U. S. Korea Casualties at 102,576

The latest Defense Department announcement puts the total of U.S. casualties in Korea at 102,576. Meanwhile, estimates of total casualties in Korea for all armies involved in the fighting place the total close to the 21/4 million mark.

U.S. casualty figures, which are 888 higher this week than last, now include 17,441 dead and 11,042 missing. Of those reported as missing, it may be expected that approximately half or slightly under half are in Chinese and Korean prisonerof-war camps, if the percentages in other wars hold for this one. This means that the actual number of U.S. dead in Korea is probably about 23,000.

Estimates of other casualties in Korea place the South Korean total at 150,000, the other "U.N." casualties at 6,000, Chinese and North Korean casualties at 1,505,000, and civilian casualties at 475,000, for a total of 2,236,000.

The U.S. News calls this the "strangest of all strange wars." This war, they say, "has been on a scale that places Korea among the great military operations of history." Yet it is still called a "police action" by the Truman administration which has no sanction from the people for this mur-

Notebook of an Agitator

THE TRAGIC STORY

For the past two weeks this space has been devoted to report and comment on the continuing misfortunes of the Stalinists in the trade unions. The right-wing bureaucrats haven't been doing so well in the protection of the workers against the twin scourges of speed-up and inflation. But in the internal fight against the remnants of Stalinist influence and control they are still shooting fish in a barrel.

The patriotic labor skates have all the advantages in an unequal struggle. They enjoy the solid backing of the government and are also supported by all the monopolized agencies for the manufacture of public opinion. The general atmosphere of reaction favors them. And they have been aided in no small degree by the witch-hunt and the brutal persecution of the Communist Party leaders, which the CIO convention formally - but only formally - decried. For the moment, at least, the right-wing, pro-government faction of Murray and Reuther are the victors, Moreover, they continue to gain, directly or indirectly, from new betrayals and defections which afflict the Stalinists, even in their "independent" unions. like active hemophilia.

Sympathy for Victims

If one can contemplate the trade union troubles of the Stalinist fakers with equanimity it is not because of indifference to the present trend of events. The over-all result is the consolidation of a conservative, pro-government bureaucracy which smothers the militancy of the unions created in struggle and harnesses them to the imperialist war machine. Revolutionary militants are bound to struggle against this course. It would be a fatal error, however, to identify this struggle with the Stalinists and to regard them as its banner-bearers. The Stalinists are losing positions they never earned and never used to good purpose. Why shed tears for them? Sympathy should be reserved for their victims.

The chief victim of Stalinism in this country was the magnificent left-wing movement which rose up on the yeast of the economic crisis in the early 30's and eventually took form in the CIO through a series of veritable labor uprisings. Such a movement, instinctively aimed against American capitalism, was bound to find a political leadership. Conditioned by their frightful experiences, the workers in the vanguard of the great mass movement were ready for the most radical solutions. The Stalinists, who appeared to represent the Russian revolution and the Soviet Union, almost automatically gained the dominating position in the movement; while thousands of young militants - not the worst but in many cases the very best - were recruited into the Communist Party.

The story of what happened to these young militants; what was done to them, how their faith was abused and their confidence betrayed by the cynical American agents of the Kremlin gang - that is just about the most tragic story in the long history of the American labor movement. The promising young movement was manipulated, twisted and distorted to serve the current aims of Russian foreign policy. The young militants seeking education from the Communist Party were dosed with demagogy and double talk. They were taught that bureaucratic tricks and manipulations and horse-trades with careerist labor officials were more important than the politics of the class struggle.

The best young militants with independent minds, who wanted to think and learn and act consistently according to principle, were ruthlessly expelled. Others were cowed into silence and acquiescence, befuddled into the sadly mistaken belief that by all the lies and treachery they were somehow or other serving a good cause,

Demoralized Left Wing

By their whole policy and conduct; by their unprincipled opportunism, their unscrupulous demagogy, systematic lying and calculated treachery - the Stalinists demoralized the left-wing labor movement. They squandered its militancy and robbed it of the moral resources to resist the reactionary witch-hunt instituted in the un ions with the beginning of the "cold war." Murray and Reuther only appear to be the conquerors of the left-wing workers. It was really the Stalinists who beat them.

