SOCIALIST WORKERS PARTY CONTESTS NEW POLICE-STATE LAW IN MICHIGAN

Freedom of All At Stake in Mich.

SWP Presidential Candidate

DETROIT, April 22 - Without evidence, without a hearing, without even making specific charges, Attorney General Millard has convicted the Socialist Workers Party under the Trucks law of seeking to change the government "by unconstitutional means."

On no other grounds than a "memo from the Attorney General," Secretary of State Alger has ruled us off the ballot, denying us our constitutional right to the traditional democratic process.

Clearly, it is not the Socialist Workers Party but our accusers who are subverting the constitution. It is not our socialist program, but the Trucks law that is unconstitutional.

Legal counsel has advised us that the Trucks law does not apply to the Socialist Workers Party. We are preparing court action to prevent use of this unconstitutional law against us.

Like all the American people, we have inalienable democratic rights under the constitution. We don't intend to let any policeman or machine politician make us stoolpigeons or political zombies. We will defend our constitutional right to think for ourselves, and to say what we think in the public forum.

The real aim of the Trucks law was made plain by State Elections Director Frey, who said in a press statement on April 16: "In view of the impending law, we must see that no organization inclined toward socialism is given a place on the ballot."

Unemployment compensation, old-age pensions, national health plans, equal rights for Negroes - all such social demands have been labeled "socialistic" by reactionaries like the sponsors of the Trucks law.

Under that law organizations supporting such demands will be attacked next, their members persecuted, their leaders threatened with imprisonment. Strikers will be subject to prosecution for "sabotage"

and a sentence of 20 years in prison if perishables should rot or a furnace cool too rapidly during a strike.

Teachers will stand in fear of persecution if they encourage critical thought in the student body. Ignorance and prejudice will rule the schools.

Refusal to testify against yourself will constitute proof of guilt under the law. Refusal to be a stoolpigeon against others will be punishable by imprisonment for 10

The American people don't like stoolpigeons. They don't like to have policemen prying into their personal lives and exploring their minds. They won't permit a law to stand that threatens them with jail for advocating social progress.

But these are the very things that threaten all the people if the first victims of the Trucks law are not vigorously defended.

For these reasons we ask all who believe in freedom of thought and social progress to come to the aid of the Socialist Workers Party which is now being persecuted under that infamous law.

For these same reasons the Socialist Workers Party will help to defend Communist Party victims of the Trucks law, despite our irreconcilable political hostility toward the Stalinist movement.

ELOISE BOOTH

Eloise Booth, former Pittsburgh organizer of the Socialist Workers Party and for several years an alternate member of the SWP National Committee, died suddenly,

presumably of a heart attack, in 3 Pittsburgh on April 21. This un- her family in California for expected and tragic news comes as we go to press.

Comrade Eloise was known and life in next week's issue. loved by thousands of workers in the California longshore and cannery industries and the steel and coal mining areas of Western Pennsylvania whose union struggles she had aided. She gained national distinction in Oct. 1946 by her fighting attack on the House Un - American Activities Committee when that witch-hunt body tried to grill her about her support to and assistance of the Pittsburgh power strike.

Comrade Eoise joined the SWP in the early 1930s. She became one of its shining examples of the type of militant woman proletarian organizers who will play a front-rank role in the coming American socialist revolution. Her body has been shipped to

burial. The Militant will publish special memorial article on her

Big Business and its political hour day. hirelings.

This opposition of the vast majority of the world's people to the war drive of American imperialism is the most compelling fact today. Whether under reformist and social - democratic, Stalinist or revolutionary socialist leadership, the workers everywhere outside the U.S. cry out as if with one voice against Washington's war program.

Not only in the countries torn from the capitalist orbit - the Soviet Union, China, Eastern Europe, North Korea - do we hear fear and hatred of U.S. militarism voiced. Suspicion of U.S. aims and hostility to the U.S. sweep across all southern Asia -India, Burma, Indonesia - and spread like a tide across the

Middle East and North Africa. In not a single country of Western Europe do the workers support rearmament and Eisennower's "European Army." The workers of West Germany, main bastion of Washington's West European "fortress," are bitterly opposed to rearmament. The opposition is no less bitter in Great Britain, reflected in the big leftward shift of the Labor Party membership.

