BIG BATTLES LOOM AFTER LABOR DAY

SWP Calls for Defeat of Detroit Witch-Hunt Move

DETROIT - The No. 1 job of Detroit voters in the Sept. 13 primary election is the defeat of the yellow-dog "loyalty" amendment to the city charter. All the capitalist politicians and newspapers are bent on setting up a thought-control "loyalty" board based on Attorney General Clark's "subversive" list. This list, arbitrarily estab-

lished by the Truman administration without charges or both AFL and CIO conventions. and fire all militant workers on the city's payroll under the smokescreen of ferreting out socalled reds and subversives.

This campaign was launched in July when Democratic Mayor Van Police Commissioner Toy as chairman. Toy is a life-long tenants. Republican agent of the Ford Motor Company, notorious for his vicious bias against labor, Negroes excuse of Federal Housing Ex-Gestapo-like outlook by asking the people of Detroit to act as sufficient funds to administer rent

There was one obstacle. The city charter adopted in 1918 all rental units in the country. guarantee landlords 25 and 30 prohibits the firing of city workers for political or religious reasons, and forbids civil service deception used to conceal the fact examiners from framing application or examination questions "so as to elicit information concerning political or religious opinions or affiliations."

SHARP CONTRAST

The stooges of Big Business took immediate steps to remove this obstacle. In record time they rushed through an amendment to appear on the September primary ballot. The City Council's swift action in restricting rights of city employees stands in sharp contrast to their stalling tactics on housing, hospitals, sewer control and many other issues vitally affecting Detroit workers and their families.

When Genora Dollinger, state secretary of the Socialist Workers Party, asked for a public hearing on the amendment so that opponents could speak against it, (Continued on page 3)

Action Needed On Wages and Unemployment

By The Editors

On Sept. 5 the American workers will be drenched once more with Labor Day oratory. Capitalist politicians, Democrats and Republicans alike, will vie with each other in glowing promises to labor and lie about what they have 'given" the workingman. Conservative, well-heeled union officials, echoing the NAM and Chamber of Commerce, will extol "peaceful collaboration" between capital and labor and the virtues of "free enterprise" monopoly capital-

But "though they speak with the tongues of angels" their words will be as "tinkling cymbal" and "sounding brass" to tens of millions of American workers hounded by fear and insecurity. This Labor Day - four years after the war that was supposed to bring the "Four Freedoms" - the American people face a growing depression, with millions already without jobs. Witch-hunters are running amuck and slashing at civil rights. Militarists and statesmen are whipping up war scares and ransacking the public treasury. The crushing hand of the monopolies weighs more brutally than ever on the whole of American life.

Ten months after the union officialdom hailed the "great victory" of Truman and the Democratic Party, we are farther away than ever from the promised "Fair Deal." The savage Taft-Hartley Law remains in full force. The civil rights program, which was to bring the "blessings of liberty" to the Negro people, has been trampled underfoot in the Democratic-controlled Congress. Small farmers are taking a beating, while the food monopolies skim the cream from the price-support program and keep prices sky-high. Landlords are guaranteed 25% and 30% "fair net operating income" and four million tenants at one clip are threatened with rent decon-

Fortified by immense profits and capital reserves, armed with the Taft-Hartley Act and commanding a host of government retainers, the corporations hurl brazen challenges at the 15 million organized American workers. Let 'em strike, it would be a "hell of a good way" to settle the steel wage and pension issue, says Republic Steel's president - and by that he voices not so much the monopolists' desire for a showdown battle as their contempt for the union leaders who tremble in their boots at the mere thought of leading a militant labor struggle.

against the monarcho-fascists in world labor movement. It was Workers Ready to Meet Challenge

That the industrial workers are ready and willing to take up this challenge is indisputable. The Ford workers in Michigan have voted overwhelmingly for strike and the deadline has been set for ept. 13. And even the conservative Murray leadership pushed to the wall by the steel trust - may find no other road open but that of strike to win the CIO steel union's demands. The deadline for action - postponed from July 16 for 60 days' of "fact-finding" - is Sept. 14.

If Philip Murray were the right kind of labor leader, this Labor Day would be, above all, the occasion for him to sound the call to battle, to summon the CIO ranks in every industry for unified struggle, to lay out a strategic plan involving the whole coordinated might of the many-millioned CIO. Unless this is done, the CIO unions waging uncoordinated struggles may be picked off one at time and go down to ignominious defeat.

