Faure Saved; But North Africa Crisis Deepens

Although the Faure Cabinet received a vote of confidence from the National Assembly on Oct. 18, the troubles that beset French imperialism faced by the revolt of its North African colonies con-

tinue to multiply. In Morocco, the Istiqlal (Independence) party leaders denounced French violation of the Aix-les-Bains agreement whereby a three-man Regency Council composed of one pro-nationalist one pro-French and one "nectral" - would select a Moroccan government possessing limited

Instead of a three-man Regency Council a four-man body has been appointed, with two pro-French, one pro-nationalist and one "neutral in the Moroccan political struggle but thought to lean somewhat to the nationalist side," according to the Oct. 16 N. Y. Times. Such a deadlocked body could take forever-and-a-day to implement the next step of the government's run-around "reform" program for Morocco.

Or it could name a cabinet dominated by French stooges. Hence the outery from even the moderate nationalist leaders residing in Morocco.

The Neo-Destour central committee expelled ben Youssef on Oct. 12. But this does not put an end to the mobilization of a genuinely pro-independence movement in Tunisia.

The focus of the French North African crisis is now Algeria, however, where French imperialism has the greater part of its North African investments. The French government has repeatedly proclaimed that Algeria is an integral part of France, Under the set-up, however, the Arabs who make up 90% of the population are deprived of all political rights and are fiercely discriminated against economically by the parasitic French settlers.

"SEND U.S. TROOPS TO MISSISSIPPI"

By George Lavan

The sending of federal troops o Mississippi, to enforce the constitutional rights of Negroes here, has been called for by the hicago branch of the National Association for the Advancement f Colored People.

A resolution proposing this trastic federal action to end the white-supremacist reign of terror, which recently aroused national indignation over the lynching of 14-year-old Emmett Till, was passed at a special meeting of the executive committee of the Chicago NAACP. It called upon the national officials of the NAACP to demand of Congress:

(1) Suspension of Mississippi epresentation in the U.S. Congress and suspension of its state and local government;

(2) Appointment of a federal denin strator for all the affairs of the State of Mississippi; (3) Sending to Mississippi ederal troops to enforce the authority of the federal ad-

ministrator: (4) Thorough investigation by Congressional committee "of the causes and results of abrogations of citizens' rights in violation of the Constitution" that have taken place in Missis

(5) Continuance of federal occupation and administration of Mississippi until such time that "it becomes the judgment of Congress" that democracy will be practised in Mississippi.

VIOLATION OF RIGHTS The Chicago NAACP based its demand for solving the Mississippi problem with troops by reviewing the "long history and record of State-condoned disregard" for the Constitutional rights of the Negro people there. It accused the state's authorities of permitting the violation of

Similarly, top Democratic politicians, busy wooing the Southern Dixiecrat leaders for next year's convention, have completely ignored the Till case and the demands of the NAACP and labor for action on Mississippi.

National Democratic Chairman Paul Butler has still not been reported as bothering to reply to NAACP Executive-Secretary Roy Wilkins' letter of over three weeks ago, warning that the Democrats would lose the Negro vote in 1956 unless they did something about the Mississippi outrages. Crucial Issue Between Unions and Corporations Posed in Indiana Strike

Workers Strike Westinghouse

strike. The walkout began officially Monday morning (Oct. 17) when the CIO International Union of Electrical Workers (IUE) called the nation-wide stoppage.

Many IUE locals, however, jumped the gun and set up picket lines Friday night. In addition, over 7,000 Westinghouse workers, belonging to the independent United Electrical Workers (UE), hough UE-Westinghouse negotiations have not yet broken down completely. It is expected that UE will soon call out its other 5,000 members in Westinghouse.

SPEED-UP ISSUE

The IUE strike follows a month of fruitless negotiations with the anti-labor giant, Last Sept. 12 IUE struck the Westinghouse chain in support of an anti-speedp strike of its East Pittsburg!

The union demands flouted rulings of the U.S. This was revealed on Oct. 11 by that unresolved disputes on the Law, which forbids strikes in the union or arbitrators have any say on speed-up.

