"In accordance with the Regulations and Directives of the Loyalty Review Board, the So-Mr. Kutcher's removal is mandatory," Richardson wrote.

#### THE HATCH ACT

Ironically, the Hatch Act was passed under the pretext that it would prevent federal officials from misusing their posts for partisan political purposes. Now, under the witch-hunt, it is being applied by Truman's appointees to deprive government workers belonging to working class parties of their jobs and political

Moreover, Section 9A of the Hatch Act does not name the Socialist Workers Party nor constitute an order to fire its members. This interpretation is placed upon the law by the Loyalty Board to justify the action against Kutcher and to back up Attorney General Clark's arbitrary political blacklisting of the Socialist Workers Party without e hearing. This application of the Hatch Act as an instrument of political discrimination will undoubtedly be challenged by Kutcher's attorneys in the federal

## **IWW First Union** Named on Clark's "Subversive" List

Attorney General Clark's latest additions to his "subversive" blacklist, which were made April 27, include a labor union - the Industrial Workers of the World. This is the first time a union has ever been designated as "subversive" by the government of the United States.

The IWW is not a large union oday, although during the early part of its 44-year history it was me of the most dynamic sections of the American labor movenent. Nevertheless, it is a union, acting as bargaining agent for workers in a number of industries nd certified as such by the

During and following World War I, the IWW suffered severe persecution by the government because of its famous class strugrle preamble. But in 1927 the U. S. Supreme Court ruled: "No substantial inference can, in our 'udgment, be drawn from the language of this Preamble, that he organization taught, advocated or suggested the duty, ecessity, propriety or expediency of crime, criminal syndicalism, sabotage, or other unlawful acts or methods."

As IWW Secretary-Treasurer W. H. Westman points out, Clark's arbitrary ruling "is a novel development, a novel doctrine in law, and in our considered opinion is clearly subversive to democratic institutions. It is a device that can more effectively undermine unionism delegate of the National Coun-us."

## Slick Deals, *Compromises* **Bring Fiasco**

If the 16 million organized American workers had shown their united

determination to smash the Taft-Hartley Act and all substitutes by a nation-wide 24-hour general work stoppage last week, there would have been a different story to tell this week. The failure of the top union

leaders to summon the ranks for an overwhelming mass demonstration of opposition to the Taft-Hartley Law and the various "compromises" proposed by the Truman Democrats, has left the American workers still saddled with the Slave Labor Law.

But it is not too late for labor to act. All that is needed is the word from the top union leaders.

The workers will respond. Only last Nov. 2 they gave a political demonstration of their irreconcilable hostility to any law that would undermine their unions. They pinned their hopes, unfortunately, on the empty promises of Truman. They have seen those hopes betrayed. Their only ecourse now is to fight with heir own means, depending only on their own strength. We repeat-the situation can be saved.

The union leaders, however, are pired in their coalition with the Truman Democrats. They have peated the curt, undiplomatic many other Libyan leaders, he is rot lifted a finger to mobilize response of the Consulate: "Dr. still in exile. > These shady deals—the essence of which was to accept the principles of the Taft-Hartley Act for the elimination of the name -have led to a complete fiasco. Every retreat, every offer of compromise only whetted the appetites of the Taft-Hartleyites, encouraged them to demand more anti-labor concessions. Not even the most far-reaching of these concessions - the Sims amendments to the Lesinski bill-could satisfy the ravening pack of Congressional labor-haters.

#### WHAT THEY FEAR

Their boldness and aggressiveness is the direct result of the union leadership's timidity and cowardice. They have seen no reason to yield when the Murrays and Greens, Reuthers and Dubinskys have given them a virtual gilt-edged invitation to do whatever they please because they did not have to fear any serious, militant labor opposition.

At one point in the House debate, there was a real indication of what the union-haters fear most. Rep. Arthur Klein, a New York Democrat, in the heat of debate dared to suggest that iabor call a 24-hour work stoppage to show Congress that the workers really oppose the Taft-Hartley set-up and mean business. This proposal raised an immediate clamor of repudiation from all sides of the House, Truman Democrats, Dixiecrats and crats heading the World Federa- Republicans alike. Decisive mass labor action - that's what takes the starch out of the spines of the labor-haters in Congress.