The battle for wages and pensions is but one front of the great struggle facing American labor. The challenge of capitalist depression and unemployment can no longer be evaded or ignored. With nearly six million totally unemployed and 10 million reduced to part-time jobs, organized labor cannot mark time.

This winter will see an army of workers and their wives and kids in desperate plight, their unemployment compensation exhausted. Truman and Congress have made only gestures toward alleviating the growing mass distress. It is up to organized labor to mobilize nation-wide action to fight for the 30-hour week at 40 hours pay; for vast public works, including, housing, schools and hospitals, to be financed out of the billions now going for war preparations; for adequate unemployment compensation, equal to union wages, for all unemployed during the entire time of their unemploy-

It is at this crucial hour, when all the forces of labor should be welded more firmly together in defense of the workers' living standards, that the ominous word "split" is being flung about recklessly inside the CIO between the two bureaucratic machines, the Murray leadership serving the U. S. State Department and the Stalinists serving the diplomatic interests of the Kremlin.

CIO Split Must Be Prevented

The Murray clique in the past year has tremendously strengthened its bureaucratic power at the top, deprived the local CIO councils of their autonomy, lifted the charters of local bodies, asserted authority over international unions, threatened with expulsion those who do not conform with the pro-imperialist, pro-Trumanite line dictated by the Murray majority on the CIO executive board. At the forthcoming CIO convention next month in Cleveland, a move is expected to expel a number of Stalinist-dominated unions

For their part, the Stalinists appear to be making all the preparations for a split and an adventuristic attempt to set up their 'own" union group independent of the main body of organized industrial workers. The Murray machine and the Stalinists must be prevented by the CIO ranks from carrying out their irresponsible threats of expulsions and splits.

The spectacle of the CIO being torn apart by two sets of powerseeking bureaucrats, each acting as the agent of outside alien forces, would never arise if the membership had a real voice in CIO affairs. And this points up the greatest weakness of the unions - their lack of internal democracy, their bureaucractic crust that stifles all initiative and independent action.

Without internal democracy, the unions will never be fully effective instruments of labor struggle and therefore will never be able to solve the burning economic and political problems of our times. On this Labor Day, the workers must prepare to fight the enemy from within in order to be able to deal with the enemy outside. The union ranks must fight for the right to speak and act in their own interests, to assert their own initiative, to hold and discuss their own political views. They must build a leadership responsive to their will - and theirs alone.

The American workers are once more on the threshold of mighty battles. They can achieve victory only if they are truly free to think and speak and act - free both from bureaucratic restraint inside their unions and from the agencies of the capitalist class enemy outside, its political parties and government. This is our chief message to the American working class on this Labor Day.

In the crucible of this partnership they are forging labor leaders on the tried and tested Gompers - William Green model. Since they can't smash the unions by a frontal attack, they are sapping them from within.

SCIENTISTS FOR SALE

All the genius of American technology has now been enlisted in this enterprise. The big boys have gone out into the public market place and have started buying up wholesale college professors, economists, statisticians, historians, psychologists, psychiatrists, like one purchases the services of a mouthpiece. These experts, in turn, have gone to work. They are making elaborate studies of the labor movement, its history, its inner mechanisms, of science are brought to bear some of the miseries of the masses tuted on the altar of Mammon.

SOCIAL DEMOCRATS

The Stalinist bureaucracy will have to find a scapegoat to hold responsible for this catastrophe. The ferment inside the CP will thus be accelerated and intensified and will produce far-reaching organizational consequences. The main benefactors of the

Stalinist losses were the Social Democrats who held their previous support although they lost relatively because of the increase in the number of voters. Overnight this former government party became an opposition party. There is no doubt that the Social Democratic opposition will be very friendly to the government and "constructive" in its opposition (as they have shown in Bavaria, where they have been a party of opposition for some time).

The Christian Democrats, the traditionally conservative - Christian party which was originally the executor of the battered German bourgeoisie's will, sustained losses from the monetary reform; otherwise, it would have succceded after the improvement in the food situation in winning over important elements among the followers of Nazism voting for the first time. It made every possible concession in this respect. but within the limits permitted by its collaboration with the Westa change that was ordered by ern occupying powers.

