## **Wants T-H** Law Under **New Name**

By Farrell Dobbs SWP Presidential Candidate

Gov. Adlai Stevenson, my Democrat opponent for the U.S. Presidency, is not for unconditional repeal of the Taft-Hartley Act. He is for retaining some of the most obnoxious features of that Slave Labor Law — but disguised under another name.

Any union leader who represents Stevenson as a "friend of labor" on the basis of his latest statement on the Taft-Hartley Act is helping to perpetrate a fraud on the American werkers.

The whole purpose of Stevenson's Labor Day speech in Detroit was to mislead and deceive the workers. It was an adjoit, to give the pro-Democrat union officials some phrases they might use to sell Stevenson to the work-

It is true that Stevenson spoke

"I don't say that everything in the Taft-Hartley Act is wrong. "Enclosed is our final thirty law," Stevenson added. But, he tained can be written into the new law best after the political symbolism of the Taft-Hartley act is behind us.'

In short, Stevenson wants to retain the essence of the Taft-Hartley Act, but do away with the "political symbolism" - its name and origin as an openly anti-labor law passed by a Republican Congress in 1947 amid a lynch atmosphere against the

unions. Stevenson coumerated three curbs on unions, first imposed by Taft-Hartley, that he would reenact in a new law if Taft-Hartley were repealed.

## 1. Their Campaign Opens

General Eisenhower opened his campaign with a gunwaving call before the American Legion convention for a crusade to "free" all territories now dominated by or associated with the Soviet Union. Governor Stevenson chose

Stevenson utilized the American Legion rostrum as a sounding board for verbal concessions on civil rights; and remarks that would have sounded tame enough before a different audience gave an illusion of liberalism against the rabid background of the witch-hunting Legionnaire of its Aug. 27 issue, sandwiched 20 about the "compelling hu-

This sharp political move was immediately followed by verbal concessions on the Taft-Hartley Law before the traditionally militant workers of Detroit and by similar verbal concessions at Hamtramck on the war drive.

Stevenson's course up to now shows that he is a shrewd and designing power politician with a clear understanding of the composition of his own party and of the class forces to which he must appeal.

Before the Chicago convention, Stevenson needed to appear independent of the tainted Truman gang who picked him as heir to the White House and the vast federal patronage trough. Hence the farce of Stevenson's insistent "noes" about the nomination and Truman's "displeasure" at his "reluctance,"

At the Democratic convention, Stevenson wooed the Southern Bourbons. He gave the Dixiecrat wing of the negotiators at Panmunjom have dition for ending the Korean war: Democratic party what they wanted, a weasel-worded plank on civil rights and Jim-Crow-minded Sparkman as

In the national campaign, however, Stevenson finds it necessary, as did Truman and Roosevelt before him, to appeal to the masses who have kept the Democrats in power for two decades. But here, in the absence of a labor opposition as tough as the Dixiecrats, he makes no genuine

Instead, he provides the ward-heel trade union bureaucrats, weak-kneed liberals and Uncle Tom Negro leaders with the liberal phrases they need to sell the Democratic

## 2. Hook, Line and Sinker

Some of the liberals seem to think they are witnessing the miracle of a new Roosevelt arising from the ashes to which Truman reduced the New Deal. Take I. F. Stone, well-known columnist of the N. Y. Compass, for instance. Before the conventions of the two major parties he was sick at heart, almost prepared to take a straight reactionary in the White House in place of the hypocrisy of the Truman administration.

Now he is "grateful" to Stevenson. "One week has made clear," he writes in the Aug. 31 Compass, "that this is no Tweedledum-Tweedledee campaign. The two candidates are moving further apart on foreign policy. At home Stevenson's courage is already having its effect. When a man of his stature tells off the bigots and gets away with Mother Appeals | Although we oppose capitalist laws of the nation. Whether vacations with pay, profits, health it, he gives new hope and courage all down the line. I take my hat off to Adlai Stevenson."

If a prominent representative of the left liberals like Stone feels impelled to take his hat off in tribute to Stevenson, one might expect some of the Wall Street crowd to be holding their hats down in alarm. But such is not the

The influential N.Y. Times (Sept. 2) scoffs at any "divergence" on foreign policy in either the platforms or views of the two major party candidates. "What is at issue is how and by whom policy is to be implemented." The Times prefers Eisenhower to do the implementing.