The union ranks will wait in vain for such action if they leave it up to the top leaders. They have to demand of their leaders, in no uncertain terms, that the the Stalinist rally was given to summons for a 24-hour general Paul Robeson, not for any work stoppage be issued without delay. The Stalinist keynote was that the Kremlin and its agencies throughout the world are the only guarantee of peace; the keynote of the RDR rally was that American imperialism was the only guarantee of liberty throughout the world. The two rallies were thus episodes in the cold war, destined to remain a faint memory if there is a compromise agreement between Stalin and Truman, or if the cold war turns

#### THREE CATEGORIES

While the Stalinist rally was cut-and-dried, there were nevertheless some discordant notes. These were struck by O. John Rogge, former U. S. Assistant Attorney - General, and Harvey Moore, prominent British attorney. Rogge, for example, objected that it was "wrong and wicked" to exploit 'phrases as "capitalist imperialism." Moore on the other hand thought it was wrong and wicked to carry on a civil war, "the worst form of war," and he wanted to know if the Stalinists were prepared for immediate peace in China.

The Stalinist faithful at the Congress reacted sharply against these two speeches, and even booed, but the bureaucrats in charge rewarded Rogge by putting him on the permanent commitee elected by the Congress. It was precisely those two speeches which give them the chance to claim that it was a democratic gathering.

The speeches at the RDR rally ean be divided into three main categories: The French, who have a better appreciation of the temper of the masses, took a pseudo-left line, for socialism, liberty, equality and fraternity. "With the present level of technology and skill of the workers, it is quite possible to create adequate conditions for the material and spiritual development of all mankind. It would be necessary only to organize the economic life within each country and over our entire planet correctly, scientifically, and rationally, according to a general plan. So long, however, as the main productive forces of society are held by trusts, i.e., isolated capitalist cliques, and so long as the national state remains a pliant tool in the hands of these cliques, the struggle for markets, for sources of raw materials, for domination of the world must inevitably assume a more and more destructive character.' - Leon Trotsky, 1940

## Loyalty Board Decision on Kutcher

The top Loyalty Board's curt and callous denial of James Kutcher's appeal for his job plainly shows Truman's real intentions in regard to the civil rights of government workers. The administration proposes as an essential step in its war preparations to promote the political purge as rapidly and ruthlessly as possible.

Many people believed and hoped that after November the administration would slacken or stop its witch-hunt, or at least display leniency toward the legless veteran it had victimized. This illusion was deliberately fostered by the first board which heard Kutcher's case and especially by Attorney General Clark, who assured Newark reporters shortly before the elections that Kutcher's war record would be taken into account. Now Clark's deceit is exposed by the statement by Loyalty Review Board Chairman Richardson that Kutcher's discharge was mandatory because of directives issued by the President and his Attorney General.

The Attorney General persists in refusing the Socialist Workers Party a public hearing to secure its removal from his political blacklist while his fellow appointees uphold Kutcher's discharge, Last week he added new names to his lengthening list of so-called "subversive" organizations. The administration is long on promises but short on per-

formance, wherever civil rights are menaced. It is now clear that the fight to restore

Kutcher to his job will be a prolonged one. It is no less clear that the attacks upon our freedoms are meeting greater resistance from many sections of the people. Among other evidence, the gratifying support given the Kutcher Civil Rights Committee provides unmistakable proof that there exist plenty of people and organizations in this country ready, willing and able to join the ranks of the fighters for civil liberties. It is imperative to reach more of these people and explain the importance of this case to them.

The case of the legless veteran sharply dramatizes the basic issues at stake in the counter-offensive against the witch-hunters. Now that appeals to administrative agencies have been exhausted, the campaign on Kutcher's behalf passes into a second and crucial stage. While the attorneys take his case through the federal courts in the coming months, Kutcher's defenders should redouble their efforts to take his case to the American people.

That is the best way to arouse, attract and enlist new forces behind Kutcher's fight for iustice and to build a defense movement powerful enough to compel the administration witch-hunters to pause in their assaults on the freedoms of the people.

### Lifting of the Berlin Blockade

For almost a year the Berlin blockade has been the focal point of the militaristic agitation and propaganda of the Truman administration and the bi-partisan Congress. Around this issue, American imperialism whipped up the "cold war" to an intolerable intensity, climaxed by the greatest military alliance of all time, the North Atlantic Pact.