> Another issue in the IUE strike s the length of the contract. Westinghouse is pressing for a five-year contract with graduated wage increases that would finally reach a minimum of 2312 cents. Not only is the amount too small, St. Louis. considering that Westinghouse wages lag behind comparable industries, but the members object to a five-year straitjacket. Union negotiators are embarrassed by company propaganda that the union recently gave a five-year contract to General Electric. The workers' attitude is that one error is had enough, without repeating it in order to be consistent.

Besides IUE and UE, the AFL Electrical workers representing 1 500, and the Independent Salaried Unions, representing 13.500 white-collar workers, are in negotiations with Westinghouse. The UE has proposed joint negotiations to the IUE. At the Jersey city plant where the white-collar workers are IUE, the UE production workers are out in solidarity.

Regardless of how the strike originated the over-riding issue is now posed point-blank by management. The open-shop crusade launched by Perfect Circle in Indiana has been bailed by every union-hating outfit in the country. Typical of such reaction is eral manager Prosser: "You and

Reuther's Theory of "No Class Struggle" and the Indiana Strike

By Murry Weiss

When armed scabs shot down UAW pickets Oct. 5 in New Castle, Ind., Walter Reuther, President of the CIO and the Auto Workers, wired Secretary of Labor James P. Mitchell and Governor Craig of Indiana placing "the full shootings . . . squarely upon the shoulders of the Perfect Circle Company, whose president on leave' is Lothair Teetor, U.S. merce."

This was absolutely correct. But Reuther also said in the same telegram, "One of the principal difficulties in the relations between the Perfect Circle Company and its employes is the acceptance by the management of the company of the theory of the class struggle." This statement is completely false, and moreover, it reveals the main problem of the American labor movement today; namely, that it is saddled with a leadership which disavows the Hague, his opponents delight class struggle both in theory and to point out, never belonged to practice. Instead, it is committed a union till he was employed by to the policy of class collabora-

Perfect Circle Formula

The Perfect Circle formula for breaking strikes, witnessed this month in the State of Indiana, is a logical development of the Taft-Hartley era of labor relations. The enactment in 1947 of the union-busting Taft-Hartley measure provided the legal framework for a host of anti-labor state and national laws, court decisions and administrative rules and regulations, all devised to hamstring and cripple the defensive power of the unions in the face of corporation assault.

The Perfect Circle Corporation with plants in New Castle, Hagerstown and Richmond, Indiana, took full advantage of the strikebreaking machinery provided by Taft-Hartleyism and added a wrinkle of its own. They deliberately manufactured the incident which the Governor of Indiana required as the pretext to send in troops to provide safe conduct for scabs through the union picket line.

The Perfect Circle formula for breaking strikes and smashing unions is unbeatable. providing — providing the unions abide by the rules and regulations laid down by the strikebreakers. As worked out by Perfect Circle the formula goes like this:

(1) The corporation refuses to grant the modest demands of the union, which in essence have already been granted by the biggest producers in the industry.

(2) The corporation then refuses to arbitrate on the ground that a vital "principle" is at stake.

(3) When the union is forced to strike. Perfect Circle goes to court and gets an of the Russian Revolution. injunction under Taft-Hartley, limiting the number of pickets, their activity, etc.

(4) With picketing rendered ineffective the corporation recruits its scabs and pass all Eastern Europe; wars in starts firing militant union men in preparation for a decertification election under Taft-Hartley in which scabs vote but their brutal suppression; eight striking union men no longer "employed" by the company do not.

(5) When the union members in the area, outraged by this blatant unionsmashing move, stage a demonstration outside the struck plant, Perfect Circle arms its scabs and thugs who fire on the pickets, thus providing the "incident" to "justify" sending in the militia.

(6) With the militia in control, martial law is established, scabs are herded into the plant, the Taft-Hartley injunction is enforced, and production is resumed, all according to plan.

So long as the union leaders permit themselves to be bound by the rules of class warfare fashioned by the corporations and their political agents in state and nation the Perfect Circle formula stands as a deadly threat to the organized labor movement. Only the methods of struggle applied in the early days of the CIO, the method of independent class action on the economic and political field, can successfully stave off that threat.