Ralph Hendershot, financial editor of the pro-Eisenhower N.Y. World Telegram, observes (Sept. 3) that "business and financial leaders" would "prefer to see Ike take the honors. . . but grapevine reports suggest that the Democrats' pride and joy would be found satisfactory also .... no one seemed to be particularly disturbed over his declaration that the Taft-Hartley Act should be tossed out and another law enacted to cover the labor issue. . . Both candidates appear to believe we must carry on with undemocratic Legion and the our defense program, so the danger of a sudden change in government spending is not to be anticipated."

Finally, the Wall Street Journal, (Sept. 3), revealing some "second thoughts" about Stevenson, expects he would continue Truman's program. "He would do it without radio system silences all people freezers and mink coats and he would certainly do it more who dare to do their own thinkurbanely than it has been done. . . But we think he would ing, it seems. This "iron curtain"

## 3. Labor Must Raise Its Sights

Anyone with visions of Stevenson making new concessions, such as Roosevelt made to the working people, is living in the dead past. It was Roosevelt himself who publicly buried the New Deal. The New Deal was now the War Deal.

Truman carried on the tradition. His "Fair" Deal turned out to be the "loyalty" purge, the witch-hunt, preparations for World War III and the invasion of Korea. As the head of the capitalist government, this course was laid down for him by Big Business.

To continue the Roosevelt course, means to continue the rule of Big Business, and under present world condi- ranks of our readers. It is our tions that means continuation of the war drive, inflation, pressure against the labor movement and finally depression or atomic war.

To break out of this impasse, the American labor from possible witch-hunt persecumovement must organize its own political party. Allied with the Negro people and the farmers, the mighty, sixteen-million strong trade union force could write its own Sydow's son, Stanley, aged 22 platform and put genuine representatives of the working who is to be tried in Federal court people in office. # What's Blocking Truce in Korea?

Arthur Hays Sulzburger, pubisher of The New York Times. declared on Aug. 26 that he was not especially anxious to see a ruce reached at Panmunjom.' This statement by the chief of the most powerful and influential Big Business newspaper in the country indicates why the truce negotiations in Korea have been stalled so long.

The sensational and revealing declaration of Sulzburger - a clear intimation that the rulers of this country don't want to end the Korean war - was completely excluded from the nation's daily press, except for the Times itself. It published this newsworthy statement on page 21 in the middle of a story on the convention of the Association for Education in Journalism. What we are concerned with is the admission that the interests fon whom Sulzberger speaks don't want a truce in Korea and that, in fact, they welcome the war in Korea as a less costly arena in which to fight against the rising anti-capitalist forces.

DELIBERATE HOAX

In the light of Sulzburger's admission, it is plain that the U.S.created issue of "voluntary repatriation" of war prisoners, the big block to a truce agreement, is a deliberate hoax.

Truman again gave sanction to this fraud when he spoke on Aug. manitarian and moral reasons for the stand which the United Nations negotiators have taken on

## **EASTERN EUROPE SINCE 1950**

July-August

C. J. H.

A friend of mine, the head of a civil rights organization in a major industrial city, has a problem that is bothering him a great deal, he confessed the other day. He would welcome some sound advice to provide a way out of the dilemma in which he finds himself.

Together with the National Association for the Advancement of Colored People, and with the Negro press and Negro leaders throughout the country, he has urged, demanded, and threatened the Democratic and Republican parties for four years. He, like they, lobbied for FEPC legislation, anti-poll-tax, anti-lynching, and other civil rights legislation. He, like they, warned the politicians that their records would be remembered in 1952.

Before the Democratic and Republican conventions this year, my friend, like the other Negro leaders, practically issued an ultimatum to the two old parties as to what must be included in their civil rights plank. At the same time, he joined with the other leaders of the Negro and labor movements in a big vote registration

After the capitalist party conventions, my friend condemned the "sell-out" of the Negro voters by both parties in both the platforms and the candidates they selected.

Many Negro leaders, like the official labor leaders, have quickly adapted themselves, "practical" men that they are. They are whitewashing the record and the candidates, and jumping on the bandwagon.

Not so with my liberal friend. He has a conscience and a slightly larger dose of honesty. Also, his executive board has both Democrats and Republicans on it. He thought Adam Clayton Powell said what needed saying when he raised the threat of a boycott of both parties by Negro voters. And he observed with contempt, "I see Adam's back in the fold," when Powell got back on the donkey.