Now, the Berlin blockade is to be lifted on May 12. Unless some last-minute hitch occurs, what for a year has been represented as the major obstacle to agreement between the Kremlin and the western capitalist powers will be eliminated.

But so far as the drive toward the militarization of America and the war preparations are concerned, there is no hint of relaxation by the U.S. State Department and the military agencies. On the contrary, this past week has seen the government's top foreign policy and military spokesmen pushing the war program relentlessly.

From Secretary of State Dean Acheson and Chief of Staff Gen. Omar Bradley on down, a parade of pin-striped trousers and Big Brass before the Senate Foreign Relations Committee has been hammering for immediate Senate approval of the North Atlantic Pact. The campaign for re-arming the West European regimes and for the biggest peacetime military budget in U.S. history is being pressed unflaggingly.

It is no secret that the Kremlin has long been bidding for a settlement and that the American State Department for months had in its hands the proposal for ending the Berlin blockade - a fact withheld from the public while the Atlantic Pact was being prepared and signed. As James Reston, N. Y. Times commentator, said on May 5, it would seem that the western diplomats and rulers are positively dismayed at the outcome of the Berlin blockade issue, which was ideal grist for their war mill. They are reacting to the removal of the blockade, says Reston, "very much as Paul Makushak, the Brooklyn broom-closet hermit, reacted to his freedom last month. 'It's no good being out,' said Mr. Makushak, 'I'd like to go back where I was'."

Let there be no illusion that the settlement of the blockade issue has derailed the drive of American imperialism toward war. The war-makers will not lack for other pretexts to prepare the third world slaughter. The fight against the war-plotters must now begin in earnest and not cease until the American workers and farmers build their own government, eliminate the capitalist system that breeds war and create a socialist society of enduring peace.

### Trying to Steal May Day

When Adolph Hitler and his Storm Troopers smashed their way to power in Germany, they shattered the unions, stifled all democratic rights, murdered and imprisoned all opponents. But that alone was not enough to stamp out the tradition of May Day among the German workers. The goals of this celebration — internationalism, working class solidarity, the struggle for socialism — were implanted in the bone and marrow of the masses, passed down from generation to generation. Not all the repression and brutality of capitalist dictatorship could uproot them. Understanding this, Hitler tried to steal May Day, to convert it into an anti-Communist, anti-labor and pro-Nazi holiday. He ordered the workers out of the factories, mills and mines on May First on penalty of fine and imprisonment and forced them to parade under the swastika and to listen to vile Nazi rantings of Goebbels, Goering and Co.

Last week we were treated to a similar spectacle on the streets of New York and other American cities. The Roman Catholic hierarchy and assorted reactionary organizations, acting with the approval of city and state governments and with the participation of high public officials, took a leaf out of Hitler's book and tried to steal May Day from the American workers to whom the celebration owes its origin. In place of the hooked cross and the glorification of the Nazi regime, there were oily words about "loyalty" and "democracy." But the meaning was the

A roll-call of the "dignitaries" in the N. Y. reviewing stand shows how much "democracy" was in the "loyalty" parade: Cardinal Spellman, the Prince of the Church who broke the strike of Catholic cemetery workers. James Farley, the friend and propagandist of the Fascist Franco. Julius Krug, Secretary of the Interior, the friend of the Nazi industrial overlords whose anti-labor record is cursed by every miner in the country. Maurice J. Tobin, Secretary of Labor, who denounces as "pseudo-liberals" those who have the courage to uphold "academic freedom" in the uni-

Not in the entire demonstration was there a hint of loyalty to labor and loyalty to civil liberties. Not a slogan against Taft-Hartley, against lynching, segregation, or for medical aid: housing and a higher minimum wage. How could there be? This was the Vatican's legion, spearheading the forces of reaction, upholding everything corrupt and dictatorial in the world. It was not accidental that the main participants in the Cleveland demonstration, the Catholic War Veterans and the Gold Star Mothers, were the principal sponsors of a meeting for Gerald L. K. Smith in that city a few years ago. "Loyalty" - yes, to capitalism, to reaction, to dictatorship.

The unions and workers' organizations did not march in these fascist-like parades. But the sabotage of May Day as a workers' holiday by the officialdom of the unions is basically responsible for this attempt to corrupt the great tradition of solidarity and internationalism.