Losses and defeats can't be avoided in times of reaction, when the relationship of forces is unfavorable. This is true in all stages and phases of the class struggle, from trade union activity to revolution. But there are defeats and defeats Those which come in battle under honest leadership leave a tradition upon which the movement lives and later rises to victory. Other defeats which derive from cowardice and treachery bring demoralization and yield no moral capital for the future. Such is the defeat engineered by the Stalinists in the present internal struggle in the trade unions.

disgust. A very large percentage of those who remained in the party have been hopelessly miseducated and corrupted. But for all that, some of the present members of the Communist Party no doubt retain their revolutionary aspirations and faith. We encounter such individuals quite often and we sympathize with them, and try to find a basis for cooperation. We don't blame them for all the crimes of the Communist Party leadership. They are the fall guys in a stupendous frame-up and confidence game. Any time they take a single step toward a break with perfidious Stalinism, toward the politics of the class struggle, they will find us ready to help, to discuss the great questions of principle, and to cooperate in the struggle against American capitalism.

Some material for an honest revolutionary party will yet be salvaged out of the mass of people attracted to the Communist Party in the past and miseducated by it. But on this score one should have no illusions. The main mass of American militant workers poisoned by Stalinism are a used-up generation, morally spent. It is tragic, for they were good material, the kind of material out of which a revolutionary party can be made; but it can't be helped.

The New Generation

American labor radicalism has a great future, and its next upsurge very probably will not be long delayed. We should make no mistake as to where the troops are coming from. The next drive will be spear-headed by the young militants of the new generation who are soon to enter the arena with all the courage and ardor of the generation of the 30's; and very likely in even more imposing numbers. They will avoid the fate of the preceding generation if those who have learned from the tragic experiences do their duty. The first element of that duty is to innoculate the new generation of militants against the deadly virus of Stalinism.

Top Trumanites Implicated

CLARK

In addition to attacking civil liberties, preparing for war and figuring out ways of making the people pay for it, top officials in the Truman administration have found time to feather their own nest, as the tax scandal revelations about Supreme Court Justice Clark and Attorney General McGrath have shown. See editorial on Page 3.

But as a result of pressure from Moscow and Peiping, the international character. internationalist faction has been almost completely liquidated. Shiga made a "self-criticism" ong ago and stopped his fight.

THE CP PROGRAM

The CP adopted new theses at secret conference last August. This is the line it took:

1. What now completely dominates Japan is the American occupation system, which has become permanent. The Yoshida government is the political and moral support for this occupa-

2. American imperialist policy s to completely destroy Japanese industries, bankrupt the Japanese industrialists, secure forced labor for its war preparations, and same picture is to be seen in cotdeprive Japan of her last ton, wool and rayon cloth as gram should be re-phased, the possibility to live by her for- well as in the men's suits fields. peak or bulge taken off and eign trade.

3. "Into the national united enemy today to the world and not only workers and peasants, striking in the food distribut- tween 50 and 55 billions. . . and that the first class to be merchants, and even a broad destroyed by Communism is circle of industrialists." "It is capitalism, whether it is honest necessary to make the working or dishonest capitalism." (One can class understand that they must readily see that Tobin is not the pull these shokun (a very friendly man to be pulling any punches.) way of saying these people) boldly into the united front."

4. "The anti-national reactionary forces of Japan are Tenno (Hirohito - Ed.), former reac-"to your surrounding as of to- tionary militarists, privileged bureaucrats, parasitic landlords and monopolistic capitalists."

> 5. "At present the Japanese peasants have only very small lots of lands because the best lands are owned by parasitic landlords and other big landowners. For the peasants to possess sufficient lands, it is enough to confiscate lands from the parasitic iandlords and other big landowners and give them to the peasants. This measure alone would make it possible for the peasants to own enough lands; what is more, there would remain eserve lands too."

> But the present situation is quite different from the way the Stalinists depict it.

