines throughout the last war, he worked as a coal miner, railroad worker and a skilled crane operator. They could not have done of agreement with Mr. King, they have been compelled to complain Mackenzie King, father of the that the pants are too long.

The CCF leaders were over hasty in their attempt to find they rushed into print in the New Commonwealth with a "qualified approval." In their next issue they were compelled to make a retracunion membership of the CCF the Ontario legislature, the CCF strong stand against the order.

But why just in the Ontario House? The order did not originate in Ontario. It originated with the Federal House. But the CCF leaders there seem to be too busy to bother about such trifles as the Labor Relations Order. However, judging by the force of the union attack, it is safe to predict that the CCF leadership will be forced into a more active role in the fight.

It was the Auto Workers Union which spearheaded the fight in the Ontario House, Arthur Williams, CCF provincial member quoted from a telegram by Seorge Burt, regional UAW-CIO director:

"The Federal Code does not make bargaining compulsory. Does not compel employers to recognize trade unions. Does not make company-sponsored unions illegal. Does not require a company to bargain in good faith. Does not protect employes' right to organize. Does not protect the position of collective bargaining agencies already certified. Militants in the CCF are planning to force this issue to the top of every local agenda, to demand the co-ordination of CCF club and union activity in the fight against this vicious piece of legislation. The issue can be fought provincially as well as federally. King's straightjacket for labor can be torn to shreds by the combined attack of party and the unions.

Today, in Canada, the Liberal government is losing support, literally left and right. To the left are moving both Frenchspeaking and English-speaking workers and farmers and many of the lower middle class. To the right are moving the big interests who are finding that the Liberal Party is no longer able to pull the wool over the eyes of the French workers and farmers, no longer able to play the old "middle-of-the-road" game between conciliation and coercion.

The CCF is becoming a mass movement. Into the party are pouring workers tempered in the fire of strike combat with the bosses and with the government. These militants must be aided in developing an alternative leadership to the mealy - mouthed Christian Socialists now at the helm. Over and over again the Winches have proven their inare not lost upon the membership,

The War Refugee Board, created by President Roosevelt to presumably facilitate the rescue of the Jews of Europe and other Nazi victims, is entirely without funds. This was revealed last week by Mr. John Pehle, director of the board, when he stated that his agency had no money, definitely did not expect government grants for its work and was undecided whether to request an appropriation from Congress.

Established in January 1944 the War Refugee Board was supposed to be an expression of "the policy of this Government to rescue the victims of enemy oppression who are in immediate danger of death and otherwise to afford such victims all possible relief and assistance consistent with the successful prosecution of the war." The rescue and relief of Hitler's victims in Europe was to be carried on "with all possible speed." The U.S. policy was supposed to be one of giving relief to those who had escaped Europe bargaining agent, but the com- basket of the American public. and also to participate in assisting such escapes.

NO FUNDS

Mr. Pehle's statement represents a brazen repudiation of the supposed aims of the War Refugee Board. The Government will grant no funds but is rather "inclined to ask private agencies engaged in relief to furnish the funds for rescue work." Thus private charity is confronted with the impossible task of raising the several hundred millions of dollars that are required. Furthermore, the board will "not be directly engaged" in rescuing victims from Hitler's Europe but will only assist private organizations in this work.

The real purpose of the War Refugee Board is thus revealed to be not the rescue of Hitler's victims in Europe, but appeasement of aroused public opinion in the U.S. The War Refugee Board is a sop thrown to restless American Jewry and disturbed American Court has already declared that progressives who find it difficult to reconcile the administration's "Four Freedoms" with their practice. The barbarous extermination of European Jewry by shooting, lethal gas and starvaings have been wiped out in cold blood while the Roosevelt government has stood by and offered tears, sympathy and alibis.

The reactionary policy of the War Refugee Board is not a sudden negation of the government's previous attitude towards the refugee problem. It is a confirmation of it. The fact that the War Refugee Board, two months after its establishment to help Hitler's victims "with all possible speed" is entirely without funds, is no accident. The betrayal of the refugees on the part of the capitalist "democracies" has been going on since the 1939 Evian ship and suppression has been World Conference. a reason to fear the coming storms of the proletarian revolution as the imperialists. For the imperialists, the proletarian revolution means the death of capitalism. For the Soviet bureaucracy it means the end of their dictatorial rule and the revival of Soviet democracy. Safety for the Soviet bureaucracy lies in confusing and disorienting the workers, betraying their movement to the class enemy, stabbing them in the back whenever they make a move in the direction of the socialist revolution.