"The outstanding feature of the present situation is that while the peasant armies are scoring unprecedented victories and while the bourgeois regime is engulfed by unprecedented bankruptey, the Chinese working class is lacking powerful party armed with the orrect program and able to provide the workers with revoluionary leadership.

"In part, the passivity of the working class is the result of bloody repressions by the Kuomintang over a long period. But it is also the result of the capricious swings of the Stalinists from opportunism to adventurism and back again over an equally long period. Above all it is the Stalinists' recent anti-labor policy that has produced among the workers an attitude of indifference, bewilderment, doubt and paralysis in the face of the military victories of the peasantry.

#### Trotskyist Group Organized in Japan

The Secretariat of the Fourth International has announced, cently been formed for the first time in Japan. The Japanese Trotskyists have taken the first steps with a decision to issue a regular publication, the announcement states, as well as to publish the most important works of Trotsky in the Japanese language.

Communications from the Jananese Trotskyists relate that a new wave of political radicalization has hit the country, following the newly-instituted heavy taxation program of the government and the projected dismissal of 30% of all workers employed by the government. The Stalinists are at present benefitting most from the renewed mass radicala Trotskyist group will provide a revolutionary banner for the rad-

## In Canadian CCF

What appears to be the most serious rank and file revolt in recent years, it is reported, has spread throughout the Canadian Commonwealth Federation (Labor Party) over the issue of the North Atlantic Pact. The Coldwell leadership, like reformists and labor bureaucrats everywhere in the Western world, naturally committed the CCF to support of this most ominous of the steps natural resources and only a toward World War III. However, narrow strip of fertile agri- they did not expect reaction withcultural land, should become an in their ranks to be so strong, as issue among imperialists. Equally strong is the sentiment in the CCF youth organizations. Naturally, the opposition resolutions do not take a clear-cut revolutionary position. They tend to center around formal arguments that the pact by-passes the United Nations and that hope for peace rests in the UN. But the sentiment behind the resolutions is clearly directed against alignment with Wall Street imperialism and its war aims, even if the alternative offered by them is confused and full of pacifist il-

The pressure of the revolt was so great that a number of CCF members of the Canadian Parliament declared that they would vote against the pact. The Coldwell leadership whipped the pariamentary fraction sufficiently into line to prevent any such "disaster." But they could not prevent a shamefaced expression of this revolt on the parliamentary arena. When the vote on the pact was taken, ten CCF parliamentarians were "absent from the

## Left Socialists Active

A left wing in the Social Democratic Party of Denmark and its youth organization took on organized form recently, centering ts agitation against the North Atlantic Pact, which the "socialist" government recently signed.

A resolution adopted by the ew organization, the VSU, at its first conference in March, denounced the pact as a step toward World War III and demanded a national referendum on the question. While sharply differentiating themselves from the Stalinists and denouncing Kremlin policy, the Left Socialists pointed to capitalism as the real source of the war danger. They have published the document for wide distribution at factories and in trade unions.

A meeting with a similar group of Swedish Left Socialists took which joint May Day demonstrations in that Swedish city and in Copenhagen were arranged overwhelming vote of 38 to 2. United States of Europe.

Bernard M. Baruch, "Elder Statesman" of American imperialism and its master strategist, outlined in his April 23 Saturday Evening Post article, "What of Our Future?" Wall Street's perspective for "fitting ourselves to this concept of war and peace as an interconnecting stream" in which the country from now on must be "mobilized in advance of war."

As our article last week described in detail, Baruch's plan for permanent mobilization and regimentation of the American people means that, in his words, "we would have to accept the hateful regimentations and denials which war itself entails." And this would flow, as he states, from "the necessity to strengthen government and to give military matters an emphasis beyond anything traditionally American.'

This latter phrase, "beyond anything traditionally American," recurs in one form or another as a major theme of the Baruch statement. It is a key to the motivation of the article, to the deep-seated uncertainties that fill the American ruling class even as it commits itself to plans for world-wide conquest.

What Baruch implies is that Wall Street and Washington may scheme to shackle the American people "in advance of war" - but the American people may not submit.