Important gains were made by the other rightist parties which express, under different names, petry - bourgeois sympathies for the Third Reich and neo-fascist tendencies, which would be stronger if these parties agreed on a common program.

CAPITALIST AIMS

The bourgeois parties have unveiled their economic aims and their class demands (the end of rationing of important goods, i.e., the removal of the last barriers to increased prices of consumers goods; opposition to any nationalization and socialization; curbs on the rights of the unions, etc.). But the working class had no spokesman in "its" parties to pose the abolition of capitalist

Even the struggle for demoeratic rights and the workers' economic interests was only accompaniment and bait for the election programs, whose central point was the solution of Germany's problems within the frame of international politics. For the so-called workers parties as well as the bourgeoisie understood that Germany's immediate destiny depends on the good or bad will resulting from the relations among the big powers.

The strong participation in the voting indicates the growing interest of broader layers of the German population in their own fate. "Reactionary epochs like ours not only disintegrate and weaken the working class and its vanguard but also lower the general ideological level of the movement and throw political thinking back to stages long since passed through. In these conditions the task of the vanguard is above all not to let itself be carried along by the backward flow: it must swim against the current. If an unfavorable relation of forces prevents it from holding the positions that it has won, it must at least retain its ideological positions, because in them is expressed the dearly paid experience of the past."

-Leon Trotsky, Stalinism and Bolshevism, 1937.

LENIN

We Can't Rely on the Courts

Defenders of civil rights are heartened by the action of Circuit Court Judge Joseph Sherbow of Maryland in declaring unconstitutional that state's Ober "thought control" law. But it would be a grave mistake to assume that this ruling in a state lower court reflects the general attitude of the American judiciary to witch-hunt laws.

In fact, what is remarkable about the Maryland case is that a judge could be found honest and courageous enough to defend the Bill of Rights against the allout assault being waged by capitalist interests and their political henchmen. Judge Sherbow's ruling stands forth with such brilliance only amid the darkness of judicial reaction. As Shakespeare said: "How far that little candle throws its beams! So shines a good deed in a naughty world."

Only four days before Judge Sherbow's ruling on the Maryland law, two out of three judges of the U.S. Circuit Court of Appeals in Washington drove another juridical nail in the coffin of civil rights by upholding Truman's "loyalty" purge procedure and the political blacklist of "subversive" organizations issued under Truman's executive order by former Attorney General and now U.S. Supreme Court Justice Tom Clark. This means that the second highest court in the land has approved the victimization of individuals and groups without charges or hearings or the right to confront their ac-

ruling to support their contention that we can depend on the federal courts, particularly the Supreme Court, to uproot the laws against civil rights now sprouting like weeds in local, state and federal legislatures. This is utter blindness to the record of the federal courts and their nature and function.

Many liberals point to Judge Sherbow's

We need look no further than the Supreme Court's attitude on the Smith Act of 1940, the first federal law since the infamous Alien and Sedition Act of 1798 to make mere advocacy of ideas a felony. It is well to recall that in 1943 the Supreme Court refused three times even to review the first case under the Smith Act, the conviction before Pearl Harbor of 18 Socialist Workers Party and Minneapolis CIO leaders who were railroaded to prison during the war.

The Supreme Court is the most carefully-selected and inviolable judicial agency of the capitalist state, composed overwhelmingly of ex-corporation lawyers. In recent years particularly, it has shown an unbroken record of vengeful bias against labor. We would be naive indeed to put any trust in it to safeguard civil rights in its future decisions.

That safeguard rests exclusively in the hands of the people themselves, especially the labor movement. It is the organized action of an awakened and determined people that alone will halt the brutal offensive of the totalitarians, thoughtcontrollers and witch-hunters.

Organizing the Unemployed

The CIO auto workers union has taken a far-reaching step by initiating organization of the unemployed in Michigan auto centers, starting with Muskegon. This is recognition not only of the fact that the unemployed can defend their interests only through organized action, but that the unions have a direct responsibility to their unemployed members.

During the last depression most of the union leaders, particularly the AFL craft moguls, either ignored the unemployed or were actively hostile to the militant independent unemployed organizations whose methods of mass action inspired the employed workers to struggle. The average union bureaucrat was interested only in those workers who could pay full union dues regularly.

Notable exceptions were the Trotskyist-led Minneapolis Drivers Local 544, which organized an effective fighting unemployed section under the Local 544 charter, and the auto union which in 1938 set up a WPA division.