The cynical and well-calculated betrayal of the struggle of the Italian workers will undoubtedly open the eyes of the advance guard to the real role of Stalinism in the labor movement. The Stalinists now comes forth openly as strike-breakers and agents of the bourgeois counter-revolution.

HEALTHY SIGN

That their role is already beginning to be understood is indicated by a recent split in the Communist Party at Naples, first reported by the N. Y. Herald Tribune correspondent, Homer Bigart and since confirmed. A Notes of the Month the recent | large section of the party broke action of the Kremlin in creating away and constituted an independent organization free of any ties with Moscow.

The rift in the ranks of the Communist parties everywhere will widen and deepen as more and more revolutionary militants come to understand the character and the role of Stalinism. The workers can march forward to socialist victory only if they mercilessly root out of their ranks this gangrenous

According to a memorandum FPHA director, this project was in the occupancy of all such projects in the Detroit area.

The paradoxical consequences of this government-sanctioned policy in Detroit can best be seen when we realize that there are many new "white" housing units now standing empty because the demand was over estimated, while at the same time there are thousands of Negro war workers whose families have no adequate quarters in which to live.

NAACP STATEMENT

Attorney Thurgood Marshall, chief counsel for the NAACP stated: "As matters now stand in the Detroit area there are some 800 vacant family units in the Willow Run projects for which you have been unable to find any lowering of the requirements for the Willow Run projects. They must get their physical rest as well as retain peace of mind as to the welfare of their families. We know there must be proper sanitary facilities to hold down infectious diseases. We know that 3,500 modern family units with such facilities are today standing empty and unused and have stood in such condition for many months. We know that 11,000 Negro war workers in the Detroit area are denied the privilege of white applicants despite the living in these housing units simply because of the color of leasing. Robert Minor 'Explains' Why "Business Week" Recommends Stalinists Support Wall St.

scramble for oil etc.

By Ralph Graham

During the past several weeks, in the columns of the Daily Worker, Robert Minor has essayed the difficult task of dissolving doubts, bewilderment and misgivings of Communist Party members over the new party line announced by Earl Browder in his Madison Square Garden speech of Jan. 10 — a line which There is growing resentment to "correcting the local pattern spells the formal abandonment of the last pretense of a struggle for socialism and an open unabashed policy of collaboration with this slavery to be one of the the capitalists for the preservation of the capitalist system.

> ing to Mike Gold, is "fit only for a horse,"

That Minor was given this job, and has already spewed forth doning the struggle for socialism many columns of writing on the upon the outbreak of the first subject, is evidence of the unrest World War, and joining with the which the new party line has capitalists of their respective stirred in the Stalinist ranks. The members duly swallowed all the fatherland." Lenin pointed out previously dispensed bitter pills of party policy because these were sugar-coated by Browder and Co. and depicted as serving the best interests of the American working class and the Soviet Union.

STALINIST PILL

The latest Stalinist pill is of a type which resists sugar-coating and Minor's attempts to make it evasion and half-truth.

It was one thing to persuade the ranks of the Communist Party served the interests of the Soviet Union, and thereby also, the interests of the American working class. But it is more difficult to ask them to abandon the class struggle, relinquish the fight for socialism, make peace with the capitalist exploiters and imperialist war-mongers, and to regard this shameless desertion of the socialist program as being in any way consistent with Marxism.

MINOR ANSWERS

Daily Worker, Minor undertakes to answer a 16-year-old high school boy, Arthur D., who said he was "puzzled and a little in the party. Arthur, it seems, found it difficult to swallow the dissolution of the Young Communist League, the abandonment of the "Internationale" as the Soviet anthem, and now the disavowed program of collaboration

The Stalinist back then refers to Lenin's distinction between just and unjust wars, progressive wars and reactionary wars. The present war, you see, is a progressive war as far as the "United Nations" are concerned because it is being fought for "democracy" in alliance with the Soviet Union.

