Peurifoy Behind the Overthrow

By Joseph Hansen

JUNE 24 - The plot succeeded. Today Eisenhower could confess that "it would be deceitful if he tried to hide his pleasure over the ouster of the Communists and their supporters in Guatemala." And the U.S. State Department could point to the hero of the hour -Ambassador Peurifoy, whom the Associated Press, in the prize understatement of the year, credited with the "major part" in toppling the legally elected Arbenz government by force and violence. Wall Street cheered too as the stocks of the United Fruit Co. shot up two points in one day. How was it possible for the miserable adventurer Castillo Armas to smash the Arbenz regime nine days after launching nis rebellion?

It was not by prowess in the bættlefield, for his major action seems to have been to promote himself from colonel to general. It was not by support from the people, for behind Arbenz stood 100,000 militant union men and 200,000 peasants while Armas had nothing but a handful of retainers who bogged down in the mud after barely crossing the

border from Honduras. It was not by support from the people elsewhere in Latin America for throughout the area south of the Rio Grande, great demonstrations of students and workers indicated the readiness of the common people of the entire continent to come to the

Can We Keep This Planet Intact?

If this planet is destroyed by an atomic chain reaction set off by those who rule America, would it make any difference?

That is not a question reported in a clinical study of a patient strapped in a straitjacket. It was suggested by that staunch champion of human values, the Boston Globe, in an editorial column June 26. Here is the exact quota-

"Suppose we did blow this planet to atoms? There are others. Besides, the collective borsesense of humanity may prove equal to keeping this planet intact. It is at least worth try-

It may, in the weighty opinion of the Boston Globe, be "worth trying." But the editorial itself inspires no confidence in the seriousness of this capitalist paper's effort at keeping our planet from atomic annihilation, for it is a panegyric to the excitement of gambling with universal suicide: "Everything is being decided anew. We may be headed for selfextermination or for the surpassing of our-

Some people, the Globe says, may look back longingly to the "comfortable time" before World War I when "people felt fairly sure of living out their normal life-spans, and dying decorously in their own beds.'

The Globe, however, thinks that time was "too tame." It feels it was "stuffy, self-satisfied, self-righteous, cock sure, censorious, lacked imagination, thought the future was all sewn up in a sack. The air was heavy, dead."

In contrast to security, the Globe prefers these times of horror. "A generation denied its vitamins of grim experience can turn nambypamby. . ." Rather than a namby-pamby generation, the Globe likes "our generation, with all its forebodings, all its perpexities, all its follies, and all its crimes. . .

The reason? This generation "is more intensely alive than any that has lived for centuries." Thus in the name of the human value of being "intensely alive," the Globe accepts

the perspective of possibly destroying mankind and even the planet itself.

Isn't that the rationalization of a mentally sick person contemplating suicide? He leaves a note explaining that to be "intensely alive" he blew his brains out.

The psychiatrists tell us that such "explanations" have nothing to do with the real reasons for the suicidal act. The deranged mind may not even be aware of the real reasons. And this appears to be the case with the editor of the Boston Globe.

What he is really expressing is the decay of the capitalist system. This system can no longer offer security. It can offer only depressions, fascism, and global wars of fearfully increasing destructiveness. It thus holds out for the future of humanity only misery, agents. agony and mass slaughter; in brief, the perspective of - suicide.

The capitalist-minded editor of the Boston Globe, incapable of visualizing or accepting a President Arbenz instead of or- pendence. But the class does not different kind of society, tries to find some- ganizing them to struggle inde- have the strength to buck the thing of value in wiping out the two billion pendently. The Stalinists told the great economic power of iminhabitants of our globe. All he succeeds in doing, however, is to display the insanity of imperialist charge that Arbenz colonial continuing capitalism.

Isn't it high time that the American people nists" stands everything on its changes within the imperialist put the capitalist system in the scales and head. It was the Stalinists that weighed it against the rational alternative of socialism? On the basis of our modern technology, it is possible right now to inaugurate a scientifically planned economy that would at once mean the end of capitalist anarchy. By the same token it would draw the curtain once six months ago. The Stalinists country . . . (and) from a back-and for and all on the future of suicide that knew it was coming, according ward semi-feudal economy into the same token it would draw the curtain once capitalism offers.