Generally speaking, however, unionists who had sacrificed to build the unions were accorded very shabby treatment by the union officials when they could no longer keep up their dues payments. In most cases, they were dropped from the union rolls and left without organized protection at the time when they needed it most.

The employers are fully aware that the unemployed, when unorganized and demoralized, can be used as a threat to the organized employed workers. Desperate jobless workers, with no ties to the labor movement, are a source of cheap scab labor. The employers have no more powerful weapon to speed up workers and beat down wages than an army of jobless in such misery and despair they will take jobs at any pay.

Hitler and Mussolini both used demoralized unemployed in their offensives against the trade unions, which had failed to organize and fight for the jobless. This is a lesson the American trade unions dare not ignore as economic crisis grips this country once more.

What the UAW has begun in Muskegon must be extended and its example must be followed by all other unions. We must prevent any division between the employed and unemployed workers. It is the duty of the unions to keep the unemployed within their ranks and to organize them for action.

The Union Leaders and Tom Clark

Tom Clark as Attorney General three times invoked strikebreaking injunctions, once against the railroad workers and twice against the coal miners. He issued the notorious political blacklist of "subversive" organizations under which federal employees like James Kutcher, the legless veteran, have been fired as "disloyal." He impeded FBI investigation of the scandalous Kansas City vote fraud in 1946 until after the impounded ballots — the only evidence — were stolen. He caused the detention without bail of non-citizens and called for concentration camps for "deportable" aliens. He failed to carry out a single effective prosecution of the trusts.

This is but a small part of the infamous anti-labor, anti-civil liberties and procorporation record of the man whom the Senate last week, by a vote of 73 to 8, confirmed as a U.S. Supreme Court justice by appointment of Truman.

It is noteworthy that Clark was endorsed overwhelmingly by Republicans as well as Democrats. This is the clearest indication that he had the nod from the biggest financial and corporate interests.

There was one force which could have blocked this appointment and confirmation of Clark. That is organized labor. But with the notable exception of the

United Mine Workers leadership, the top leaders of the union movement, both AFL and CIO, supported Clark's appointment.

These union leaders were motivated partly by a desire to express their opposition to "reds". But mostly they acted out of cowardly opportunism, unwillingness to oppose and expose the Truman gang with whom they have a dirty political alliance.

The same is true for those self-avowed liberals in the Senate like Douglas, Humphrey, Pepper, Kefauver, Kilgore and Magnussen, who talk about defending civil liberties - and voted to put into the Supreme Court the outstanding symbol of the witch-hunt.

These union leaders and liberals are going to rue the day that a man like Tom Clark began to sit on the Supreme Court through their cowardice and political opportunism. Many decisive labor and civil rights cases will come before Tom Clark. In most instances, he will cast the deciding vote. Can there be any doubt where he will stand?

The labor movement and the cause of civil liberties have been dealt a treacherous blow by the union leaders and socalled liberals who helped grease Clark's way to the highest and most powerful judicial body in the land.

18,000 IN FIVE-DAY WALKOUT AT DETROIT CHRYSLER WORKS

DETROIT, Aug. 22 - The largest and longest unauthorized strike to hit the auto plants here in a long time ended this morning with the return to work of 18,000

Chrysler workers at the Kercheval and Jefferson plants after a fivelay walkout. The order to return to work came without any apparent settlement of the discharge lispute which had precipitated the walkout.

The incident which precipitated the strike climaxed many months of increasingly bitter relations between the company and the union. A week ago Saturday a probationary worker on the night shift was fired for "refusing to do work assigned."

The worker in question was a torch-solderer who, because of lack of work in his regular classification, had been ordered by the foreman to "push bodies," a far less desirable operation. The probationary torch-solderer asked for the chief steward in order to determine whether under the contract he was compelled to také the assigned work or whether he had the right to refuse and go home as the work involved was overtime work.

The foreman not only refused to call the chief steward but im- ternational to immediately issue mediately fired the worker. When its usual order to return to work. the line steward left the operation in search of the chief steward, the foreman had two plant protection men forcibly eject the probationary worker from the plant. The worker was manhandled in the process.

The torch-solderer group informed the chief steward that if the fired worker was not reinstated by 6:30 P.M. they would refuse to work. At 6:30 P.M., with no progress reported, they quit work. Immediately the line steward was fired for 'linstigating the work stoppage." As the workers could not be prevailed upon to resume work the entire shift was sent home.