CAPITALIST RULE

is Japanese capitalism, headed by the monopolists. They are subordinated to American capitalism, but are accepted and supported by the latter. Because of their economic dependence on U.S. capitalism and various restrictions created by the Peace Treaty and the Security Pact, the monopoly capitalists of Japan will be forced to intensify their exploitation of workers, peasants and the middle classes. The Yoshida government is not only a tool of U.S. imperialism but also of this increasingly more

savage exploitation. The Stalinists declare that the Japanese workers' political struggle is not a class struggle but a most trenchantly put in a national struggle. According to "Bevan"-like speech of Philip course of peace and world cothem, we are not going to have Reed, Chairman of General Elec- operation—which can only mean

The Washington Cesspool

Scratch a high official in Washington, and nine times out of ten you'll find either a crook or a man who appointed crooks and shielded them as long as he could, which is not substantially different from being a crook himself. Scratch a crook or his protector in Washington, and ten times out of ten you'll find a witch hunter, a "loyalty" purger, a foe wants serious joint British-Amerof free speech, a persecutor of people who dare to express independent political opinions.

Theron L. Caudle's claim to fame does not rest solely on his assiduous and successful efforts to feather his own gram from that of the old Attlee nest and that of rich tax swindlers. It rests also on his record, as a high official in the Department of Justice, in sending to prison a number of victims of the administration's thought control program (Dennis, Marzani, Christoffel).

Witch hunter and pal of swindlers - they are the same man. The taker of bribes turns out to be the one who tries to take away our democratic rights under cover of protecting the country from "subversion." One hand FAITH IN BEVAN pockets graft while the other shoves people behind bars for the "crime" of voicing criticism of profiteers and warmongers. Could there be a more perfect symbol of tionalism of the language in present day capitalism, its politics, its administration and which his program is presented its morals?

Caudle had to go - he made the mistake of getting practical measures which are incaught, like his Republican counterpart, ex-Congressman compatible with continued sub-J. Parnell Thomas, head of the House Un-American Com- and its demands. In addition to mittee which used to spearhead the witch hunt until the the two points mentioned, Bevan White House stole its thunder. But Caudle's departure proposes: changes nothing.

Supreme Court Justice Tom C. Clark and Attorney General J. Howard McGrath are like Caudle in more ways by agreement with the Americans than one. Clark appointed Caudle in the first place and if possible, but by Britain alone shared with him the favors of tax-evading profiteers while if necessary. He explains this McGrath pretended ignorance about the sink of corrup- proposal as more effective than tion in the Department of Justice and approved Caudle's acceptance of a "commission" from his crooked friends. those revolutions (in Asia and Both Clark and McGrath have excelled at initiating, im- elsewhere) by economic and plementing and enforcing the worst depradations against technical aid, instead of colcivil liberties in the history of the U.S. And President Truman rewarded Clark for his diligence in undermining press them and so driving them freedom of speech by appointing him to the Supreme into the arms of Soviet Russia." Court.

Swindlers and extorters have always thrived under capitalism. They are bound to increase in numbers and ican people so that they won't be able to offer any resistance to this program.

CIO and the Witchhunt

The Pennsylvania Senate has passed a bill requiring to undermine the labor move- fact, the new act did not use the that every public worker, officeholder or political candi- ment, terrorize the Negro people word "Negro." It simply referred torney arrived with 45 U.S. few remarks in those days that typify the attidate sign a "loyalty" oath, and the House of Representa- and stifle all opposition to their to persons who had escaped from Marines, 40 policemen and a large tude of his class towards the common people of tives in Pennsylvania is preparing to act on it. This action policies. The Taft-Hartley law, their closely follows the enactment of a witch-hunt measure by the callousness of the govern- prentices and contract workers many arbitrary arrests and a vernal morning; they are struggling to cast the state legislature outlawing the Communist Party...

Pennsylvania is one of the strongholds of CIO union- are milestones on the road toism. Specifically, it is the area where Philip Murray's wards a police state. own union, the United Steelworkers of America, has its greatest strength and largest districts.

The CIO, at its recent convention in New York, voted a strong resolution condemning just such laws as the policies. one now under consideration in the Pennsylvania legisla- FUGITIVE SLAVE LAW ture. The CIO Convention came out strongly against the Smith Gag Act, and asked for revision of all existing laws of 1850, the North consented to notice. In addition, the movement position is clear from the judge's which infringe on civil liberties by curbing rights of free the enactment of a new Fugitive stimulated and organized mass opinion and speech.