Socialism would mean enduring peace and well being, abundance for all from cradle to peasants so as to prepare for when they passed on this empty grave, and along with that the era of universal all-out struggle? Instead they boast as good coin. harmony and peace that every person in his right mind knows humanity can achieve.

To fight for that goal is the only way to really live intensely in the era of the death to the agents of American im- ing of the stranglehold of foreign agony of capitalism. And it is also the only "collective horse-sense" that can prove equal to keeping this planet intact.

"Subversive" Carpenter of Nazareth?

Methodist Bishop G. Bromley Oxnam scored a telling point June 25 when he declared that "self-appointed patriots" and "ignoramuses on investigating committees" soon may be suggesting Jesus Christ "was subversive."

Referring to Rep. Jackson (R., Cal.) the bishop added: "Such a man will soon be telling us that Moses must have read Marx. Didn't Moses stand before a king and say, 'let my people go.'?

"Surely Amos must have read the Communist Manifesto. Did he not declare, 'ye have sold the needy for a pair of shoes." Oxnam said that the mentality of the witch

hunters is akin to "the Nazi gauleiter and Russian commisar."

America needs more men like Oxnam willing to stand up and boldly defend freedom of thought.

A Lesson About Timid Men

The reaction of labor officialdom to the Army-McCarthy hearings is now beginning to appear in the union press. The dominant note struck so far is fat-headed complacency. They actually believe that McCarthy's course in the hearings was self-destructive and that this somehow relieves them of the obligation of offering militant leadership in the struggle against the fascist danger.

A typical example is an article on the editorial page of the July I Advance, newspaper of the CIO Amalgamated Clothing Workers of America. The title is misleading, "McCarthy: A Warning to Timid Men." From that you might think that the timid officials of the ACWA had drawn the correct conclusions from the warning signs of the hearings. But that, unfortunately, is far from the case.

It is true that the Advance makes some accurate observations. For instance, that Mc-Carthy is "a man who under the guise of fighting communism has become the major domestic threat to America's peace and freedom."

The Advance also notes that the Wisconsia Senator put on a public demonstration of his sinister methods, although it over-estimates the harm this did to the fascist cause: "Mc-Carthy's insistence that government workers set themselves up as a Fifth Column and violate basic statutes. . . by transmitting secret documents to him and to members of his staff: his use of a stolen letter from the FBI security files: his ugly attack on the young lawyer working in Welch's law firm. . .the threatened blackmail of anyone who disagrees with him,

Their Morals and Ours By LEON TROTSKY

All the "moralistic" arguments of anti-Marxists - from the hoary charge that Lenin and the Bolsheviks were "amoral" to the current accusation that the guiding Marxist maxim is that "the end justifies the means" - are answered in this classic

64 pages

Order from PIONEER PUBLISHERS
116 University Place New York 3, N. Y.

extending even to Democratic members of the Committee. . . . "

And the Advance goes so far as to indicate that McCarthy was on his "best behavior" and that he goes much farther in ordinary hearings conducted by his inquisition.

The Advance is even convinced that it is "folly" to surrender to McCarthy and that is "power-crazy" and "attempthe will not be beaten by his "appeasers."

Then, precisely when you would expect the Advance to call for war on McCarthyism, and to outline a militant program of action, the editors end up in the camp of the appeasers.

The Advance calls for no more action than removing McCarthy as a committee chairman. It asks no more of "the American people" than to back up such Democrats and Republicans as Senators Lehman, Flanders and Margaret Chase Smith who have decried McCarthy's methods while agreeing with his witch-hunting objectives and even praising him for the 'good work" he has done.

The heads of the ACWA have a special responsibility in the struggle against McCarthyism. First, they are entrusted with the welfare proved of by this group." Part of a union that is part and parcel of McCar- of this group is repelled by Mcthy's main target - the American labor movement. Second, they have the power to set in motion the only force that can meet the threat of McCarthyite fascism head on and crush it

the political force of organized labor. To carry out this responsibility requires nothing super-human. All that is needed is to ty of McCarthyites. They see him take the road of independent political action munism." They approve of his

and carry through to the end. That, however, demands a decisive political "good cause." One man was re- against communism break with both Republicans and Democrats. ported by Gallup as saying, "You can't use kid gloves to fight Up to now the timid men who head the ACWA have proved incapable of such boldness.

