## THE MILITANT

PUBLISHED WEEKLY IN THE INTERESTS OF THE WORKING PEOPLE

NEW YORK, N. Y., MONDAY, JULY 31, 1950

PRICE: FIVE CENTS

To the President and members of the Congress: Gentlemen:

Vol. XIV - No. 31

I disagree with your actions in Korea and in my capacity as a private citizen I petition you to change your policy fundamentally, as follows:

Withdraw the American troops and let the Korean

I am setting forth the reasons for this demand in detail in the following paragraphs. But before opening the argument, I beg your permission, gentlemen, to tell you what I think of you. You are a pack of scoundrels. You are traitors to the human race. I hate your rudeness and your brutality. You make me ashamed of my country, which I have always loved, and ashamed of my race, which I used to think was as good as any.

The American intervention in Korea is a brutal imperialist invasion, no different from the French war on Indo-China or the Dutch assault on Indonesia. American boys are being sent 10,000 miles away to kill and be killed, not in order to liberate the Korean people, but to conquer and subjugate them. It is outrageous. It is monstrous.

#### Attitude of the Korean People

The whole of the Korean people - save for the few bought-and-paid-for agents of the Rhee puppet regime are fighting the imperialist invaders. That is why the press dispatches from Korea complain more and more about "infiltration" tactics, increasing activities of "guerrillas," the "fluid" fighting front, the "sullenness" and "unreliability" of the "natives."

The Korean people have a mortal hatred of the Wall Street "liberator." They despise unto death the bestial, corrupt, U.S.-sponsored Syngman Rhee dictatorship that made South Korea a prison camp of misery, torture and exploitation.

The high morale and fearlessness of the north Koreans and the hostility of the south Koreans toward their U.S. "liberators" alike testify to the unity of the entire Korean

### "WE DON'T EVEN KNOW WHO THE ENEMY IS"

By Joseph Keller | American troops,

"American soldiers in Korea are battling a strange enemy whose identity is uncertain, whose commanders are nameless, who guage or in personal customs between South and North Koreans,' complains an Associated Press article from Washington on July

It is understandable that American soldiers are confused about who the enemy is. The Korean people themselves can't distinguish between "North" and "South' Koreans. Because there is no such distinction The Korean people. north and south, are one. The "difference" was created by Truman and Stalin when they drew a dividing line across the map of Korea after the last war.

The dispatch quoted above, while correctly reciting the difficulty of distinguishing between Koreans from above or below the siderations. It is a generally ac-38th parallel, contains a propaganda falsehood, however. It speaks of "Northern enemy" and Koreans is purely fictional. That is what has the American GIs most confused. "They have the advantage not only of the initiative but also of training in tactics enabling them to convert regular army units at a moment's notice into guerrilla forces disguised as peasants," says a N. people in their unflinching opposition to imperialistic domination.

The explosion in Korea on June 25, as events have proved, expressed the profound desire of the Koreans themselves to unify their country, to rid themselves of foreign domination and to win their complete national independence. It is true that the Kremlin seeks to take advantage of this struggle for its own reactionary ends and would sell it tomorrow if it could get another deal with Washington. But the struggle itself has the overwhelming and whole-hearted support of the Korean people. It is part of the mighty uprising of the hundreds of millions of colonial people throughout Asia against western imperialism. This is the real truth, the real issue. The colonial slaves don't want to be slaves any longer.

#### Civil and Class War Too

This is more than a fight for unification and national liberation. It is a civil war. On the one side are the Korean workers, peasants and student youth. On the other are the Korean landlords, usurers, capitalists and their police and political agents. The impoverished and exploited working masses have risen up to drive out the native parasites as well as their foreign protectors.

Whatever the wishes of the Kremlin, a class war has been unfolding in Korea. The North Korean regime, desiring to mobilize popular support, has decreed land reforms and taken nationalization measures in the territories it has won. The establishment of people's committees has been reported.