On Tuesday morning several thousand day-shift workers voted unanimously to remain home incapitulate to the pressure of the willingness to fight.

international union were voiced at the meeting. The general mood seemed to prevail that "we have been pushed around by the company long enough. It is time we make a stand."

The strike expressed the pentup anger and discontent provoked in recent months by increasing company attacks - firings, "disciplinary" layoffs, indiscriminate firing of probationary employees. tougher enforcement of company rules with constant interference of the plant protection men. Failure of the local leadership and shop committee to organize a serious struggle against these company moves had resulted in a virtual "concentration camp" atmosphere.

The aggressive action by the membership did not immediately meet resistance from the local union officials. This can be traced to a division within the local Reutherite administration. No doubt, this was largely responsible for the failure of the in-

District Leader in East Harlem. Marcantonio is not interested in building a really independent party of labor," I was told by Michael Bartell, Socialist Workers Party candidate for Mayor. "For years his policy has been to swing the American Labor Party to the support of one or another capitalist candidate, sometimes Democrat and some-

supports a capitalist candidate.

Detroit Labor Misses Political Boat

DETROIT, Aug. 23 - The CIO leaders here are again turning their backs on independent labor political action. Instead, they are campaigning for George Edwards, an ex-auto union leader and now a big-wig in ADA and Democratic Party circles, for Mayor and backing a slate for City Council dominated by capitalist career politicians plus two unionists.

With over 300,000 CIO members plus their families in the Detroit area, the CIO had an unexcelled opportunity to run a full labor slate and elect a city administration responsible to the working people.

Edwards and his labor supporters are playing down his labor background and seeking votes on the basis of his alleged personal merits. Reducing the issues to personal merits plays into the hands of the leading boss-sponsored mayoralty candidates: the incumbent Mayor Eugene Van Antwerp; Albert Cobo, ambitious City Treasurer; and Richard Frankensteen, former UAW vice-president and now an employer and labor

The AFL has endorsed Cobo, Dodge Local 3 paper is campaigning for Frankensteen and the Stalinist-influenced unions are running their own little campaign for Mort Furay, United Public Workers vice-president.

Strike Parade Inspects Bell Workers of Detroit: The Socialist Workers Party Plant, Finds Only Few Scabs

(Continued from page 1)

of the strike. the plant, the company immeincluding Subregional Director Gray and Local 501 President Robert Siegler. Seven of those charges.

PLEDGES OF SUPPORT

In the meantime, the union organized a rousing mass meeting last Sunday at which strong pledges of all-out support were received from the local CIO. The growing concern of the local labor movement over Bell's strikebreaking was evidenced by the resolution passed last week by the Ruffalo CIO, which recommended an area-wide general walkout in support of the Bell strikers. It was this resolution, introduced and supported by the militants of the Buffalo area, which hastened the union's steps in the direction of mass action and mass support from the labor movement as the best method of strikers.

The Sunday mass meeting showed growing recognition by Bell Aircraft and Local 501 is 6,700 mark. The legally required the Buffalo CIO leaders and the UAW that this was no mere tions of a class battle, the like expects with another mobilizaisolated struggle but part-and of which has not been seen on the tion on Sat., Aug. 27, to go well parcel of a general union-busting drive by the employers on the Niagara Frontier. This was indicated by Congressman Tauriello's remarks at the union rally, "If you lose here," he said, "you will lose throughout the country. Management throughout the U.S. is watching this strike.'

In a similar vein, Hugh Thompson, CIO Regional Director and Council President, said: "Your fight will go down in history as the fight that stopped employers return to work this morning. This | throughout the U. S. from breaking unions.

The local leadership of the been reinstated. When word union as well as the regional heads of the UAW are at last to the Bell workers. or tries to get a 'sleeper' inside the Democratic Party to pull strings for him later on, he is committing the same crime of selling capitalist politics to the workers.

"In this case, the evidence showed that one-third of the men and women who went out to get petitions signed for Lagala were members of the American Labor Party who were also circulating petitions for the ALP ticket headed by Marcantonio. No one has denied this part of the report.