So here's my friend's dilemma, as he puts it: "What am I going to do? I can't honestly urge Negroes to vote for either candidate for President. At the same time, we've been conducting all kinds of campaigns urging them to register and vote. But what can they vote for? - I can't even urge them to vote for the Socialist Workers Party because your party isn't on the ballot in this state. And if they write-in Farrell Dobbs and Myra Tanner Weiss their ballots won't be count-

"I can't advocate support of Dobbs and Weiss

myself - it would isolate me and end whatever effectiveness I have now. In my present position I'm at least able to prevent either the Democrats or Republicans from taking over our civil rights organization and converting it into an appendage of their party. I'm also able to moderate the policies of the colored Democratic and Republican politicians to some extent. But that is only so

long as I remain neutral." My friend's dilemma is not just his personal dilemma, although there are some particular aspects of it that may be personal. His problem is just an expression of the contradictory position of the middle class as it manifests itself in the field of the Negro struggle. There is no solution for it, because there is no future for the middle class. All they have is a very shaky present.

There is no future for the middle class because problems and evils with which it must cope are the result of capitalist development, of capitalist society. Our society has reached the bankrupt stage, with the United States acting as receiver for all the other capitalist powers. But the receiver itself is having trouble. The capitalist class, and its government, has the problem of maintaining its profits and cutting the standard of living of the working class to pay for the huge war machine needed by the ruling class to protect its power and privileges on a world scale.

This means that the age of substantial democratic reforms, concessions to the working class and minority groups, extension of democratic rights for the masses, is just about over.

My liberal friend, and others like him, are going to solve their dilemma only by recognizing sides. If they are honest, and if they want to follow a consistent policy, they will have to take those who see the need for a fundamental, radical

There is no "middle way," unfortunately for the middle class. They must choose between capitalism and socialism. My friend may be able to maintain his neutral position between the Democrats and Republicans for a while, but if he votes, as he is exhorting others to do, he will have "get back in the fold" like Adam Clayton Powll, or make a real break: write-in the names of the Socialist Workers Party candidates and help educate for a revolutionary transformation

## An Honest Democrat

So much graft and corruption have been exposed in both the Democratic and Republican parties that most Americans are a bit disillusioned about ever finding another honest politician in either of them. But don't lose heart - one has been located in Flint, Mich.

Recently, a prominent Democratic politician in this industrial city was asked to add his signature to a statement condemning the Trucks Act. The statement is being circulated by the Citizens Committee Against the Trucks Law which was recently formed by people prominent in the Michigan labor movement and which has been joined by professional people and liberals of diverse political beliefs. Its membership agrees on one point - opposition to the reactionary, "thoughtcontrol" Trucks Act.

"Oh, yes," said this supposedly pro-labor, proliberal politician, "I'm in complete agreement with you that the law is entirely unconstitutional. It is leading us toward a police state. This sort of thing will be the death of democracy in America. But," he added with a forthrightness not usually associated with his profession, "I'm going to be very honest with you. I'm not going

to sign it because I'm too much of a coward." He admitted that "most of the names on this list seem to be solid respectable citizens, all right. But there may be a couple of radicals on the list, too, and my political opponents would use that against me. They wouldn't quote the

whole list - just the one or two questionable characters on it." Then he added with a roguish grin, "You know, I've done a little of that my-

"No, I've got a pretty good standard of living and a certain position in the community to maintain, and I want to get ahead in politics. I'm sorry, but I haven't got the courage to sign something I believe in wholeheartedly.'

Knowing that the circulator of the statement would not divulge his name, our liberal Democrat rambled on, revelling in the unaccustomed luxury of honest speech. When told that Genora Dollinger, Flint Chairman of the Socialist Workers Party, had mentioned him as probably in favor defending civil rights and as one of those of defending civil rights and as one of those likely to be jailed if the Trucks Act is fully enforced, he said admiringly: "Genora Dollinger! I grew up with her. A finer woman never walked the face of the earth - but I'm afraid that she's going to have to wait until she gets to heaven

to get her reward! "I can certainly respect her devotion to principles. She's carried the torch around here for years - but, you know, she's never done herself a bit of good. I can admire that kind of courage and devotion to principle, but I want my reward to be something a little more material than people's respect."

Cheer up, fellow citizens. With such honesty among our leaders what have we to worry about?