Presumably, the CIO, in one of its strongholds, should take the lead in arousing the labor movement against such slavery. measures. Yet, with its whole great political and propaganda machinery at its disposal, the Pennsylvania CIO seizure of any alleged fugitives; did nothing to fight this bill. Not a word, not a syllable, their capture was to be enforced not a whisper. The CIO in Massachusetts acted the same way, when a similar law was passed in that state.

The Pennsylvania gag act hits directly at the civil ed; free citizens were compelled resistance to the enforcement of States. . They did maliciously rights of all Pennsylvania workers, not merely at the Com- to help the slave-catcher; fugi- the Fugitive Slave law, were and traitorously cause and promunist Party. The law specifically destroys fair judicial tives could not get a trial by demonstrated in September 1851, cure to be prepared and composed procedures, putting the burden of proof upon the accused person, and shielding the accuser from the need to prove be fined \$1,000 and jailed for six his case, or even from the need to confront the person he months; commissioners received is accusing. The innocent must prove his innocence in a \$10 for a conviction and \$5 for headed by Edward Gorsuch, set upholding this indictment would biased court, and he must prove it without even knowing an acquittal. the specific charges against him.

The Pennsylvania coal and steel bosses have used such North, as well as among the free with warrants issued by a U.S. legislation against the labor movement in the past, and Negroes who recognized the very they will do it again. It is very significant that the bill is real threat of kidnappings and proposed and rushed through on the eve of a possible steel frameups by so-called masters strike and, later on, a possible coal strike.

Thus the silence of the CIO helps the police-state reactionaries. It helps them to pass a law which can, and tionist movement. The tremendous probably will in the future, be used against the labor influx of escaped Negroes who

The silence of the CIO is even more criminal in view of the fact that the proposed law is so ominous that a great deal of opposition has been organized against it. The American Civil Liberties Union, the Pittsburg Post-Gazette, the Philadelphia Inquirer have all come out up its persecution of the opposi- window. Upon this prearranged spite of the prosecution's attempt against the measure, and a large delegation has gone to Harrisburg to protest against it.

Where is the CIO in all this? Was its Convention resolution nothing but a paper gesture? The facts seem to indicate that such is the case. Union members who take CIO resolutions seriously and who take the threat to civil began to form defense groups. the posse. When they flatly liberties seriously, can not remain quiet in the face of Many whites who previously had refused, Gorsuch fired at a these events. Correction

The Militant of Dec. 10 1951, carried an article on page entitled "One Fifth of the Nation Gets Only 3% of Income," by Harry Frankel. This article contained an erroneous statement, caused by incorrect reporting of the figures in one of the daily papers. The false statement read: "The middle fifth (of the population) which in 1910 got 15% of the national income and in 1937 was still getting 15.7% has dropped sharply to 9% in 1950. The fourth fifth, next to the bottom, has shown an increase in its relative prosperity, rising from about 12% 40 years ago to 17% today."

Actually, the middle fifth of the population has had a slight rise in its share of the national income, from 15.7% in 1937 to 17% in 1950. The fourth fifth has suffered a decline, falling from about 12% 40 years ago to 9% today. Thus the point made by the article, the relative decline of the poorest part of the population, is reinforced by the corrected figures.

3. "It is not only possible, but dustry ("industrial democra-

-Sam Adams and the American Revolution: 6—

THE RIFT BEGINS

By Harry Frankel

The radicalization of the masses is symbolized by the fact that the red flag, already in those days the banner of left-wing radicalism, was raised above the Liberty Tree during the anti-Stamp Act agitation of 1765. Adams aptly described the events of those days, saying: "The people shouted, and their shout was heard to the distant end of the continent!"

With this rapid increase of popular activity, the wealthy colonial leaders, the rich merchants and so-called "aristocrats" began to draw back from the movement. They had initiated the protests against the British, but now that the masses were in motion, they became fearful of the con-

sequences to their own privileged positions. Gouverneur Morris, leading snobocrat, made a think and reason. Poor reptiles! It is with them should they rebel against their caused untold distress and terror, off their winter's slough, they bask in the sun-

> It was this bite that the colonial ruling classes feared. The rich merchants of the New England-New York-Pennsylvania region had started the protest movement with the restricted object of restoring the commercial system as it had existed before 1763. But now that the people were crowding into politics, they began to shrink from the whole business.