This does not mean that the struggle against the class differences among those the American form of fascism is hopeless. As approving or disapproving of the Advance says, without thinking the thought through, "McCarthy and the disease that is named after him will be beaten, but middle class. not by his appeasers."

A new force will surely arise in the Amercerned about preventing fascism ican labor movement capable of preventing from taking power in America fascism from taking power. To accomplish food for serious thought. The figures reveal the growing crystalthat historic task, it will brush aside all Mclization of a powerful mass fol-lowing behind the Wisconsin fas-Carthy's appeasers, including the present timid men at the head of the ACWA.

resent The Militant's policies. These are expressed in its editorials. "Entered as second class matter March 7, 1944 at the Post Office at New York, N.Y., under the act of March 3, 1879." How the Stalinists Betrayed in Guatemala

coped with had they been what is required is (1) expropriation of all foreign capital

NEED WORKERS GOVT.

Capitalism can't bring this about. Another class, other methods of rule, other property forms than those that go with raise the question: How did the supposed to go forward to so- achieve industrialization. The democratic rule of the working class, supported by the peasantry, is needed.

Under capitalist leadership, the olonial revolution runs into a if the masses are bound to the blind alley. The workers must take over if the country is to pull out of economic backwardness and colonial enslavement. Thus for defeat in Guatemala. Stalin- control. The workers and peasants the anti-imperialist revolution is continuous; not broken up in stages. It is permanent, as Leon Trotsky taught, setting forth the essons of the successful Russian Revolution of 1917. From the first days of the

revolution in Guatemala, when the workers, middle-class sections and capitalists united to overthrow the dictatorship of Jorge Ubico, the working class confronted the capitalists as a potential rival for power. This feature, too, is in accord with the law of development of revolution in backward countries

The all-important role that the workers play in the struggle their own wage demands, their demands in behalf of the peasants, their socialist ideology - all these present a new challenge to the capitalist class. The alliance is unstable from the very beginning and readily breaks apart.

CRUCIAL MOMENT

Then comes the crucial moment, working class leadership to prepare. The capitalist class struggle. Faced with an attack East German workers revolt of Geneva was to treat the Chinese to restore naked imperialist rule, the capitalists must choose: putsch instigated by organiza- been invited by one of the "Big either arm the workers and tions in West Germany directed Four." Dulles maintained a comtalist class could achieve was but risk making the workers agents. The uprising involved resentatives. But, says the June more elbow room, a greater home masters in the country. Or sur- 2,000,000 workers and aimed at 23 Christian Science Monitor, render to the imperialists. Time improved working and living "The American boycott of the after time, in the history of the conditions. The revolutionaries Chinese, instead of isolating the have capitulated to imperialism under working-class rule and the in isolation of the Americans." the upper hand.

The Stalinist treachery in (not just certain idle land, as the lution, if the working class is man government or American Guatemala is nothing new. The Defeat of John O. Holly

There's an interesting story and a very important lesson in the recent defeat of John O. Holly in the Democratic primary race for Congress from Cleveland's 21st District.

John Holly is the founder and president of the Future Outlook League. For more than a decade this organization was the example and pace-setter in the struggle of Negro workers from New York to San Diego to break through the Jim Crow hiring policies of American business and industry

The Future Outlook League, like the CIO, was depression-born. Holly, together with a few others in the community, saw the possibilities of mobilizing the one power of the oppressed - numbers.

Utilizing the militant methods of mass organization, boycott, picketing, protest, and advertising his aims, he first led campaigns to compel businessmen who depended entirely on the patronage of the Negro ghetto-dwellers to hire colored clerks.

All the methods used to break strikes were employed against the young militants of the FOL. Injunctions, police violence, arrests, condemnation by the "respectable" Uncle Toms of the Negro community itself.

But despite these difficulties, the movement grew. The community rank and file flocked to support the FOL, and the weak and wavering "leaders" of the community were forced to join in the struggles or lose their following. Businesses, utilities, and industrial plants were compelled to accede to the demands of the aroused Negro community.