"Lagala tries to wriggle out of the situation by saying he is a loyal Democrat, not an ALP member. That is not as important as the fact that Marcantonio has proved himself a disloyal ALP leader. He has ordered the ALP members to spend their time and energies working for the avowed candidate of an enemy party. That is an outrageous crime against the membership of the ALP. It can only damage the party's prestige, discourage and confuse its members, and make them the laughing-stock of the

working class." Marcantonio must bear full personal responsibility for the attempted maneuver, Bartell pointed out. He rules the ALP with an iron hand, on behalf of the Stalinists and against the democratically expressed wishes of the members.

"When rank and file members of the ALP signed designating petitions for Councilman Eugene P. Connolly, who is fighting Marcantonib's hand-picked candidate, Ewart Guinier, for the ALP nomination as candidate for Manhattan Borough President, Marcantonio tried to beat them down. He sent personal letters to every gner, ordering them to repudiate their signatures on the petitions, and viciously slandering Con-

"When that failed, Guinier challenged the Connolly petitions at the Board of Elections hearing. He charged that Connolly had a insufficient number of valid signatures, and should not be allowed on the primary ballot. Guinier lost the challenge.

"It will be interesting to see the results of the ALP primary. The Connolly group is putting up a stiff fight for democracy within the ALP.

"But the sad truth is that the ALP is not in any sense what its name implies. It is not a labor party, it is not based on the

Last week Thomas again exhibited his total lack of working class principles and value to the warmongers in his appearance at the congressional hearings on the foreign military aid bill. The administration is asking for about a billion and a half dollars from Congress to arm the Atlantic Pact countries, Greece and Turkey, Iran, Korea and the Philippines. This measure is an integral part of Washington's strategy of encircling the Soviet Union and preparing for the next war. While doing nothing for the army of unemployed here, it wants to provide plenty for the generals, admirals and dictators who have been hired to work for U. S. imperialism.

However, the Democratic administration has struck a slight snag. The Republicans are becoming critical of the administration's specific proposals for implementing the program of world conquest. Last Thursday the House went so far as to cut in half the \$1,160,990,000 appropriation asked for the European Atlantic Pact powers.

The Democrats and Republicans do not disagree on the need for arming their allies in the struggle against "communism." Some of the administration critics even demand more aid to the discredited Chiang Kai-shek. But they differ on how and to whom the money and military aid

Norman Thomas intervened in the dispute to

course properly decorated with pacifist shrubbery. He likewise counseled delay until the United States had issued a "dramatic appeal" for world disarmament through the United Nations. After all, what good is "socialist" support unless it comes dressed in high-minded pacifist phrases?

In the days of Eugene Debs a Socialist leader was supposed to oppose militarism, imperialism, and the parties of Wall Street. Norman Thomas has long since cast aside even the memory of this tradition. He is put on parade whenever the capitalist politicians can use a "socialist" stamp on their imperialist projects. Such a "Socialist leader" is well worth pampering, patronizing, publicizing. Doesn't he volunteer his services when the imperialists most need them?

Mountain Spring Camp

By George Breitman

Most people have returned from their vacations by this time, and the first season of Mountain Spring Camp is drawing to a close. But for the benefit of those who have not yet become acquainted with it, I would like to say a few words of appreciation for this new summer resort for workers, where I have just finished a most enjoyable two weeks' rest.

Physically, the camp is very attractive. Located in the foothills of the Pocono Mountains near Washington, N. J., and about two hours from New York City, the camp site is covered with hills, valleys, brooks, ponds, wooded areas and shaded trails. The living quarters are well laid out, with private cabins for couples and large dormitories for single people. There is a capacious dining hall equipped with modern kitchen facilities and able to feed more than 200 at a time. "Wholesome and tasteful meals" are promised, and the promise is kept without reservation.

For those who like that kind of thing, there are numerous provisions for athletics and other games. In the evenings there are dancing, movies, musical affairs, socials, etc. I frankly cannot tell you much about these activities because I was not interested in them. And nobody tried to pressure me into doing anything I didn't want to do - one of the aspects of the camp that I found most refreshing.

During my two weeks there was an excellent educational program in the mornings - one week on the French Revolution of 1789-94 and the other on the Russian Revolution of 1917. Here too no one was bulldozed into attendance, but the instructor was so competent and the lectures so exciting that attendance was high and on some occasions the discussion lasted longer than the lectures. There is also a very good library of fiction and serious political literature.