Truman Revises History

In former President Harry Truman's memoirs, now being featured in serial form in Life magazine, there are many attempts at self-justification and reconstruction of episodes that do not accord with historic facts. Here is one example:

Truman says that when he appointed Tom Clark as U.S. Attorney General in 1945 he "emphasized to him (Clark) the need to be vigilant to maintain the rights of the individuals under the provisions of the Bill of Rights. I pointed out the danger of prosecuting officers becoming persecuting officers. They are there not only for the purposes of enforcing the law, ... but also to be sure the rights of individuals under the constitution are fully protected. I emphasized this so much that Tom Clark thought I was 'hipped' on the

subject - and I was." This, indeed, is a very pretty picture, but it does not jibe with the facts. Truman, in fact, was the inspirer and organizer of the crusade against civil liberties, while Tom Clark was one of his principal lieutenants.

In March 1947 Truman issued Executive Order 9835 setting up the "loyalty" program for all government employes. Tom Clark issued his infamous "Subversive" List. Screenings of radicals and militant unionists among seamen and workers in defense plants spread like a plague, while

the FBI mushroomed into a huge Secret Political Police out to "get the goods" on any suspect. The system of paid informers grew and flourished in this period.

The drive against "subversives" led to the whole series of prosecutions under the Smith Act. It rose to a new hysterical pitch of "spy hunts" during the Korean "police action" which was highlighted by the prosecution of the Rosenbergs and ended in their electrocution.

Truman might have been "hipped" on the question of the defense of the democratic rights of individuals, but he was "hipped" in a different way than he implies: his administration conducted a full scale attack upon the Bill of Rights. House Un-American Committee investigators, under Democratic leaders, coined the designation of "Fifth-Amendment Communist," and parsecuted witnesses who invoked the Bill At Phila. Stalinist-Pacifist Debate persecuted witnesses who invoked the Bill

Truman laid the groundwork for the rise of McCarthy who turned his fire upon the Democrats using the very weapons Truman had prepared for him. Only under such attacks did Truman protest against the extension of the witch hunt. Up to 5, before an audience of 300. Soviet Union called Eisenhower that point it had his full approval.

Congress, Representative Walter and Senators Eastland and McClellan continue the that Stalinism and Trotskyism witch hunt with Truman's full support.

The American Legion Convention

The AFL Hotel and Restaurant Workers Union has been waging a bitter struggle to win union conditions for the highly exploited workers in the swank hotels of Miami, Florida. When the American Legion announced it would hold its convention there, it was flooded with requests from AFL and CIO bodies to shift the convention to another city. The Legion contemptuously brushed aside these requests.

On the basis of that single fact it was a disgraceful episode for organized labor when AFL president George Meany appeared as a speaker at that convention. On the basis of all that transpired at the convention "disgraceful" is the kindest word for Meany's action.

This breach of the Hotel strike front by Meany was made in order that he might outdo Big Business and the Legion itself in war-mongering. Afraid lest the Pentagon should relax its preparations for war under the influence of the "Geneva spirit," Meany insisted that the "democracies must continue to expand their strength and unity." He even went so far as to denounce unionists in uniform who demanded at the end of World War II that troops be returned home. He charged that they served "only the interests of Soviet imperialist aggression."

THE ROAD TO PEACE

This pamphlet by James P. Cannon is must reading for anyone opposed to another war. It explains why peace cannot be won by following the Stalinist program and outlines Lenin's real views on this life and death question, with particular application to America.

Did not rising capitalism and feudalism live side-by-side for many generations [a generation is usually taken to mean about 33 years, according to Webster's Dictionary] when they were genuinely antagonistic?"

THE ACTUAL RECORD

Here is a part of the actual ecord of "peaceful coexistence" of capitalism and feudalism:

The epoch of capitalist revoutions opens with the religious wars of the 16th Century - a very unpeaceful beginning - and proceeds to the conquest of power by the capitalist class and between Catholicism and Protestantism is the first form in which the classes fight out their irreconcilable antagonism of interests.