The question that keeps the leaders of American imperialism awake at nights is; will the American people docilely accept "the regimentation they hate to preserve the freedom they love"? Baruch indicates the fear of his class that it will be no easy or certain task to put this proposition "Many of these disciplines [draft, rationing,

wage controls, militarization and regimentation, 'etc.] were resisted during the last war while American men and women were fighting and dying," says Baruch. "How much greater will be the temptation, when war has not yet broken out,

to 'wait and see,' " he complains. Strong in the mind of Baruch and his co-conspirators is the awareness of the deep-grained hostility of the American people, particularly the working class, to infringements on their rights and freedoms and their abiding desire for peace. And America's rulers are likewise aware of the tremendous reserves of power that the organized working class can call up in opposition to imperialism's scheme. It is only three years ago that this American working class, aroused to fighting action, forced the American capitalists to their knees in the mightiest strikes this country has

Now, the American people are beginning to sense what capitalism has in store for them, in contrast to its glittering but false promises. "Many letters have come to me," admits Baruch, "anxiously inquiring about the future. Will I lose my job in another depression'? writes one worker. A housewife complains, 'With prices and taxes so high, how can we save for our child's educa-

These are the questions which are stirring and boiling among the people. But Baruch cannot assure them peace and security. He can only try to convince them that it is possible to "reconcile" the "deep inner torments among us," the conflict between "our normally relaxed ways and the state of semiwar which now prevails." It will all be done by putting the future of the American people in the hands of a grand strategy board of 'thinkers"-meaning the top Big Business and military spokesmen-who can be counted on, according to Baruch, to "draw the line" between "necessary" and "temporary" restraints and per-

## They Can't Intimidate Us

- By James Kutcher -

During the war years those of us who were in the armed forces were often cut off from contact with the party for a long time. Overseas, we did not receive mail for weeks at a time, which meant no news of the party and its activities. When we reached a town and got a chance to catch up on world news, I would wonder about how the party was getting along, what it was doing, how it was analyzing the big political events of the day. But whether I received mail or not, May Day was the one day of the year when I could feel sure that I knew exactly what the party and the world Trotskyist movement were saying and

I aways knew that on this working class holiday, regardless of what happened to other parties, our party, at meetings such as we are holding this year, was speaking out against the war and against the capitalist system that had brought it about, and against the treachery of Stalinism which was responsible for the maintenance of capitalism. I knew that 18 of our leaders had been imprisoned, that the government was trying in many other ways to silence the party, but I was confident that they would never stop our opposition to war and capitalism.

Today, as they are preparing for the third world war the capitalist class is trying harder than ever to intimidate our party. They want to silence our opposition to the coming war and our program to build a socialist society of peace and brotherhood. I don't think they are going to suc-

American capitalism seems to be more powerful than ever today, and our party appears as only a tiny minority in opposition to it. Why n are they going to such lengths to intimidate us? Because they do not deceive themselves about their own fundamental weakness, because they see the writing on the wall. They realize that the powerful American labor movement cannot for long remain passive in the face of an approaching police dictatorship and a catastrophic war of atomic destruction. They are as sure as we are sure that, confronted with such a situation, the masses must inevitably turn to our party and its program for a way out of the blind alley that they have been led into. That is why they are trying so hard to shut us up. They hope that the workers won't get a chance to hear about our so-

They are trying to blacklist the ideas of socialism out of existence, but they can't do it. This is not a new thing in history. Every bankrupt and dying ruling class has tried to stave off its inevitable doom by spending its last fury on the revolutionary opposition. All of them, without exception, tried to prolong their rule by launching campaigns of slander, intimidation and terror against the men and women of vision and courage who called upon the masses to rise up and rid themselves of the oppressor.

The British rulers dispatched their Red Coats to American soil in an effort to strike fear into the hearts of the small group of revolutionists who raised aloft the banner of independence for the colonies, but all their seeming might did not succeed in stemming the tide of the victorious American revolution.

The heroic leaders of the Abolitionist movement were hounded from one end of the country to the other and subjected to every kind of persecution, but they too stood by their principles, fought back and in the end inspired the great revolutionary movement that wiped out chattel slavery in this

And the most inspiring example of all is that of Lenin and the Bolsheviks. Consider the odds that confronted them — they too were a small party, fighting for their Marxist ideas against every form of political renegacy within the labor movement. They had to face the vast police power of the Czarist state, they were driven into illegality, hounded into exile. But always they stood intransigent in their opposition to the capitalist system. The history of their struggle against the class enemy at times reads like the struggle of David against the giant Goliath, but we know that in the end all of the weapons hurled against them did not prevent their assuming the leadership of the Russian masses and the establishment of the first workers power in history.