Arthur M. Schlesinger Sr., a conscientious historian (not to be confused with his son, Arthur M. Schlesinger Jr.), made a thorough study of this aspect of the revolution. He summarizes as follows: The merchants retreated from their anti-British stand "when it became apparent that their agitation for commercial redress was unloosing social forces more destructive to business interests than the misguided acts of Parliament." In other words, they feared the masses more than they feared the British restrictions, and for that reason, began to leave the opposition movement.

New Colonial Restrictions

Meanwhile, the British rulers, undismayed by their stinging defeat in the Stamp Act fight, were moving ahead to new restrictions upon the colonies. Dying, reactionary governments never seem to learn: They always come back for more. The reason for this is not that they are stupid, but that they have no choice.

If the British mercantilists were to give up America, then this meant the end of rule by the British merchant-capitalists, even in Britain. The rising industrial capitalist class would be able to push them out of power once they lost their monopoly in the American colonies. As a matter so well organized and had so continued to arouse the people of fact, that is what did happen in Britain in the many sympathizers that it ob- against the real criminals, the decades immediately following the American

Reactionary classes that are making a desperate, last-ditch battle to preserve the old way of warning a defense guard was "catch-slave" law, showing that life, never have any choice. That is why reformers cut such a foolish figure in revolutionary times. They seek to convince the ruling class to change its ways, when that ruling class is fighting for its very life, and cannot possibly do anything except resist change and become more re-

> The liberals today "urge" the capitalist class to give up its imperialist aims in Asia, or to cease persecutions of minority groups. The imperialists pay them no heed.

Nor did the British capitalists of the 18th century pay any attention to the reformers of that day, who urged them to cease arousing the colonies. Even at the very moment of their Stamp Act defeat, when they repealed that law they years ago, this case remains a attached a declaration insisting upon the authorliving illustration of the effec- ity of the British colonists to tax the colonies in Negro agitation now became part returned the fire, attacked the tiveness of united and militant all cases whatever. Thus, after a brief lull, the popular activity began again. The protest movement was organized, this time, in the form of non-importation, or boycott agreements

New Role of the Merchants

The revived movement, however, was quite different from the previous protest waves. In 1761, at the time of the search-and-seizure disputes, and in 1765, in the Stamp Act campaign, the merchants led the way. Now they hung back.

At first, the merchants made every effort to organize the protest movement in such a way that the masses would be excluded. They wanted to restrict the movement to petitioning and other "legal" gestures.

When this didn't succeed, they began to drag their feet, to oppose the formation of non-importation agreements, and to refuse to join them. Thus in Massachusetts, Sam Adams found it extremely difficult to get the merchants to agree to any boycott at all. The Caucus Club, the general staff of the radicals in Boston, now enlarged to more than sixty members, sent many emissaries to the Merchants' Club to convince them. Only very reluctantly did the merchants finally go along.

The Boston Evening Post, consistent spokesman for the big Boston merchants, protested bitterly against any boycott, considering this action "too radical." And some of the bigger merchants continued to oppose boycott even after the merchant associations finally, and reluctantly,

John Hancock, a young merchant who inherited his great wealth from a childless uncle, was one of the supporters of the radicals, and became one of their most prominent, if not consistent, leaders. We have all read how he later wrote his name in large letters as the first signer of the Declaration of Independence

The prominence of Hancock in the radical movement, has left the false impression that the radical wing contained many large merchants. This is not true at all. As a matter of fact, Hancock was to be virtually the only big merchant of the New England region to join the revolutionists, and even he deserted them for a time, as we shall see.

Many small merchants, retailers, petty traders, were in the radical wing of the opposition movement. Typical of these was William Mollineux, a fiery radical who was a mass leader in the streets of Boston during the big struggles. But the very wealthy merchants, the Hutchinsons, the Grays, the Boylstons, the "aristocracy" of New England was never with the Revolution. They were with the Crown and the Tories.

The Wavering Merchants

Between the two major groupings of right and left, there was a group of wavering merchants, who stood now with the right and now with the left. Merchants like John Rowe, and Thomas Cushing (in whose firm the young Sam Adams had once been apprenticed) were the leaders of these in-between men.