The Catholic-feudal church and parties. They organize armies to few days. carry out the sruggle on the military plane. Later secular parties and armies make their appearance in order to wage the self-same class battle.

The struggles proceed as civil wars inside the various countries of Western Europe and as wars between states. The Catholic monarchy of Spain for 150 of the 300 years becomes the bulwark of the reactionary feudal order throughout Europe, just as U.S. imperialism is the citadel of reaction today.

The first great revolutionary clash - known as the Peasant Wars — takes place in Germany n 1525 following the Lutheran reformation. It rages for number of years but brings no victory for capitalism.

Parents Prefer Jail to Segregation

In the small southern Ohio town of Hillsboro, a courageous group of Negro parents has initiated methods of struggle against Jim Crow schools that may well serve as an example for others throughout the country as they realize the futility of depending on legal suits alone to end segregation in public schools.

For years the parents of children attending the all-Negro Lincoln school tried in vain to interest the school board in improving the facilities and quality of education there. Finally, encouraged by the Supreme Court ruling of May 1954 that segregation is unconstitutional, they decided to change their tactics and demand immediate integration.

In September of that year they took their children to the "white" Webster and Washington grade schools on registration day, determined they would attend a nonsegregated school or no school. When they were turned away, they started a boycott of the Jim Crow school that is now in its second year.

At first the school board was caught off guard by the new demands of the parents who sent committees to meet with them, and by reporters from the Negro press who asked pointed questions about their policies on segregation.

Members of the board at first frankly admitted their intention of maintaining separate schools and their plans to devise ways of doing so legally. A new school zoning ordinance was passed, gerrymandering the districts on a racial basis. But the Negro parents were unimpressed by the new legality. They kept their children out of school and filed a suit in federal court, through the National Association for the Advancement of Colored People, to enjoin

the school board against enforcement of the new zoning ordinance. But Judge John H. Druffel upheld the Hillsboro schoo board. The appeal from his decision is scheduled for a U.S. Circuit Court hearing Oct. 17 in Cincinnati.

Last month, when school opened, 40 Negro children denied admission to the Webster school, were kept out of the Lincoln school by their parents. But this time something new was added. A group of the students and parents donned picket signs and started a "poster parade" to demonstrate their protest against segrega-

At the same time the parents secured the services of volunteer teachers to tutor the children so they will not fall too far behind in their studies. But the small trical Workers Union which forgroup of working men and women is unable merly bargained for a portion to support a private school or even to buy of the chain. However, most of the workers who have been bucking the assembly line for a period of time complain of some ailment which is constantly bothering them. These range from headaches and backaches to outright weariness and inertia.

In addition to these chronic ailments there is a daily list of casualties on the job which are directly the result of the intense speed at which the workers are forced to perform their operations.

In regard to illness and injury plant management reflects the callous disregard of the auto barons where the suffering of the workers are involved. In no case must a worker be sent home because he isn't feeling well or suffers a trifling injury like a sprained ankle, a smashed finger, or a painful gash in his arm.

The company attitude is one of: patch them up, sew them up, put their arm in a sling, or give them a pill, but above all get them back on the job as soon as possible. Keep that line moving!

One day Jim came into work and complained of not feeling well. George tried to convince him to get a hospital pass but Jim replied, "It's OK, I'll get over it in a little while.'

In a little while however, Jim had to make a mad dash for the mens room where he got violently sick and threw up.

AUTOMATION in handling government checks is causing a crisis among Federal workers. Secretary of the Treasury Humphrey announced that 350 million government checks will be turned out by a labor-saving machine. The present 750 employes that handle the checks will be cut to 300. Meanwhile the American Federation of Government Employes warned that automation was threatening "serious dislocations" among Federal workers. The union asked the Defense Department to set up a committee to study the question.

WHEN A NEGRO PRIEST was assigned to say mass at the Roman Catholic Mission of St. Cecilia at Jesuit Bend, Louisiana, the parishioners refused to permit him to officiate. Archbishop Joseph Frances Rummel then ordered suspension of services. Earlier Archhishop Rummel had postponed the scheduled integration of parochial schools in the archdiocese, saying, "It would not be prudent or practical."