These reforms, these promises of a better economic and social order have attracted the peasants and workers. This prospect of a new life is what has imbued a starving subject people with the will to fight to the death. This is the "secret weapon" that has wrested two-thirds of South Korea from U.S. imperialism and its native agents and withstood the troops and bombing fleets of mighty Wall

American imperialism was quite willing to turn northern Korea over to Stalin in return for control over south Korea, which it ruled through the bloody dictatorship of Syngman Rhee. Now Washington is seeking, against the resistance of the Korean people, to reimpose its imperialist puppet rule, to enforce the division of Korea and to maintain it as a colony and military base for future war on the Soviet Union.

#### Right Is On Korean Side

There is not an iota of concern for the wishes and rights of the Korean people in this brutal invasion. The atenemy looks exactly like the peasants in uniform. The latest tempt to prop up the Syngman Rhee regime by armed force is part of Wall Street's planned program to dominate Southern friend. . . There is no difference in appearance, in landifference in appearance, in laninfiltration" who represents the North Torce is part of Wall Street's planned program to dominate Korean forces are "masters of and exploit the whole world. Your undeclared war on Koinfiltration" who represents the rea, Mr. President, is a war of enslavement. That is how the Korean people themselves view it - and no one knows the facts better than they do. They've suffered imperialist domination and degradation for half a century and they can recognize its face even when masked with a UN flag.

The right in this struggle is all on the side of the affiliates abroad, are honestly and their treatment of the foreign Korean people. Like the colonial peoples everywhere in Asia, they want no part of U.S. or even UN "liberation." They want the American troops to get out of Korea. They want freedom from all foreign domination. They want to decide their own fate.

The American people well remember the War of In-The answer to this is supplied dependence that brought this nation its freedom from British tyranny. In the spirit of this revolutionary and democratic tradition of ours, I call upon you to halt the unjust war on Korea. Withdraw all American armed for reservations their right of assem- perialist war and of the policeces so that the Korean people can have full freedom to bly and their right to advocate state, without which they cannot work out their destiny in their own way. I submit this to the Congress as a motion.

It must be understood what the Truman administration means by "subversive" activities. Some of its spokesmen have even designated the circulation of "peace petitions" as "subversive." Organizations have been placed on its official "subversive" blacklist solely because they oppose capitalism and advocate socialism. It's not spies and saboteurs Truman's 'snoop order" is aimed at checking (they won't be bothered by it at all) but individuals and organizations who are opposed to imperialist war.

## Profiteers Hop On Gravy Train Of Korea War

Soaring prices in the first month of U.S. intervention in Korea have given American workers an "across - the - board" wage slash of several per cent. Prices - particularly of food have shot up at a pace comparable to the worst inflation during the last war and the post-war period following the end of OPA.

Less than three weeks after American troops began the invasion of Korea, according to a survey in the July 17 N. Y. Post, a market basket of staple food items bought in New York City chain stores cost \$7.93 compared to \$7.20 a year ago. That's a rise of over 10%!

Truman, the capitalist press and the big manufacturers, wholesalers and retailers put the blame for price rises on "hoarders." They mean, of course, the poor ousewives who rush down to get a few extra pounds of sugar or coffee before prices go through he roof.

Since most working people carcely make enough to live on from week to week, they can't do very much "stockpiling." It's the well-to-do who have money to buy up 100 or 200 pounds of sugar at a time or several hundred pounds of meat to put in their deep-

prices is the profiteering manufacturers, wholesalers and commodities speculators who are holding back and buying up supplies in anticipation of war scarcities and demanding big price increases.

#### THE PROFITEERS

Truman can't blame working class housewives for the price increases announced last week by the shoe, rubber, tire, woolen goods, textile, cigarette and other manufacturers. The manufacturers who are yelling loudest about the "unpatriotic hoarders" are boosting prices all down the line.