But, unfortunately, on this May Rhee or Chiang Kai-shek. Day most of the American labor movement is out of step with the forward march of progressive wants only to defend democracy in the very forefront of the in-countries, hearing of the barring tion can mean only suppression tion of human kind.

The "Humane" Atom-Bomb

Not since Truman's atomic pulverizing of the crowded cities of Hiroshima and Nagasaki in 1945 and his 1949 announcement that the Soviet Union had produced an atomic explosion, has there been such publicity about an A-bomb blast as the one set off in the latest test at Yucca Flat, Nevada, on April 22.

Millions of people witnessed the event on television. Millions of words were dispatched from the scene for the edification of the reading public by a horde of newspaper reporters, special feature writers and "big name" magazine scribes who attended the explosion by Pentagon in-

The purpose of this tremendous propaganda campaign was indicated in such headlines as appeared in the N. Y. World-Telegram and Sun of April 22:

> "1500 GIs Survive A-Blast At Closest Test-Range Yet"

> > and

"Hell Bursting in Skies May Mean Short Battles, More Merciful Wars"

Thus, American youth in uniforms who fear immolation in a super-war of atomic annihilation are led to believe that an A-war will be a mere picnic, while the public generally is given the impression that the atom bomb is nothing short of a boon to humanity.

Hugh Baillie, United Press president and an eye-witness of the Yucca Flat spectacle, waxed positively enthusiastic about the blessings of the atom bomb. The show at Yucca Flat was staged, he explained on April 22, as "a demonstration of the atom bomb as a humane weapon." Atomic bombing, he opined, is nothing less than a "mercy stroke" that "will kill troops quickly and in large numbers and enable the capture of positions with a minimum of loss and a maximum of speed and thus shorten wars. . . "

"One bomb does it all," he tells us. And then, "as soon as the Geiger counters indicate it is safe," the U.S. Army "moves in." Isn't the test at Yucca Flat proof of it? Didn't 1,500 GIs survive it? You wonder what force suddenly killed 60,000, injured 100,000 and made 200,000 homeless at Hiroshima at 9:15 A.M. on August 6, 1946, a day that will live forever in infamy.

But these 1,500 U.S. soldiers at Yucca Flat were dug deep in five-foot fox-holes four miles from the detonation center, "far removed from the heat, blast and radioactive danger area," writes Hanson W. Baldwin. military analyst of the N.Y. Times, and the bomb was set off "higher in the air by far than any previously detonated in war or in test, to prevent radio-active 'contamination' of the ground over which the troops advanced." If the men had not been protected at all, the most they could have suffered, says Baldwin, is "light sunburn."

The troops who have thus survived so well the rigors of A-bombing, as staged for publicity purposes by the Big ferent from dozens and dozens of entire provincial organization of pression at a special provincial plause: "It is not you who pays trol of the city, and their control Brass, are supposed to go back to their "widely scattered others made before this by reunits," reports Baldwin, "and help - the Army hopes to rid the rest of the Army of its psychological fixation on Theodor Blank, the man in charge vigorous protest resolutions. the atomic bomb." While Baillie, in a dispatch after the explosion, tells about the "psychological results on the GIs themselves" and how "military experts regard this as a nice tidy way to win a battle, or a war, as contrasted to the methods which have been employed in Korea to

We can gather from the statements of Baldwin and Baillie that there is a "psychological fixation" among the American troops against the "bigger and better" war which U.S. imperialism plans to follow Korea, if it is going to mean the kind of fighting and suffering experienced in the Korean war. Hence, the Pentagon officials are trying to make the GIs - and their home folks - think that an A-bomb war, when it comes, will be "nice and tidy" and even "merciful" and "humane." It will "humanely" kill opponent troops "quickly and in large numbers," while the U.S. troops will only have to follow the geiger counters.