My stay happened to coincide with the special four business agents and officers two-week period set aside for a children's camp, and although their area was separated from that of the adults I could not help observing how competently it was managed. A staff of trained counsellors supervised the children at all times while they were playing, eating, swimming, hiking and sleeping - and I very much doubt that the most expensive camp could have provided better care for them.

But the feature of the camp that impressed me most was the easy-going, informal, friendly atmosphere that you find so seldom in se institution that is efficiently operated. You meet people you've known before and you get to know them better and like them more in such surroundings; you meet people you've never seen before, of various political views, and it's surprising to see how quickly the spirit of comradeship flourishes around you.

Although the season is almost over, there is still a chance for people in the metropolitan area to visit the camp this year - either during the big Labor Day weekend or in the few weeks after that. I strongly urge the readers of The Militant in this area to go out and see it for themselves; if you do, the odds are that you will want to spend your vacation there next year.

AFL TYPOS CONVENTION REAFFIRMS

By F. Daniels

OAKLAND, Calif., Aug. 19 -Declaring the ITU has no intention of abandoning its collective bargaining policy for one of "collective begging," the 91st annual convention of the AFL International Typographical Union has reaffirmed the policy it adopted at its 1947 convention to Cleveland formula, it is the Chimeet the threat of the then newly. cago printers who have been out Thomas E. LOS ANGELES - David Dubinsky's machine, which boasts of its liberalism and democracy, is being exposed by its iron-fisted tactics against the local opposition here

as a hide-bound bureaucracy that ? tolerates no democratic ex- wages written into agreements

VOLUME XIII

Today the ILG members here, CP INFLUENCE in the second largest garment center in the country, are beginning to feel the full weight of the Dubinsky bureaucracy's crackdown on the Los Angeles Division of the ILGWU. The story of this attempt to wipe out democratic rights is an object lesson not only for all ILGWU members, but organized labor generally.

The climax of this assault on union democracy came in April when a committee of the ILG general executive board "investigated charges of communism" in the Los Angeles locals and joint boards and ordered who had not signed Taft-Hartley "non - communist" affidavits to

About 100 local executive board nembers on trial were found tendencies contrary to those decreed by Dubinsky's international machine. Their sentences were held in abeyance pending future actions of the accused. In addition, to be sure that

"International policy," t w o 'supervisors" from New York were imposed on the local organizations, Morris Bagno as head of the local Cloak Joint Board and Margaret DiMaggio as head of the Dress Joint Board.

For several years the ILG international office tried in devious domination the locals and leaders Joint Boards here. This was the the bankrupt right-wing in the arrived. 1946 union elections.

pression in the AFL Interna- here have customarily been set tional Ladies Garment Workers 15% below those in New York contracts, and still are.

During the war, the struggle of local union militants was complicated by the Stalinists with their no-strike and no-fight policy. Many leading Stalinists, after the notorious 1927 split in New York, migrated here to the only section of the union where they have been afforded democratic rights. Most of these Stalinists had transferred to Cloak Local 65, now the largest in the Cleak Joint Board. This Stalinist-run local is able to control any election involving all locals of the Cloak Joint Board.

At the Cleveland ILG convenion in 1947 the Dubinsky machine focused an attack on an anti-redbaiting resolution from the Los Angeles Dress Joint Board and Cutters Local 84 and defeated it. Immediately after-"guilty" of following political wards the machine went to work to smash the Los Angeles opposition. Hoodlum elements tried to break up local and joint board meetings here but the Cutters formed a union defense guard that effectively halted these dislocal officials don't deviate from ruptive tactics of right-wing non-members.

NMU Convention Faces Fight Against Bureaucratic Policy

By R. Bell

The Seventh Biennial Convention of the CIO National Maritime Union to convene in New York City on Sept. 12 will mark a continuation of the struggle for internal union

democracy begun by the Rank &? File Caucus prior to the last con- tendencies together under the new

Until the period prior to the 1947 convention the Stalinists rank and file movement into ruled the NMU with an iron hand. The union was known as one of the most Stalinized in the task and should now give way to country. It spearheaded every twist and turn in the Communist | POSITIONS REVERSED Party line. The Stalinist leadership was intolerant of criticism and authless in the suppression of any opposition. Even the mildest critics were hounded, smeared, framed and crucified. Internal union democracy was smothered under a heavy bureaucratic crust.