The big spurt in prices that has already taken place is only a hint of what is to come. Truman told Congress in his Economic Report on July 26 that the "daily spot ndex" of wholesale commodity prices rose from 264 on June 23 to 290.7 on July 20 - a 10% rise in less than a month. But a day before he gave his figures out the same index had reached 299.5 one day registering nearly a five point jump!

#### WORKERS WILL PAY

Price rises are not the only gouge the workers will feel. The government is going to reach several workers were driven from right into their pockets to pay their jobs for circulating or for Truman's undeclared war and "supporting" the "Stockholm super-armaments program. On peace petition." When one of the July 25, he presented Congress workers returned to his job, he with his tax program to raise and his back was broken when revenue to pay for his Korean adventure. ## Trotsky Memorial Issue

When Stalin's hired killer murdered Trotsky ten years ago, the uncrowned Gar in the Kremlin fondly believed that he was also forever rid of Trotsky's ideas, whose power he so feared and hated. But today the specter of Trotskyism haunts the Kremlin bureaucracy throughout Eastern Europe and in Asia. The July-August issue of Fourth International, now on the newsstands, documents this historical vindication in terms of the world crisis of Stalinism, the Yugoslav revolution, the events in the colonial world and the trends in this country.

LEON TROTSKY - A NEW VINDICATION. a hard-hitting article by George Clarke, deals in considerable detail with how "the ideas and program of the great theorist and practitioner of the science of Marxism are being tested and confirmed in the crisis of world Stalinism and especially in its most dramatic and positive expression, the Yugoslav revolution." The Yugoslav events, he shows, confirm Trotsky's analysis of Stalinism as "a transitory phenomenon born out of working class defeats and reaction," and demonstrate that at every critical stage the Yugoslay revolution took a course directly opposite to Stalinism and in close consonance with the basic views of Trotsky.

The system of frame-up and blood purges is the quintessence of Stalinist rule. STALIN'S FRAME-UP SYSTEM by Joseph Hansen is a study of the monstrous Moscow Trial of the 1930's, the understanding of which supplies the key to the current trials and purges in Eastern

R. D. Baltimore, Md. 'Welfare State' - Or Socialism? (Part VI)

## Class Collaboration

All the so-called "welfare states," including the Roosevelt-Truman model, turn out to be nothing but the old exploitative capitalist order varnished with a few miserable reforms to make it more palatable to the workers.

AFL Secretary-Treasurer George Meany, in a rare display of candor, confessed: "Of course, there is no such thing as a welfare state, neither here in America nor anywhere else in the world. To liberals the welfare state is an ideal."

In short, the "welfare state" exists only inside the heads of muddled liberals and union leaders. But this "ideal" - or rather, illusion - has its uses for the capitalists and their political agents. With this illusion, they attempt to dope the

workers on false hopes of a better day under capitalism, to convince the working class that it is possible and desirable for capital and labor which they charge against a small to progress together in "peace and harmony," to bureaucrat, and which, even if appease the discontent of the workers and divert resistance to capitalism's evils into "safe" chan-The Trumanite union leaders point to the capi-

The stormy Thirties brought into being the CIO and the sitdown strikes. After the war, in 1946 and 1949, we saw the two greatest strike waves this country has ever known.

It was only after more than two million coal. steel, auto and other workers fought on the picket lines to win pension concessions from the employers that Truman and Congress this year began to get busy on a program to slightly improve the federal old-age pension system.

Congress' "Leave of Absence"

The miners last spring again gave irrefutable proof of the effectiveness of class struggle as against class collaboration. They defied the government, smashed Truman's Taft-Hartley injunction, rejected his treacherous "fact-finding" intervention and won wage gains of more than 20 cents an hour, half in take-home pay and half in pension funds. The average settlement of other industrial unions, which accepted the recommendations of Truman's "fact-finding" board, was about eight cents for pensions and not one penny for immediate wage increases.