They lived in a purgatory from which they could be delivered only by the decisive victory of one side or the other, only they couldn't decide which side they wanted to win. They expressed the dilemma of their class. We have seen that their most typical leader was James Otis, who went mad. But these men didn't all go mad. Some went Tory and others went revolutionary. Such in-betweeners exist in all revolutions, and they are perhaps the most pathetic of all men who live in times of struggle and decision.

Meanwhile, as this rift between conservatives and radicals deepened, the British Ministry decided upon "firm" measures against the rebels. Troops were dispatched to occupy Boston. This entrance of the redcoats into American politics caused the next great crisis.

(Next Week: The Occupation and the Resistance)

influence in times like these when the government itself has become one big racket — squeezing billions through taxes and high prices out of the hides of the workers for war preparations designed to further enrich the ruling class by bringing the resources of the whole world under its control, and trying to gag and intimidate the American Internal Inte

Although it occurred a hundred

The Democratic and Republican politicians see no sign of independent political action by labor or the Negroes on the horizon, so they are not even bothering to put on velvet gloves for the bout. They're making the rules of their game clear - no hitting below the belt by challenging the fundamentals of American capitalist democracy: the rule of Big Business and the Jim Crow system. And the Republican and Democratic Uncle Toms are out oiling up the machine as usual.

Senator Taft, "Mr. Republican," put his cards on the table with a loyalty oath to segregation. In a speech at North Carolina College in Durham Nov. 29, he specifically upheld the segregation of Negro children in the South and discrimination against Negro workers in industry through out the nation. His full title now is "Mr. Republican, W.S.," since he has earned his degree, White Supremacist.

The Negro Republican Toms knew what harm this would do their machine, and rushed the oil. Writer Zora Neale Hurston's article, "A Negro Voter Sizes Up Taft," was immediately featured in the Dec. 8 Saturday Evening Post to explain why "Taft's the man to regain the backsliding colored vote for the Republicans." Every Negro should read that article for a classic example of just how phony and insulting a Republican hack

But Mrs. Hurston was writing for white folks. The Pittsburgh Courier of the same date frontpaged an "explanation" for colored people: "Clarifies His Statement - Misquoted, Taft Says." The "honest Republican" is quoted as saying: "Let me make it clear that I do not approve of segregated schools." That will probably be repeated many times during the campaign by stooges trying to sell Taft. But they should be forced to eat the rest of the statement:

. . someone asked whether I was in favor of the federal government prohibiting segregated primary schools, and I said I was not. .

"I would vote to abolish them in the District of Columbia or any other place that the federal government has jurisdiction, but the control of education in the states is under the jurisdiction of the state government and not of the federal government. So long as states provide equal educational facilities for white and colored children in the primary schools, I do not think the federal government has the constitutional power to regovernment has the constitutional power to require a state to change its established system

Branch of Negro

of education." This should make Mr. Taft's principles very clear. He will maintain the right of the Southern states - or any other states - to enforce Jim Crow.

But lest they be outdone by the Republicans in appealing to reactionary anti-Negro forces, the Democrats have also opened their campaign with a double-barrelled appeal to Dixie: A letter was sent to Southern Democratic leaders by an administration spokesman assuring them that the President's much-touted civil rights program is not really meant to hurt them in any way. Then, to provide concrete proof, Truman announced his "Committee on Government Contract Compliance" which will do nothing to end Jim Crow

When Taft issued his statement, Walter White, executive secretary of the National Association for the Advancement of Colored People, said that "just about ends the possibility of Mr. Taft receiving the support of any self-respecting Negro or of any white American who believes in democracy." We agree with Mr. White, but we would add that the action of the Democrats must end that possibility for them too.

What can the Negro and white voter do to register their opposition to Jim Crow? If they're serious they will renounce both capitalist parties and vote socialist by marking a ballot for Socialist Workers Party candidates where they'll be on the ballot, or by writing in their names where they are kept off.

The Socialist Workers Party also wears no velvet gloves in this election, or at any other time. The SWP is unalterably opposed to any form of segregation and discrimination before, during and after elections. The fight against

Jim Crow is a full-time, year-'round job. The abolition of Jim Crow is a principle for which we fight and will continue to fight, regardless of states' rights, private property rights, legality or illegality. And there's no room for Uncle Tomism in our movement. All who share these views are invited to participate in our campaign to lead the civil rights fight out of the blind alley of Democratic-Republican politics in the coming election.