Colored workers and leaders from communities all over America followed the activities of the FOL. Some came to "the best location in

the nation" to learn how the organization was set up and the methods it used. "Don't Buy Where You Can't Work" picket signs appeared in the ghettoes of every major industrial center in the north, and many of the smaller

As Holly's influence grew, the Democratic politicians began to embrace him. Eventually he became the state's outstanding Negro Democrat. Finally, in the 1954 primary, expressing the strong desire of the community for representation and its recognition of the limitations of struggles for economic gains alone, he attempted to run for Congress,

But he had forgotten the lessons of the struggles he led 20 years ago. He depended on the promises of Democratic Party leaders instead of on the independent strength of the Negro community. He begged his campaign workers and labor groups that offered support not to appeal to the voters in the white suburbs. "They will be taken care of; I have been promised," he said.

The result: John Holly received only the support he had in the Negro community despite the Democratic Party. He got none of the support he could have won by an appeal to labor in the white communities. And he lost

The lesson in politics that many Negro communities are learning the hard way: Militant, independent. - working class action is the only means of winning political, as well as economic gains for the colored masses. Playing capitalist-politics - Democratic or Republican - is as bankrupt a method for winning equal rights as meekly and respectfully waiting for favors from the white boss in winning equal job opportunities.

Is Pope "Subversive"?

By Dorothy Johnson

Should the Catholic Church be put on the "subversive" list? Strange as it may seem this question was implied at a hearing June 9 of the Special House Committee to Investigate Tax Free Foundations.

Thomas M. McNiece, associate research director of the commttee, was asked as a witness to identify several quotations. He did. He said they sounded like "subversive"

The quotations were from three papal encyclicals, one of them written over 50 years ago by Pope Leo XIII.

McNiece considered them "subversive" because they seemed critical of present society. And as any witch hunter knows, if you don't think like McCarthy you must be subversive.

Here is one of the excerpts from Pope Leo XIII: "But all agree, and there can be no question whatever, that some remedy must be found, and quickly found for the misery and wretchedness which press so heavily at this moment (1891) on the large majority of the very poor.

"The ancient workmen's guilds were destroyed in the last century, and no other organization took their place. Public institutions and the laws have repudiated the ancient feligion. Hence by degrees it has come to pass that working men have been given over, isolated and defenseless to the callousness of employers and the greed of unrestrained competition.

"And to this must be added the custom of working by contract, and the concentration of so many branches of trade in the hands of a few individuals, so that a small number o very rich men have been able to lay upon the masses of the poor a yoke little better than slavery itself."

Do you think some remedy should be found for the misery of the poor? Then watch out fatal slaying of James D. Broa- yard." You might get fired from your job. Do you dus, Jr., by Police Sergt. Louis Another witness, Mrs. Theresa came charging into the yard and think that there has been postponed Timmoson, heard the shots and hit Hirsch between the eyes with think that there has been a concentration of wealth in the hands of a few? This happens to every trigger-happy killer cop on said she saw Broadus on the be a fact. But facts are "subversive."

Another of the excerpts was written by Pope Pius in 1931. It said in part, "Every effort must therefore be made that fathers of families own. receive a wage sufficient to meet adequately, ordinary domestic needs. If in the present state Korean war veteran and steel of society this is not always feasible, social worker during a manhunt last justice demands that reforms be introduced May 18. Rehak was one of 200

There is little likelihood, however, that Mc-back yard of the family home. Niece, on the basis of these quotations, will try tarpaulin over himself and fell to get Brownell to put the Catholic Church on asleep. his subversive list. And the Pope is pretty safe from being fired for "subversive" views.

But people are jailed, hounded and persecuted for ideas such as those voiced above that do not conform to the views of the party in Rehak and Patrolman Hirsh office. Today officials like McNiece can be put were coming from the back, in an embarrassing light. Tomorrow their word Inspector Forrest reported, when

Notes from the News

LUCKY CLASS OF '54. Sylvia Porter will have no unemployment in her family this summer. In the N. Y. Post of June 28 the columnist says that "the youngster came home from college, made one telephone call, talked a few minutes, turned around and said, 'I have the job. Start tomorrow digging septic tanks. \$14 a day. Wow, I'll work six days and make \$84 a week." If it takes you a few days to find a job, don't let it get you down. Miss Porter says that while. "Employers aren't hiring with the panie haste of a few years ago , . . they are absorbing our crop of 1954 graduates with impressive speed - and paying them peak starting salaries." If you are one of the five to six million unemployed, you can blame it on the fact that your mother didn't bring you up the way Sylvia Porter brought up her son.