Class collaboration with the capitalist "welfare state" has brought, not increasing social reforms, but the slave labor Taft-Hartley Act and the

ray complains in his recent New Republic article: Since 1938, Congress has taken a leave of absence from social welfare legislation." The Roosevelt-Truman "welfare state," Murray confesses, hasn't given the workers any concessions in 12

The true origin and aim of the "welfare state" was explained by one of its chief supporters, the Harvard historian and ADA liberal, Arthur Schlesinger Jr. Writing on "The Welfare State" in The Reporter, Oct. 11, 1949, he frankly described the "welfare state" not as a new "ideal" but as an old device of the capitalists to save their power and privileges by tossing crumbs to the rebellious workers.

#### Bribing Masses Out of Fear

"Western society (capitalism) was driven to welfarism by the most powerful and stark of all motives: fear," says Schlesinger. "It was the overwhelming need to BRIBE the masses into remaining loyal - not sentimental idealism that created the welfare state. . . 'If you do not give the people social reform,' as an English Tory has said, 'the people will give you social revolution."

But in its period of decline and decay capitalism is less and less willing and able to "bribe" the workers. Its depressions and ruinous wars are too heavy a drain. The real epoch of the "welfare state" was between 1880 and 1939. Between those years most of the advanced European countries introduced unemployment insurance, public health and pension programs on a far more generous scale, in proportion to their wealth, than the Roosevelt-Truman "welfare state" has ever

History has already shown us the fate of those labor movements, in countries like Germany and Austria, which thought that the "bribes" of the capitalist "welfare states" would continue and grow forever. Capitalism, in the end, ran roughshod over labor, doped and blinded by visions of eternal capitalist reform. Hitler and Dolfuss brutally ended the dream of the "welfare state."

This year we have seen two more "welfare states," which offered the workers only "bribes." go tumbling before the resurgence of capitalist reaction. The Labor Party governments in Australia and New Zealand, which tried for many years to "reform" capitalism, ended up by defeat at the hands of the capitalist parties. In England, a similar policy of the British Laborite government brought it almost to the verge of defeat in last spring's election.

Truman's "welfare state" gives only the promise of "bribes." It has another and opposite program, spelled out in three letters-WAR.

#### Jim Crow in Korea

Lester B. Granger, executive secretary of the National Urban League and member of Truman's Committee on Equality in the Armed Services pretends to see in the undeclared war in Korea a great boon to the Negro people. In an article entitled "Jim Crow Ends in Korea," written for the July 22 issue of the Social-Democratic New Leader, Granger cites as "proof" that Negro airmen, sailors, soldiers are permitted to serve not only as messmen and menials but also as combat troops, pilots, gunners, radar operators, etc.

This shameless contention that Korea has meant the death of Jim Crow has been given the lie direct by none other than Walter Sullivan, Tokyo correspondent of the conservative N.Y. Times. In his July 25 dispatch Sullivan affirms in so many words that the problem of problems in Korea is how to palliate the "political damage" resulting from the Jim Crow attitude and actions that pervade the U.S. military ranks in Korea from top to bottom.

"Almost invariably," writes Sullivan, "officers and men refer to the Koreans as 'gooks,'" and he adds: "The lack of understanding of the Koreans, their civilization and their capabilities is not limited to the enlisted men. In recent days this correspondent has heard several higher-ranking officers in Korea make disparaging remarks, even in the presence of Orientals."

Sullivan cites the head "of one foreign mission" and a U.S. missionary in Korea

as convinced that "already the United States soldiers' attitude has made most of the South Korean populace indifferent and might make them hostile." And as he sums it up: "Fundamentally, however, the United States soldiers look down on their Korean allies and the latter, sensitive and proud, are quick to feel it."

What does all this unmistakably spell out? Far from being an anti-Jim Crow body, as Granger and his ilk so falsely claim, it is the army that now serves as a huge conveyor for spreading Jim Crow wherever it comes in contact with the Koreans. And what is there so surprising about it?