One example will suffice to indicate the kind of regime the Stalinists imposed on the membership when they were in power. At the 1945 convention, the last held under complete Stalinist domination, a resolution was introduced "to reaffirm" the nostrike pledge. When the vote was taken it was announced that four delegates had voted against the esolution. Whereupon the Stalinist machine went into action, iammed through a motion to reconsider, whipped up a veritable lynch hysteria against the four opposing delegates and got their unanimous vote.

SPLIT IN APPARATUS

It must be remembered that all this time the leadership was united in support of the Communist Party's "win - the - war" policy of class collaboration labor - management cooperation, national unity, no-strike pledge, etc. But with the end of the war, the honeymoon between the Kremlin and Washington drew to a close. As the conflict sharpened it was reflected by a or handpick candidates for of. This was held as a threat over the similarly made clear at her first schism in the top apparatus of

For a time the struggle was confined to the top circles of the affairs could not last. The Stall union apparatus and occupied a large and disciplined fraction pick off those officials considered "upreliable" and began to build up one of their hacks as a possible contender against Curran for the office of president.

It became apparent that if the struggle was confined to the eadership the Curran group was doomed. Against the Stalinist nachine there was only one membership the Curran group union democracy. It was around this platform that the Rank & File Caucus was formed.

CAUCUS COMPOSITION

composed of divergent elements ferendum because of "irreguranging from far right to ex- larities.' treme left. Because of its composition no attempt was made to bind the caucus on any of the controversial political issues of the day. Each individual and Rank & File Caucus down the group was left free to advocate middle. The members had, their own opinion on such questions. All affirmed, however, the fight against the Stalinists, necessity of breaking the stranglehold of the Stalinist machine cratic rights. They had learned and instituting a regime of internal union democracy.

The Rank & File Caucus actually took form at the 1947 convention. It initiated a series of constitutional amendments designed to curb the power of the National Council and vest greater and "tighten up" the constitucontrol of the union's affairs in tion. the ranks. It wrote a progressive anti-discrimination clause which, with the other amendments, was ratified by the membership. It loosened the Stalinist grip on the union and went on to make a clean sweep in the general elections which began some six months after the convention.

With the election victory the Rank & File Caucus was "officially" dissolved. Although the issues to be dealt with at the decision to dissolve was taken at the beginning it would have been impossible, as later events proved, to hold the conflicting of three articles.)

conditions. The Curran group, which had reluctantly called the being, considered that the caucus had accomplished its assigned his apparatus faction.

NUMBER 35

Bureaucrats in power always frown upon factional groupings in the union. The Stalinists had for years propagandized against all factional groups. That is all except their own. They had achieved a large measure of success until the Curran group was compelled to break down the prejudice against caucus formations to save their own necks. Now the positions were reversed. The Curran apparatus faction became the opponents of factional groupings and the Stalinists came forward as the champions of the democratic right of the membership to organize factions and cancuses.

But the Curran faction soon discovered that rank and file movements are not turned on and off like a water faucet. With the so-called "peace" blossoming into a "cold war" between the Kremlin and Washington, the conflict between the respective labor lieutenants of Stalin and the American State Department grew hotter. Curran swung sharply to

JOSEPH CURRAN

the right. His base in the union shifted to the most backward sections of the membership and the most prejudiced section of the apparatus.

A realignment was taking place in the ranks as a result of the power, one force, capable of failure of the Curran faction to raging a winning fight - the correct the conditions brought rank and file membersh p of the about under Stalinist misleaderunion. To enlist the aid of the ship. When the Curran group attempted to put over a constituwas compelled to elaborate a pro- tional amendment calling for the gram of democratic reform and expulsion of so-called "subverinitiate a struggle for internal sives," a revolt took place, led by former adherents of the Rank & File Caucus now holding official positions in the union. The vellow dog amendment was defeated with the vote being The Rank & File Caucus was thrown out after a 30-day re-

A CENTRAL ISSUE The struggle over the vellow

dog amendment split the former through their experience in the grown jealous of their demotnat red-baiting and purges are a poor substitute for a progressive leadership. With the convention coming on, the Curran group has announced it will once again attempt to put over an "anti-communist" amendment

The opposition forces, although divided into distinct groups, are all mobilizing to prevent the administration from "tightening" any bureaucratic noose on the necks of the members. The issue of preserving and extending internal union democracy will again be one of the most important NMU convention in September.

(This is the first of a series