But that's not what has the GIs worried. They want to know: What about the A-bomb used on us?

That's something the Army publicity men don't have an answer for. The A-bomb is no longer a U.S. monopoly. It can hit Washington as easily as Moscow; it can "kill troops quickly and in large numbers" in the U.S. army as well as in the Chinese.

The propaganda campaign around the Yucca Flat Abomb test is one of the most sinister hoaxes ever perpe- on April 18 in protest against trated against the American people. It is a measure of the anti-"subversive" legislation inutterly cynical and depraved character of the capitalist war-makers that they would seek to represent atomic warfare — this monstrous seal on the crimes of capitalism as little less than a gift to the human race.

The deeds of the imperialists are revolting enough Heaven spare us their hypocrisy.

It is necessary to tell them: What are you waiting for? This is the moment to organize mass actions, protest demonstrations, big movements, which would give power to your opposition to rearmament. It is good to pass protest resolutions. But this is

sts act. Mister Blank is organizing a whole corp of officers comprising the inner structure of the Wehrmacht to come. To stop it one must act! It is necessary to create a powerful workers front of struggle composed of its mass organizations, the trade unions and Social Democratic Party to crush in embryo the army of civil war which capitalism is preparing."

Such language would not fail o have its effect on the Social Democratic Party which proved very sensitive to the protest novement in the unions. It would tion in the revolution, investing become even more sensitive if the workers movement in France, in aspirations of all the people: Na-Great Britain and the United States, expressed by their actions The members of the POR played their complete solidarity with the a leading role on the barricades German working class.

To hear the labor leaders and the spokesmen for the National Association for the Advancement of Colored People tell it, just about the biggest crime you can commit this year is not to register and vote.

Now we certainly favor having citizens exercise their right to vote, and participate in the "democratic process" of selecting their representatives in the government. But, as between the wage earner who can't whip up any enthusiasm for the string of politicians sponsored by the corrupt Democratic and Republican parties on the ballot this year, and the "political leaders" who say, "Vote for anybody, but be sure to vote" we sympathize with the much maligned worker.

A lot of voters thought there was an important difference between the two capitalist parties in the 1948 presidential election. Truman's pledge to repeal the Taft-Hartley Act and his promises of civil rights legislation fooled a lot of people. But the experience of the past four years have taught some very important lessons. The antilabor legislation was not repealed. Truman emerged as the chief strikebreaker, not hesitating to use the Taft-Hartley law himself. Not a single piece of civil rights legislation was passed. Instead, the government launched a vicious attack on the civil rights of all its critics or potential

Instead of moving forward in the fight to defend the rights of labor and minority groups, we have moved backward to the point where today none of the candidates in the Democratic and Republican primaries is willing to make even the promises Truman made in 1948.

Why is this so? One very important reason is that millions of voters threw their votes away in the last election. They voted Democrat or Republican. That showed the two capitalist parties that labor and the minority groups were still unprepared to act independently to challenge the government's foreign policy of world domination and its domestic policy of making the workers pay for it by increasing exploitation and driving down the standard of living.

And this year the official labor and Negro leaders are asking the members of their organizations to follow the same mistaken course. The rank and file shows that it has no confidence

in that policy by demonstrating little interest in the registration and fund drives of the CIO, the AFL and the NAACP. When confronted with this

the capitalist vote machines, instead of building an Independent Labor Party.

It's no wonder so many workers figure. "Why vote?" But there is a reason to vote — to reject both capitalist parties; to make it clear we are opposed to the war program they both support, and to the sacrifice of workers' living standards and civil rights.

The way to make your vote count is to vote for the candidates of the Socialist Workers Party. They don't say, with some Democrats and Republicans, or with the labor and Negro leaders -"We don't like war, but we have no alternative."