Today our party is in a comparable position. Our numbers are small, and we are being subjected to a new campaign of intimidation, but we do not meet the attack unarmed. Our ideas, our program that the masses must eventually turn to, these are all-powerful weapons. No subversive lists, no loyalty purge can destroy correct. scientific ideas. So long as we understand this, no campaign of intimidation can stop our march to victory.

## **Notes from the News**

AND THEY CALL THEMSELVES COMMU-NISTS! - Outlining the Stalinist program for the coming NAACP convention, Pettis Perry, chairman of the Communist Party's National Negro Commission, writes in the May 4 Daily Worker: "The convention should raise the slogan of putting the Italian colonies under the trusteeship of the United Nations, with a definite time limit for their independence." Like the imperialists, the Stalinists evidently think the colonial peoples are not yet "ready" for independence.

BACKWARD AND DOWNWARD - Labor's share of the total national income declined last year in the U. S., Canada, Belgium and New Zealand in comparison with 1938 levels, UN statistical experts report. The ratio of wages, salaries and other income to labor stood at 62% of total national income in the U.S., a decrease of 4% from the position ten years earlier. The ratio fell 7% in Canada for the same period, 6% for New Zealand and 4% for Belgium.

UE CAUCUS - Anti-Stalinists in the UE have called a national caucus conference for May 7 in Dayton, O.

LIFE IN THE PENTAGON - The Minneapolis Tribune's Washington correspondent tells this one about the "armed service's internal security sleuths" at the Pentagon building: "Pentagon snack bars switched brands of milk, and the new brand came in a different paper container. Opening this container broke government gals' fingernails. One of them circulated a petition to get snack bars to switch back to the old containers. Without looking where they leaped, security sleuths grabbed the gal, took her to the provost marshal's office and questioned her about being a Communist trouble-maker. The story got out, and many ears are a rich, ripe red."

STALINIST REPORTING - According to the Daily Worker, a "Loyalty Parade" in Lawrence, Mass., was supposed to have "Fred Beal, a Trotskyite" as speaker and to have been sponsored by the "Workers Defense League, the Trotskyite-Socialist outfit." All we know about it is that Beal isn't and never was a Trotskyist, and the

same goes for the WDL. This sample indicates how trustworthy Stalinist reporting is.

NEW PAPER IN NEW YORK - T. O. Thackrey, who was forced to resign as editor of the N. Y. Post because he had "the choice of supporting the Atlantic Pact or resigning," has announced plans to publish a new morning tabloid, the Daily Compass, which will sell for ten cents. The plant of the defunct Star will be used, and so will finances put up by Mrs. Emmons Blaine of Chicago, 83-year old International Harvester heiress and

30-HOUR WEEK DEMAND - Retailing Daily says the first objective of the CIO Furniture Workers' campaign against unemployment will be "a 30-hour week without reduction in weekly pay." One out of every seven in the industry is jobless today.

TALKING ABOUT OBSCENITY - Norman Mailer's anti-war novel, The Naked and the Dead, soon to be published in Britain, has been attacked by several London newspapers. The Sunday Times is pressuring the publisher to cancel its publication on the grounds of "obscenity."

SANTO TO LEAVE - The Department of Justice has given permission to John Santo, former CIO Transport Workers Union leader, to leave the U. S. within 60 days. Santo, who made the request himself, has been under "alien deportation" proceedings for several years.

"DEMOCRATIC" REQUIREMENTS - In Ohio, which all minority parties agree has the toughest election laws and boards in the country, the Progressive Party has opened a campaign to become a recognized party with a place on the ballot by collecting 450,000 signatures of Voters, or 15% of the total vote in the last gubernatorial

SAME OLD ROUTINE - Following in the footsteps of Forrestal, Secretary of Defense Johnson has ordered the armed forces to practice "racial equality" toward Negroes. Of course he did not order the end of segregation.

"as officed the armed forces to practice will not become, members fully with them for the defeat these attempts to 'lynch by lation was from Walter McLogan of the UAW, who in the debate of any "subversive" organization. of these vicious laws." did not order the end of segregation.