Jim Crow is not simply a mistaken attitude arising from a "lack of understanding" or any other set of ignorant views. Jim Crow flows from a set of social institutions under which an arrogant and ruthless minority exploits and degrades the mass of the people, reserving a special status of super-exploitation and superdegradation for all "inferior" national and racial groups, oppressed nationalities

The name of this set of social institutions, of which Jim Crow at home and abroad is an indivisible part, is-capitalism. Jim Crow and all the abominations connected with it cannot be eliminated unless and until the abolition of the capitalist order which breeds it and is nourished by it. The experience in Korea is another proof of this.

#### Question for the Cominform

Last week's Militant described the Kremlin's frenzied attack on the new law in Yugoslavia to establish workers' control of industry. Our article exposed the lies about this law published in the Cominform's paper. But there is one revealing aspect of the Cominform's diatribe that we did not touch upon.

Among other arguments, the Cominform claims that the new workers control law was introduced by the "fascist Tito" just as a "smoke-screen" to hide his moves to "restore capitalism." You would gather from this that the Cominform is objecting because the move in Yugoslavia is allegedly a fraud and because what Tito proposed is not workers control at all, but something else falsely labeled by that

No one in his right senses would say that genuine workers' control and greater workers' power in the factories are going to make it easier for the capitalists in Yugoslavia to take back the means of production. You would assume then that the Cominform, if it thinks the Tito government is putting over a fake workers' control, would call on the Yugoslav workers to fight to win real workers' control.

But here the Cominform paper lapses into a vast silence. It doesn't beathe a word that would suggest that the Yugoslav workers brush aside Tito's alleged "smoke-screen" in order to establish effective workers' control. That's what shows that the fraud is all on the side of the Stalinist agents of the Kremlin.

We suggest that those workers who are taken in by Stalinism address the following question to the Cominform: Does it advocate genuine workers' control, more workers' democracy, in Yugoslavia - or for that matter in Stalin's own satellite countries?

We know the answer in advance: Anybody who even raises such a question must be a "Trotskvite" or a "Titoist." What has roused Moscow's ire is not that Tito is putting over a "fake" workers' control, but that he talks about workers' control at all. Who knows? Even mentioning the subject may inspire "dangerous thoughts" in the other countries of East-

#### As If They Had Been Bombed

If Hitler's slogan was "Guns - Not Butter," Truman's can be said to be "Bombs - Not Homes."

The government's new housing program, enacted only a year ago, has been dumped down the drain of Truman's undeclared Korean war.

This housing program, inadequate as it was, was claimed as the chief "Fair Deal" achievement by the Trumanites. Truman himself scuttled it with a series of farreaching executive orders. He did not

even bother to seek approval of Congress. What this will mean for the still extremely acute housing shortage is indicated by the fact that at least 50% of all residential units now under construction have been undertaken with federal aid of one kind or another.

The chief form of such aid was government insurance of new mortgages which enabled veterans to build or buy homes with little or no cash down payments and to pay off in 20 or 30 years.

Truman ordered the Veterans Administration to demand cash down payments of at least 5% on insured loans. This will have the effect of shoving many veterans, who haven't the money, right out of the housing market. He likewise ordered the Federal Housing Agency to ask "substantially" higher down payments where they are required.

He ordered the FHA to demand big down payments also on modernization and repair loans, which have been granted without such payments up to now. He directed the FHA to use construction costs of July 1 as the "ceiling" in setting the basis for mortgage insurance, which means that loans will be granted only after the most careful screening.

The government's low-cost housing project will be cut to the bone - not more than 30,000 units will be allowed in the next half year. School construction com-

mitments have been halted altogether. Truman even told the bankers and mortgage companies to "drag their heels"

in making private mortgage loans. Finally, he revealed that he intends to approve the use of not more than \$650,-.000,000 of the \$1,250,000,000 which Congress authorized to insure new mort-

The total effect of these measures is to wreck new housing. Thus millions of homes for the American people are being wiped out by war just as surely as if they had been bombed.