The SWP candidates do have an alternative. It is to do away with the worn-out capitalist system which modern wars are trying to preserve; to substitute for the government which rules in the interest of the small minority who now own the resources and means of production, a workers' and farmers' government which can proceed immediately to reorganize society for a socialist future of peace, security and full opportunity

You can help the SWP candidates answer the lies of the Democrats and Republicans and bring a working class analysis and answer to the problems of war, the standard of living, civil rights and individual freedom.

You can do this by familiarizing yourself with the program of the Socialist Workers Party, and informing your friends and fellow workers about it; by distributing The Militant and other SWP literature; by contributing to the campaign fund; the court fight on Law 1030. and by voting and urging others to vote for the candidates of the SWP, whether by marking the ballot where their names appear, or writing in their names in those states where the democratic right to be on the ballot has been denied.

'Mutiny' and Morale

By Thomas Raymond

Press discussion of the so-called "flyer's mutiny" at air training bases in California and Texas is more than usually superficial. The papers don't touch the real issue because they are afraid of the implications.

Hundreds of Air Force officers, reservists who have been called back to duty after having flown many combat missions in World War II, are asking to be grounded and many of them are refusing to fly even though their requests have been turned down. What is the cause of this mass refusal which has hardly any precedent and which is being called "mutiny" by many newspapers?

Reference is made in the press to the higher age of the reserve officers, who are mostly married men with families, to the loss of money they incurred when called back to service, to the dangers of flying obsolescent B 29s, to the tales of hazards in the air above Korea where Chinese and Korean air resistance and anti-aircraft fire

are taking an increasing toll. All of these factors undoubtedly play a role in the new reluctance of U.S. airmen to continue their deadly work, but they don't explain it. All wars are deadly, and all wars are fought by men many of whom have left families behind them. An army's morale is determined by a web of many threads, such as danger, anxiety about family, pay and conditions. etc. But the most important of these factors that determine the spirit of an army is what it is fighting for. That is the

\$64 question. After all, pay and conditions, and other such factors can only be minor to a man who is going out to risk his life. A man doesn't worry too much about the comforts or discomforts of his seat when he is in a speeding train that is heading for derailment. What's he doing it for? That is the question that is on the mind of a man who is going out to do the kind of work that you can't hire people for at any money price.

The U.S. News, weekly Washington magazine, puts its finger on the problem in its April 25 issue. "Throughout the armed forces outside the combat area," it says, hinting that the feeling is not confined to the Air Force, "there are reported to be signs of a letdown as war tensions lessen and the Korean war drags on in a stalemate. Men who have been forced into service against their will grow restive. Discontent is expressing itself in several ways in the Army and

"War tensions lessen and the Korean war drags on in a stalemate." The U.S. News here hits upon the political reason for the discontent. It should have added that poll majorities since the very beginning of the Korean war have shown the American people to be overwhelmingly opposed to the invasion of Korea by American troops. calling it a "mistake" and saying the government should never have done it. On April 2, only a few weeks ago, the Gallup poll reported that 51 percent of the American people call the Korean war "a mistake" while only 35 percent say it is justified. There is no reason to believe that the armed forces do not share this sentiment.

The U.S. News makes some further interesting observations. "The U.S. had a taste of something like this just before World War II. Then, National Guard divisions were on a year's active service for training. Before the year was over, there were desertions on a big scale. These troubles ended when the Japanese attacked Pearl Har-

The U.S. News, like most other big-business organs of opinion, is pushing the viewpoint that "lessening of war tensions," "lack of a full scale war," and the approach of possible truce in Korea are the main dangers to the security of American capitalism. The magazine mourns in the same issue: "Americans are not militaryminded except when there is a full scale war on, as some Pentagon officials see it." And it goes on: "Without a declared war or the apparent threat of one, a good many draftees and reservists are resentful. Thus there are morale problems. In the Air Force, some of these problems are reaching the stage of 'mutiny.' "

The obvious conclusion that the U.S. News and the Pentagon would like to draw is: "Full scale war will solve this problem, along with many other problems of U.S. capitalism." But that is not the solution seen by the Air Force flyers themselves, as we can tell from the papers.