UTTER DISHONESTY

With that contemptible dishonesty which characterizes the pundits of Stalinism, Minor refrains from telling Arthur D. that in Lenin's view, confirmed over and over again by events, no imperialist power is capable of conducting white, his results show the insimple reason that imperialism everywhere is reactionary. Another questioner wanted to know: "How does Browder's class sky's which Lenin denounced so

formidably?" Minor answers this one by saying that whereas Kautsky "deserted the cause of the workers of Germany and the Marxism, taking a position which, with certain equivocations, was in substance a support of the as it is in the interest of all progressive mankind."

TRUE ANSWER

The true answer to this question is that Browder has sold out collaboration differ from Kaut- to the capitalists in the second World War just as Kautsky sold out in the first World War-except that Browder's betrayal is more brazen, more cynical and more unabashed, and that Browder's betrayal began a long time before the actual outbreak of the second World War.

The essence of the Marxist view on this war is that imperialism, regardless of its political coloring ("democratic" or fascist), and despite any declarations from its spokesmen to the contrary, fight for aims which, far from representing the interests of "all progressive mankind," represent only the class interests of the imperialists themselves.

Michigan Party

The decision by Michigan unionists to launch a new farmer-labor party is a step of first rate importance. It is positive proof of the growing political development of America's mass production workers. The experience of life itself is compelling the workers to recognize the class character of government. They see that Big Business, having gained a monopoly of the political power through their domination of the Democratic and Republican parties, are using this power to enrich themselves at the expense of the American people. The Michigan Commonwealth Federation is the first significant step toward freeing labor from political and economic bondage to the Wall Street money-bags.

As was to be expected, Roosevelt's labor lackeys in control of the CIO "Political Action Committee" greeted the new movement with undisguised hostility from its very inception. That is no surprise. The CIO Political Action Committee was established for the express purpose of heading off the movement for an independent labor party. Sidney Hillman, chairman of the CIO committee, has stumped the country as a glorified ward-heeler for Roosevelt, attempting to crush every manifestation of independent political action. The CIO top bureaucrats fear independent labor action just as much as do Roosevelt and the capitalists. The labor party movement can expect at this stage only hostility from this crew.

Any new movement organized to break the political monopoly of the American capitalist class, must be prepared to cope with the furious onslaught that will be launched against it from all sides. More dangerous even than its avowed opponents are those timid souls inside the labor party movement who will counsel warding off the blows by watering down the program. These Pollyannas will try to persuade the young movement to take refuge behind the "respectability" of middle class liberals, lawyers, and others of such ilk. They will caution the workers against making "unreasonable" demands which will frighten away some vegetarian allies. The new political movement can only grow, however, and come to fruition, it can achieve its high promise, only if it sets forth an unambiguous fighting program that answers the needs of the workers and poor farmers and then steadfastly adheres to this program regardless of the opposition.

The Michigan Commonwealth Federation is still a fluid movement. What it becomes will de-

pend in large measure on the militants in the Michigan labor movement. It is the duty of these militants, these veterans of dozens of strike struggles to get into the labor party movement and influence its development in the right direction. The contribution of their militancy, experience and knowledge will be the best guarantee against the degeneration of the new party by political quacks and messiahs who, always on the lookout for a "career", flock to a new promising movement.

As far as the militants are concerned: the job now is to join the new movement, get your locals to affiliate to it, build the new party, and help hammer out a bold program that will meet the needs of workers, farmers and their allies.

Irish Neutrality

American state department demands on Eire to expel Axis diplomatic agents is tantamount to an ultimatum that the Irish state abandon its neutrality and enter the war as an ally of the Anglo-American combination. Why are Roosevelt and Churchill so determined that little Eire shall enter the war? The official explanation that Axis embassies in Dublin can become a source of leakage of Allied military information is obviously an in-

War has become totalitarian and global. Nobody can escape any longer, nobody can withdraw into his own little shell, nobody can for long remain neutral. Argentina, as all South America, writhes under the heel of Yankee imperialism, but cannot escape its deadly grip. Even the most primitive peoples in the densest jungles of the South Pacific cannot escape the long hand of the Second World War. And now the imperial squeeze play is beginning to be applied on little Eire.