FARMERS GET LESS - CONSUMERS PAY MORE. Farmers are now getting about 17% less for their products than they did during the Korean war, but consumers are paying more. Figures given by Labor's Daily of June 18 show that in 1945 farmers got 54 cents out of every dollar the consumer spent. Today farmers get only 44 cents.

NOT EVEN A SERVANT OF GOD can cross the color line in Macon, Ga., without repenting "in the county jail for about an hour." Clifford York, 21-year-old ministerial student, was arrested together with his guest, Richard Scott, a Negro medical college graduate, because they were violating "segregation laws." The City Court soliciter admitted, according to a June 24 UP dispatch, that he knew of no state law prohibiting a white person from entertaining a Negro in his home,

Report Held up One Year On Collusion of FBI-Police In Complaints about Brutality

By Bruce Jaffe

NEW YORK, June 25 - Exposure of an attempted whitewash in a report on a secret agreement between the FBI and New York police on police brutality cases was made yesterday by represen-🗈

The report, drawn up by the ed that his staff had numerous House Judiciary Subcommittee, cases of unprovoked police has been kept under wraps for a assaults on citizens. Fifty - one year. It was supposed to reveal cases alone involved firearm asthe truth about a deal with the saults by intoxicated cops. Such FBI to pay no attention to com- cases of police brutality, he said, plaints of police brutality in New have been going on unhindered and unpunished for 15 years.

Today's N. Y. Times, however, reports that Rep. Fine denounced record of police brutality, the the unpublished report for failing scandal of the FBI-N. Y. police to "summarize the evidence" and agreement brought indignation to for failing to re-write the report a high pitch last yar. Thousands 'in accord with the facts."

ment came to light a year and a demanded a clean-up of the half ago during a federal grand ury investigation of the case of 32 - year - old Negro truckdriver, Jacob Jackson, who was picked up by police in front of his residence and so cruelly beaten that he had to undergo two brain long-awaited report, when finally

On Feb. 19, 1953, a memorandum from the Justice Dept. files was submitted to the House Judiciary subcommittee clearly establishing the existence of the secret agreement. The memorandum was written by FBI man James M. McInerney to the Chief of the Civil Rights division on July 30, 1952, just 19 days after McInerney made the agreement as a cover up for the secret deal with the N. Y. Police Dept.

says that it is "requested" that Government to become a local the Chief of the Civil Rights, policeman more than is absolutely division let him know "before any investigation is authorized" rally conferred rights, and this of "alleged violations of civil is a quite proper and wholly com-

DAMAGING ADMISSION

Powell of Harlem told the House subcommittee that this memorandum confirmed the existence of their helpless victims. an agreement to "circumvent the New York." McInerney, after victimized minorities will demand denying making such an agree-mnt finally admitted that he had brutality before competent repconsented to an along these lines.

George P. Monaghan, N. Y. police Commissioner at the time The crime laboratory report said and now State Harness - Racing Commissioner also denied making a secret deal with the Justice Dept., but was forced under oath to admit that he "may have" told FBI agents that the Federal Civil Rights Law was intended only "for south of the Mason-Dixon line."

Finally, Leland V. Boardman, FBI agent - in - charge in N. Y. swore under oath that Monaghan denied him permission to question cops charged with brutality because "we made an agreement with the Department of Justice."

RECORD OF BRUTALITY

But the greatest proof of collusion between the FBI and New York's police brass lies in the outrageous record of police killings and savage assaults on ple, particularly Negroes and unpunished. No less than ten people have

been murdered by N. Y. police thugs in the past four years. The Legal Aid Society reported that James Broadus, Jr., never re- of 8,300 defendants it represented in Felony court in a single year, over 2,700 showed signs of injuries ranging from scratches to broken jaws. Bruce Smith, Acting Director punctured his denial.