Full texts of the diplomatic notes between Nehru and Acheson still remain undisclosed. But it is known that in substance Nehru's rejected proposals are as follows: A peaceful settlement of the Korean war is impossible without the participation of Asia's largest nation - China. That nation has a new government, that of Mao Tsetung, which Asians know enjoys the overwhelming support of the people while the old government of Chiang Kai-shek has been driven out forever and is completely discredited. The long-overdue replacement of the Chiang regime by that of Mao in the UN councils would end the reason put forth by the USSR for its boycott of the UN, Nehru contends, and a settlement of the war could be worked out in the UN on the basis of a UN-controlled election for a unified Korea.

It is obvious that what Nehru wants to do is bolster anew the fiction of the United Nations which has been so badly shattered in the eyes of the millions in Asia by American imperialism's action in the Korean crisis, an action that Nehru's government ineffectively helped to rubber-stamp by the UN resolutions against "aggression." Nehru's attempt flows from the policy required by the Indian bourgeoisie and its counterparts elsewhere in Asia - who are caught between the anvil of dependence upon Anglo-American economy and the hammer of growing mass insurgence against all foreign domination. He hopes, and not unreasonably, that the needs of insurgent China will give rise to differences between Peiping and Moscow that will allow his government room for maneuvers in the new Asia, and banks upon Stalin's desire for an allaround diplomatic deal, for which the Kremlin is prepared to pay with all kinds of sell-outs of the

election - a strategem they were able to use in Greece a few years ago — has become anathema to them for Korea. They intend to rely on brute force above all else in carrying through their dream of world domination. They thought that the American Century would merely be a more glorified replica of the British Century; that superior military equipment would enable them to send a small task force to subdue unorganized millions of colonials. The events in Korea have demonstrated that successful colonial expeditions of the type that made British imperialism a world force are long outdated. To carry out their imperialist plans of conquest they must mobilize the entire American people and shed oceans of blood. The statesmen and generals in Washington do not shrink back from even such a perspective; they seek only a convenient cover.

All of the thinly-veiled camouflage of the UN with which Truman, Acheson and Co. hoped to cover up their power drive is quickly being torn to shreds by their arrogant response to the Nehru proposals. Thus, the Indian press, which had begun to give lip-service to the UN mummery on Korea, has been forced to a sharp about-face. The correspondent already quoted reports the following comments on Acheson's reply to Nehru:

It expresses a "profound misreading of the Asian mind, which resents any attempt to make this area of the globe a happy hunting ground for power politics." (Madras Indian Express.)

The U.S. "has taken over seriously the white man's burden from Britain and is constantly rattling her sword. United States action (in Korea) is not only no guarantee of world peace but it is a definite threat to it and the sooner the world realizes it the better. All this talk of freedom and liberty of small countries is mere propaganda and must not be taken at face value." (Lucknow

WASHINGTON, N. J., July 23 - A record crowd witnessed the dedication of Coover Hall at Mountain Spring Camp today in an inspiring meeting climaxing the first annual Oscar Coover Memorial Weekend.

In an address of tribute to the man whom he had known and worked with for 17 years, Farrell Dobbs, National Chairman of the Socialist Workers Party, characterized Coover as "the living, walking personification of the great rank and file that is going to transform the world and make it a better place to live."

Other close friends and associates told of Coover's years of militant participation in the Amer ican labor and socialist movements. They described the qualities of integrity, responsibility, understanding and humor which in the construction of Mountain enjoy facilities for rest, recreation

That is why the people most "shocked" by Wallace's present stand are the ones who were most influenced by Stalinist propaganda, especially in 1948.

But in addition to shame-faced evasion, Green is guilty of brazen falsehood. It is a lie to say that Wallace "has betrayed his own States' war effort regardless of Wallace answered: "Certainly."

#### STILL SUPPRESSED

Green doesn't mention this expression of Wallace's principles, committing him to support of any war U. S. capitalism embarked on, And the Stalinist press never mentioned it in 1948 either.