Eire's valuable ports, her proximity to Britain, her strategically important position have long ago pre-determined the fact that the Anglo-American combination would use all of its power, all of its vast economic and financial resources to force Ireland into the war, and to open its ports and airfields to Allied use.

De Valera, head of the government of Eire, has of course indignantly rejected the Allied demand. In truth, he could do nothing else. The Irish people, with a tradition of 700-year long struggle for freedom, are no more willing to fight for British imperialism in the present war than they were in

Rejection on the part of Dublin for expulsion of the Axis diplomats has already brought swift retaliation: The Churchill government severed all normal travel and communications between Britain and Eire, and between Eire and North Ireland. If this does not suffice, further pressure will probably follow

The imperialists in their mad drive are dragging into the bloody maelstrom every individual, young and old, male and female, every country, every colony, every island—nothing and nobody is safe. Now they are out to dragoon Ireland into the slaughter.

Secret Diplomacy

The Teheran conference, hailed by the Stalinist scoundrels as the threshhold to a new era of peace and progress, fully exemplifies the secret diplomacy of the administration. When Roosevelt returned from Teheran, he kept mum about the decisions made there. To this day the people whose lives and futures were placed upon the block have not been informed about the transactions which took place among the heads of the powers. Roosevelt even had the nerve to declare that no secret agreements whatsoever were concluded at Teheran.

Revelations made since the conference by the highest authorities, including the prime participants themselves, demonstrate that the President is a deliberate deceiver of the American people.

In his latest speech to the House of Commons Prime Minister Churchill stated that he had discussed with Stalin the question of Poland's territory and they had agreed to hand over to the Polish government slices of German territory in compensation for eastern territories to be taken by Stalin. Territorial partitioning by means of private barter between the powers without consultation with or regard for the populations involved, is typical of the old wicked diplomacy and power politics which have already inflicted two world wars upon humanity.

Shortly before, the semi-official "Army and Navy Journal" disclosed that at Cairo Churchill and Chiang Kai-shek had consented to the United States taking possession of the Japanese mandated islands in the Pacific, the very islands which the Japanese imperialists had taken and held as a result of a similar dirty deal among the Allies after the first world war.

"Open covenants openly arrived at" Wilson sanctimoniously proclaimed 25 years ago, as the first goal of the war to "make the world safe for democracy." How hollow, how false these words sound today. The "big three," Roosevelt, Churchill and Stalin, practice secret diplomacy like oriental potentates and with such unheard-of brazenness, such arrogance, such contempt for the people!

How can it be otherwise? Their reactionary schemes, their counter-revolutionary designs, their plans for a world of slavery and dictatorship cannot stand the light of day. They can only be hatched conspiratorial fashion, behind the backs of

the people. The awakening labor movement in its fight to thwart the counter-revolutionary aims of American Big Business, will adopt as one of its important planks the old socialist cry: Down with se-

FRANCE

Every capitalist press report about conditions in Nazi- occupied Europe tells what has now become a rather stereotyped story of human distress, of a wastage of life so great that even the imperialist warmakers are disturbed by it.

France presents a picture of a nation slowly dying of starvation, malnutrition and disease. The New York Times last week editorialized on an address by Prof. Balthazard, president of the French Academy of Medicine, in which it was disclosed, among other things, that the average French adult receives in food value only 1,100 calories a day instead of the 3,000 calories which the Nazis regard as adequate nutrition. The Times adds further Sun Yat-sen's death, "upbraided facts taken from a French medi- the people of China" for the councal journal: Low blood pressure and anemia are now common. The Times, with that hypocrisy which expresses itself in halftruths, charges all this up against the Nazis. But while the Nazi occupation is the immediate cause of French distress, the imperialist system as a whole, which makes responsibility.