## Notes from the News

"WHAT ARE WE THE PEOPLE going to do in the game of trying to make both end meet?" asks the United Mine Workers Journal in a Labor Day editorial. "We know from experience that we cannot look to the Administration to accomplish the feat for us," says the Journal. "Already, spokesmen for the Administration -Stabilizer Roger L. Putnam and Secretary of Commerce Sawyer - have thrown in the towel." This is a good point, and leads directly to the conclusion that labor should organize its own party, but the Journal unfortunately stops, offering no answer at all.

FARMERS GOT 51 CENTS of every consumer food dollar a year-and-a-half ago, but now they only get 48 cents, the Farmers Union Herald reports. Food prices are higher, but the farmer gets less than ever. The growing difference in the middle went to swell the profits of canners, packers, processors, food brokers, and other capitalists of the food industry.

A UNITED STATES DELEGATE to the sixth United Nations General Assembly, Dr. Channing Tobias, told the annual conference of the Urban League on Sept. 3 that the civil rights platforms of both major parties boil down to "eloquently stated general principles, carefully planned omissions and skilfully devised evasions, all woven together with such ambiguity as to mean all things to all men." He charged that this stemmed from the view of both parties that the civil rights issue will work itself out "through processes of gradualism." Dr. Tobias should examine the Socialist Workers Party plank on civil rights in the present election.

THE HUE AND CRY AGAINST the State Department policy of refusing to grant passports to people it doesn't like has forced the creation of a Board of Passport Appeals. If this Board is anything like all the other "loyalty" review boards, it might just as well have stayed uncreated. It will not dispense justice. Anyway, all those who value the basic traditional freedoms want to know why there need be any Board or any passport denial at all. Is the State Department creating an Iron Curtain?

## Liberals Give Sparkman A Whitewash Treatment

The liberal-labor-Negro apologists for the Democratic ticket are reaching all the way down into their whitewash buckets in a

desperate effort to justify their support of Sparkman, whom they did not want nominated in the first place. And one of the things they have dug up there is a new 'liberal" movement in the South, which Sparkman is supposed to represent. Americans for Democratic Ac-

The ADA says nothing further about this new "liberal" movement, when it began to emerge, whom it represents, or exactly what its program is. However the New Republic (Aug. 18) in an editorial entitled "John Sparkman and the Civil Rights Issue" undertakes to fill in what the ADA leaves out.

editors of the New Republic say the Northern liberal movement has one approach and the But why or how this makes Southern liberal movement an-

two views"?

The New Republic is in favor of a "new approach" to civil rights and so is Stevenson, it says. Truman, it now admits, was good at talking civil rights, but he achieved "no results" in terms of legislation. Stevenson, it

assures us, is different: "His whole approach and temperament leads him not to advocate but to enact. . . . His inclination will be to advance civil rights legislation that can be passed. His choice of Sparkman was ideal from this point of view. But Sparkman represents further Stevenson's faith in the new South and his determination to bring about advances in civil rights through the consent and participation of elected Southern leaders. Federal legislation is directed primarily at the South, and since it must be enacted by a Senate in which Southerners hold the balance of power and enforced by Southern sheriffs, governors, judges and juries, Stevenson's approach may well be the most realistic course.'

### "PROPER ENDEAVOR"

In fact, there is no maybe about it for the New Republic, for it

"Until the Sparkman-Stevenson slate was nominated, it was logical for all civil rights supporters to stand on the Truman strategy which no elected Southerner can support. Then, instead of merely talking about civil rights, as Truman did, we'll have a civil rights program enacted and enforced with the A few short months ago the strike from scabs, strikebreakers, ADA, CIO, AFL and New Republic were sternly warning the Democratic Party not to tolerate any "compromise" with the Southern Democrats on civil rights, and urging it to purge people like Sparkman who violate the platform of their own party. Now they not only are telling their supporters to go out and work for the election of Sparkman, but they are also asking them to "compromise" with him and the other white supremacists on terms acceptable to the worst scum on the national political

> That's what is at the bottom of the liberal-labor-Negro support of Stevenson and Sparkman. Beaten by the Dixiecrats at the Democratic convention, confront ed with a move to the right inside the Democratic Party, the liberal and labor leaders themselves are capitulating and moving to the right. Instead of fighting the growing conservatism of the party they are allied to, they are accommodating themselves to it, yielding on principles as well as candidates, offering "realistic" theories and rationalizations in defense of it.