Notes from the News

WANT TO BE FIELD SECRETARY for the NAACP in Florida or North Carolina? The NA-ACP national office is inviting applications for the job, which involves working with branches, youth councils and college chapters in promoting the NAACP program. "College training or its equivalent is requested," says the announcement. It should have added: And a lot of courage. A similar post in Florida was last held by Harry T. Moore, who was murdered by a bomb last Christmas for his anti-Jim Crow activities.

SEN. ESTES KEFAUVER's bid for the Presidency was endorsed by the national convention of the AFL United Textile Workers after the Tennessee Democrat assailed the Taft-Hartley Act. Kefauver also said that he is opposed to a compulsory federal FEPC law.

THE JURY trying Captain Franklin B. Weaver for the murder of Negro steward William M. Harvey on an Isbrandtsen cargo ship in the North China Sea last autumn was deadlocked and unable to reach a verdict at the trial in New York. Another trial will be held.

THE HOUSE OF REPRESENTATIVES has approved an amendment to public housing legislation which would prevent the use of government funds for any housing with a tenant belonging to a member of an organization on the Attorney General's "subversive" blacklist .Government officials are hoping the amendment will be removed by the Senate because its passage would make it difficult to sell housing bonds.

NO MAJOR PARTY CANDIDATE for President has shown "any genuine concern for civil rights," the Southern conference of the NAACP, meeting in Atlanta, declared last week. A conference statement criticized Eisenhower, Taft, Warren, Kefauver, Kerr and Russell for their stands on FEPC and other Negro rights issues.

MME. TAMAKI UYEMURA, most prominent woman leader in Japan, wants Gen. Ridgway to bar U.S. servicemen from Japanese brothels and to "isolate immoral U.S. troops" responsible for increasing prostitution to the point where it is a \$200,000,000 a year business. "This is a big business - next to the Korean war business which totals \$400,000,000" a year in Japan, says Mme.

THREE BIG ARMS PLANTS - the H-Bomb installation at Aiken, S.C., the Lockheed Aircraft Co. at Marietta, Ga., and the Naval Ordnance Plant at Indianapolis - are guilty of racial discrimination in employment, NAACP officials charged before a Senate subcommittee holding hearings on FEPC legislation.

THE AFL AND THE CIO, in a joint statement, criticized the U.S. government for helping to prevent a discussion of the Tunisian question before the UN Security Council. "The American labor movement can only condemn such a policy of neutrality, which is not neutrality but, in reali ty, is an implied endorsement of the undemocratic practices of the French colonial government in Tunisia," the statement declared, urging the U.S. government to reverse its position and support "genuine home rule" for the Tunisians.

LAST MONTH the state committee of the Progressive Party in the state of Washington unanimously opposed selection of a presidential slate that the 1,350 inmates are 200 ago. He said he wouldn't recogat this time because they want the door left open "above capacity." Prisoners are nize the committee. He called out for the party to support some other candidate if jammed into a single city block, the jailhouse rats and they ruined USE LABOR TECHNIQUES possible. The committee sent its secretary, two or three occupying cells built the committee." Thomas Rabbitt, to present this point of view for one. Parts of the structure to the national party conference in Chicago on are over 100 years old. March 30. Rabbitt returned and gave a report to a meeting in Seattle on April 5, but he never tices. "The parole board won't their complaints. They surrender nothing more than a sense of even mentioned the state committee position or talk to us. We have to tell our ed after being promised there solidarity would instinctively

Stalinists Reject **United Action in Ballot Ban Fight**

Stalinist movement has been left floundering by the strong Socialist Workers Party challenge to Law 1030.

When the SWP proposed united action by working-class and leftwing parties and groupings against this reactionary law, the Communist Party did not even acknowledge receipt of the letter. The Progressive Party replied. expressing interest, but declined to unite its efforts with those of the SWP in the building of a broad protest movement They also refused to combine forces in

SEPARATE SUIT

The Progressive Party has instituted a separate suit against the law. It has filed a case in a rural county, not in the name of the party, but in the name of an individual not publicly associated with the PP. They have made no effort to publicise the case, nor to win public support for it, relying completely on the decision of the court.