What Veterans Can Expect From New 'Work Director'

The only provision the Roosevelt administration has thus far made for the re-employment of ex-servicemen is to appoint Brig. General Hines, head of the Veterans' Administration, as a Work Director. What the millions of World War II veterans can expect from this wealthy corporation director and New York Stock Exchange big shot is already indicated by the treatment he is according hundreds of thousands of newly discharged and disabled veterans. In an article, "Labor Fights for the Servicemen," published in the March American Federationist, AFL official organ. Harry Malisoff writes:

"Recently the country was stunned by disclosures made in a survey of claims for disability pensions pending before the Veterans Administration. It was revealed that 1,500 cases of battle casualties were without adequate provision as to compensation, medical care, training and other needs. Though without income and unable to work, veterans have had to wait six months or more before their pension claims were acted upon. The excuses advanced were that the Army was slow in sending over the soldiers' service papers and that the Veterans Administration was unprepared to handle the unexpected 'avalanche' of 250,000 claims."

If these disabled veterans are to get any aid at all, they must stay in a service hospital while their claims are adjudicated. "This is a makeshift solution," writes Malisoff, because "the disabled soldier does not want to lie around in a hospital far from home while office functionaries tangle themselves up

But even this may shortly be denied the disabled veterans. "At present the Veterans Administration has some 67,000 hospital beds," Malisoff reports. "These facilities were designed for the use of veterans of former wars and our peacetime forces of less than 300,000. Today there are already well over 10,000,000 in our armed forces. And the impending invasion of Europe will undoubtedly bring large scale casualties. Yet the Veterans Administration now plans to expand the number of hospital beds to only 100,000. . ."

Recent newsreels showed how the government is mass-producing thousands of medals for the soldiers. But Roosevelt's regime does not seem equally interested in setting up adequate machinery to provide a decent living and proper care for the discharged or disabled recipients of these medals.

Army Officers Promoted After Shady Tool Deals

When the Truman Senate Investigating Committee two weeks ago exposed the sale of \$1,721,000 worth of unused government-purchased machine tools for \$36,924 by high officers of the Army Air Corps, Senators Truman and Ferguson demanded the dismissal of the officers responsible.

At the time Truman made this demand, he stated however: "It has been our experience that when we have discovered things of this sort either the officer has received an honorable discharge or he has been promoted for doing just what we have talked about here."

Sure enough, two days later one of the officers named by the Truman Committee, Lt. Col. Paul M. Bonner, former vice-president and manager of Stehle & Co., Inc., silk and rayon weavers, was promoted to full colonel. That was his reward for what Senator Ferguson called "bungling and incompetency and gross negligence."

Last week, Congressman Cochran disclosed that the War Department had sold to private dealers \$161,164 worth of government-owned dry cell batteries for \$130. Look for some more Army promotions shortly.

WPB Steel Priority Given For Police Tear Gas Guns

Among vital requirements of the "war for democracy," according to recent WPB steel allocations, are tear gas guns and shells for police departments in American industrial centers and for export to India. Also, the government's Rubber Development Corporation, according to the WPB, urgently needs leg-irons and hand-cuffs to spread the "good neighbor" policy in South America and Africa.

The WPB Government Division, which handles "war" needs of state and local governments, issued the steel allocations order for tear gas guns and shells, stating as its purpose: "The domestic requirements have been set up in anticipation of possible labor trouble and race riots. There is every indication that this requirement will increase rather than decrease during the next few months."

One of the largest orders came for the police department of Detroit, where there are several hundred thousand militant and dissatisfied auto workers. The Detroit police exhausted their previous supply against the Negro workers they were "defending" during the anti-Negro riots.

This same allocations order gives a tip-off on how British imperialism intends to bring the "four freedoms" to India. "Among foreign demands for the material, India is becoming an important purchaser. The amounts required by that nation also are likely to increase.'

The allocations order for leg-irons and hand-cuffs explains; "A new requirement has developed from the Office of Economic Warfare in which it requested \$4,000 worth of this equipment each quarter for use by the Rubber Development Corporation in foreign countries. . ."

The RDC contracts for crude rubber from private plantation operators like Ford Motor Company in Brazil and Firestone Rubber in Liberia. Will Allen, who reports these facts in the March 15 Justice, organ of the International Ladies Garment Workers Union, asked Douglas H. Allen, head of the RDC. what the leg-irons were for. The RDC director explained that these "probably mean climbing irons, you know, the kind telephone linemen use. . ." And the hand-cuffs are intended, presumably, as gifts for the rubber plantation slaves. They love trinkets, you know, like - bracelets!