No Santa Claus for Jobless

By Patricia Stall

Santa Claus rode into Detroit on Thanksgiving Day complete with a huge parade and sack full of toys and good wishes. The auto manufacturers have their sacks all full, too, along about this time every year - only theirs are filled with lay-off notices. Less than a month ago the Michigan Employment Security Commission released figures that showed that between 96,000 to 98,-000 people were unemployed in the Detroit area alone. This past week we learn that there are 140,000 unemployed throughout the state of Michigan with the expectation that this figure would climb to 190,000 by Spring!

Everybody is getting quite alarmed about the situation - except the auto manufacturers. The Michigan Employment Security Commission can only predict, however, that there will be no upswing in employment until late in 1952! That prediction not only takes defense production into account but is based solely on defense employment. Where does this leave the workers? Exactly nowhere since experience has proven over and over again that with every cut in the supplies of steel for auto manufacturers there have been huge lay-offs of auto workers. There are going re and more cuts in steel supplies and other vital materials with every upsurge of defense production. So, while defense employment may put some workers back on the job it will also deprive many others of their livelihood.

Governor Williams and our new U.S. Senator, Blair Moody, are among those who are getting excited about the situation. They pledged themselves before a UAW-CIO rally in Flint to fight the growing unemployment. What tactics would they use? Moody declared he would demand a congressional hearing. That will make the Congress members very happy since they love to play ring-around-the-committee - but all the worker gets out of that is a hot wind coming out of Washington. Governor Williams wants more defense work. We've already seen what this means - more crises in auto work. This is what Walter Reuther also promises the workers: more defense work, getting rid of bottlenecks in production, hold meetings and talk, talk, talk. . . These errand boys of capitalism are very busy running back and forth between Washington and the workers - doing a lot of talking at the capi-

tal and a lot of promising at UAW-CIO rallies. Well, this is the season of tinsel. A lot of gaunt and sickly-looking Christmas trees are made to look good with enough tinsel covering them; but tinsel, though it might shine very prettily, is insubstantial stuff that the first half-grown wind can blow away. That's just what the promises and boasts of Williams, Moody, Reuther and Co. are - just so much tinsel. The reality underneath their words repudiates every half-measure they There have been other solutions forthcoming

from the labor movement: more militant ones and, above all, solutions which have more foundation in the wishes and needs of the rank and file workers. Ford Local 600, which has been opposed to Reuther's policy for quite a while now, has proposed that compensation to the unemployed be increased from the present top of \$27 to \$60 a week. They have also called for a thirty-hour work week with forty-hours pay so as to spread employment among more people. Quite a different attitude from Reuther's frantic efforts to guarantee more profits for multi-millionaire corporations!

Briggs Local 212 has come out with a different answer recently. The General Council of this local, which represents 27,000 workers, has called upon Mayor Cobo and the Common Council to institute a program of public works at decent wages for the unemployed. The plan would be gent. A score of workers joined life!" financed by issuing bonds and selling them to the the organization after the meetowners of industry who, as local president Mor- ing. ris put it. "get multimillion dollar war contracts and generous tax write-offs to pay for new defense plants." The resolution further went on to No 'Atrocity' Proof say that if such a public works program is not set up the mayor and Common Council should declare a moratorium on rent evictions and on repossessions of autos, furniture, etc., while the

unemployment emergency lasts. The demands of these locals enjoy the support of the workers much more than do the fake promises of capitalist politicians and labor bureaucrats who wish to preserve the manufacturer's profit at the expense of the workers. In order that the concessions outlined by Locals 600 and 212 be forced out of the profit-bloated auto czars. the workers must use the traditional tool of the American labor movement - mass action and pressure. It is not enough to depend on the labor officialdom. It is utterly unrealistic to depend on the "Christmas spirit" and big-heartedness of bosses who year after year pass out lay-off notices in place of good wishes for the coming holiday season. Grown-ups don't believe in Santa Claus because they have long since learned that it was their own parents that filled their Christmas stocking and not some mythical well-wisher. The workers are learning in their own day-to-day struggle that it is up to them to secure a better life for themselves and that no one else is going to provide the presents under the tree or the killed," he said, "but at home one days, and announced in the