Despite the bravado in the Illinois edition of the Stalinist Worker, which speaks of a campaign to raise \$20,000 to assure the place of the Progressive Party on the Illinois ballot, there is as yet no concrete sign of PP electoral activity.

They have, however, given some indications as to their real line. They have promised support to the Republican and Democratic against Law 1030. Many individual torneys in 10 counties. tickets. In the April 8 primary, five Stalinist-sponsored "peace" candidate's ran for places on the Republican and Democratic slates. In the printed programs of these launch a real fight on Law 1030, ministration, while the Stalinists candidates, only a single phrase or to participate in the SWP remain on the outside.

Demand 40-Hour Week

Picket line outside a Western Union office in Chicago where members of the AFL Telegraphers Union are supporting the national strike of 31,000 members. The walkout began April 3 to enforce demand for a reduction of the work week from 48 to 40 hours with no reduction in weekly pay. The company rejected the union's offer of arbitration and the union turned down the company's bid for a 60-day truce.

Demonstrations Protest **Brutal Prison Conditions**

By George Breitman

sympathy and admiration for the get for good behavior). New Jersey prisoners who have tions in less then a month.

Because the first two demonstrations were brutally broken and the men." the participants savagely beaten, the 69 prisoners who seized the Trenton State Prison print shop on April 15 also held four guards as hostages. This enabled them to escape tear gas and fire hose attacks such as had subdued the previous demonstrations.

On the first day they set up a committee to meet with State Institutions and Agencies Commissioner Sanford Bates. At their insistence two reporters, including one from the Associated Press, were present.

INHUMAN CONDITIONS

The committee spokesman was William Dickens, who has served five years of a 12 to 21 year sentence for robbery. His statements showed that New Jersey prison conditions, claimed to be among the best in the country, are inhuman and degrading.

His first complaint dealt with the brutal treatment of those who joined previous demonstrations. 'One colored man was beaten from the top of his head to the soles of his feet," he said.

them out," and promised there confinement cells. would be no corporal punishment if the men surrendered. "There von't be bloodshed unless you try to force us out," Dickens said. 'We know what we will face if talked over with a committee. Most prisoners come from the they force us out."

OLD AND CROWDED

The next complaint was overcrowding. The authorities admit had a committee a few months judicial corruption, incompetence

THE RIGHT TO VOTE **AGAINST WAR IN 1952**

The fight against the reactionary restriction of the right to petition contained in Illinois Law 1030 is the fight of every person concerned with defending democratic

It is also the fight of every person who wants to have the chance to vote against the war-policy of the Washington administration. The case against Law 1030 arose out of the campaign of the Illinois SWP to place the names of Farrell Dobbs and Grace Carlson, socialist anti-war candidates for U.S. President and Vice-President, on the Illinois ballot. The new Illinois law makes this virtually impossible.

New reactionary ballot restrictions are arising all over the country. In Ohio, the petition requirements have been boosted to impossible levels. In Michigan, the Trucks police state law says that parties which have a political program not approved by the powers that be can't get on the ballot. In Illinois, you can't cross a county line to get petition signatures. Elsewhere, laws of a similar intent are being enacted or considered.

While the form of the laws vary from state to state, the purpose is everywhere the same. This purpose was clearly expressed, in an unwary moment, by the Michigan State elections director, who said: "We must see that no organization inclined towards socialism is given a place on the ballot."

The Illinois Socialist Workers Party has launched a campaign against this trend, and to secure a place on the ballot. In order to do this, it is challenging Law 1030 in the courts and before public opinion. It announces further that, whether it wins this fight or not, the SWP will run candidates for office in Illinois in '952.

Socialism and the anti-war ticket will fight for its place on the ballot, and will give people in every possible state the chance to vote against the war drive and for a new social order.
