## New Hoax Tried in Sobell Case

By C. R. Hubbard

NOV. 26 - The attempt of Robert Morris, Council for the Senate Internal Security subcommittee, to explain the Soviet Sputniks with new "revelations" from David Greenglass, alleged "atom spy" whose 1951 testimony led to the execution of Julius and Ethel Rosenberg and the imprisonment of Morton Sobell, now serving a 30-year term in Alcatraz, did not meet with much success. The new charges of the theft of satellite secrets by the "Rosenberg spy ring," were reported in the press, but with few

## **Facing Balky** Allies, Mideast, **Shaky Economy**

By Art Preis

America's ruling class, seemingly so confident a few months ago, now is gripped by a mood of crisis. The daily press continuously speaks of Wall Street's and the government's "jitters."

These "jitters" followed the first Soviet Sputnik, which marked an end to the clear-cut U.S. military lead. But it would be wrong to attribute the tremors of America's financial, political and military leaders to any real fear of Soviet armed aggression. "Loss of American prestige," "unstable allies," "growing lack of confidence in the U.S. economy" are the type of concerns more and more expressed by business and political commentators.

In a recent speech, Vice President Nixon complained that the Soviet Union has opened "a massive non-military offensive aimed at the overthrow of all free governments." This same fear of a "non-military" advance by the Soviet Union is stated more explicitly in a recent N.Y. Times editorial. Citing the Kremlin's own dread of mass uprisings, particularly since the East German, Polish and Hungarian revolts, the Nov. 8 Times writes off any revolutionary threat from the Soviet leaders:

"Consequently, the Kremlin rulers no longer appeal to the masses for a revolution from below. Rather, they now propagate a revolution from above by bribing or subverting ruling politicians, military leaders and a few inte lectuals. . . And this is the threat now confronting the democratic world."

#### WHY THEY HATE AMERICA'S RULERS

But how can the still-poor Soviet Union compete with the wealthy U.S. in bribery and subversion? Why, this country has already spent scores of billions in economic years, past wars and the prep-countries, who went to Moscow aration of a new one cost the for the 40th Anniversary cele-U.S.government a total of \$463 bration of the October Revolu-in scope than the Cominform signed by representatives of 64 outs on a scale that beggars anything the Soviet Union billion. Now Elsenhower pro- tion, stayed on for two weeks had been. One conference em- Communist Parties. The American ruling class is beset by the cold fear of isolation, of unfaithful allies, of worldwide hatred.

> This hatred was described in the Nov. 19 N.Y. Post by Dr. Ernest Dichter, president of the Institute for Motivational Research, Inc., following his recent international tour. Interviewed by Mike Wallace, Dr. Dichter said that America's reputation abroad "couldn't be any worse" and "everywhere I went I met anti-Americanism in virulent forms."

> This "appalling deterioration" of U.S. prestige, said Dr. Dichter, is rooted in the fact that while "we still talk idealism. . . we have ceased to practice it in many ways. . . We talk freedom, but we back up dictatorships like Franco's." Asked by Wallace if he thought "that in the world's eyes we're hypocrites, a split personality." Dr. Dichter replied, "Absolutely."

> In short, the common people everywhere mistrust the protestations of selflessness from America's ruling Big Business class. "You get nothing for nothing in this world - and damn little of that," goes the old saying. And U.S. imperialism offers even less. As Dr. Dichter conceded, " . . . We give the wrong way. We give grudgingly. condescendingly. We give with political strings attached. . . "

#### "LESS BUTTER, MORE GUNS"

The continuing Mideast crisis, the crisis of the NATO military alliance brought about by French objection to the shipment of a few rifles by the U.S. and England to Tunisia, the hand-wringing and outcries and mutual recriminations about "permitting" Soviet scientists to get a satellite aloft "first" - these reflect, in reality, the inability of U.S. imperialism to stabilize its domination ern Electric Products Corporation factor. At Westinghouse, the mandate calling for the aboli- tile Workers Union. Somersett's joining WCC's as never before." estimates the loss of wages due internationally. The revolutionary masses — particularly (Neco) where two days prior to plant manager told white work- tion of segregation in its organ- attacks on the TWU so outraged In Little Rock itself, the WCC to discrimination at roughly \$30 in the anti-imperialist undeveloped lands — are finished with any form of imperialism.

And yet, the internal needs of the U.S. profit economy keep pressing for solution by outward expansion. All the Last year at an auto workers The Nov 10 New York Times must isolate and render ineffected decade, all the hundreds of billions poured into war exeducational institute in North reported that John Edelman, tive the racists in the white penditures, all the "built-in stabilizers" of grudging social reforms have failed to assure a stable and steady

that from the point of view of further de-Stalinization.

Are They Still Pals?

Tito, Khrushchev and Bulganin are shown here at 1955 conference in Yugoslavia. At that time, ties were renewed as the Kremlin bureaucrats apologized for "Stalin's errors." Since then, relations have warmed and cooked on two occasions. At a recent Moscow Conference, the Yugoslavs refused to sign statement of Soviet-bloc countries. (See story, page one.)

#### "Democracy" in Okinawa

One of the myths assiduously propagated by America's big-business press is that imperialism on the part of modern capitalist countries is a thing of the past. Direct colonial rule, as that of France in Algeria, is explained as a vestige of 19th Century imperialism. Though U.S. imperialism has long preferred indirect rule of its economic vassal states, it has in the past engaged in direct colonial rule and, indeed, last week furnished the world with a current example on the island of Okinawa which it looted from Japan at the end of the war.

By order of Lieutenant General James E. Moore, High Commissioner and military commander of the U.S.-occupied island, the rules of municipal government in Naha, Okinawa's capital, were revised to remove its elected mayor, Kamejiro Senaga, from office.

Making up rules as he went along. Moore decreed that henceforth anyone convicted of a felony could not hold office. This was designed to bar Senaga's reelection on Jan. 12. Senaga had been imprisoned by the Japanese militarists prior to World War II for his "anti-government activities" and he was imprisoned again by U.S. authorities in 1952 for "harboring a fugitive."

Senaga was elected by the Japanese people of this island in protest against

the national oppression which the U.S. occupation force represents. His election tor.] was hailed by organized labor in Japan

He had the backing of a United Front party composed of Communist Party adherents and Socialists. But the military name was summed up the proauthorities swung their weight in the gram of an epoch - the transielection and succeeded in placing 24 pro-Americans on the 30-man assembly.

The American brass then opened a drive to get rid of Senaga. All public work in the city was brought to a standstill when the bank controlled by the U.S. authorities refused to make customary advances to the city. The Americans then loudly class. denounced Senaga for having brought administration of Naha to a stop.

Last June, the assembly, by a twothirds vote, decided to remove Senaga. of government which would bring of workers' deputies, soviets of But in new elections in August, the United about the transformation of the peasants and of soldiers. Front doubled its strength in the assem- social order. bly. Under the rules, this nullified the removal proceedings. Whereupon Moore changed the rules.

The American action is evoking sharp protest throughout Japan. The Socialist Party branded it an "action that denied the self-government of the Okinawans fleeting glimpse of what workand trampled on their democratic rights."

We believe that organized labor in this THE WORKERS' country ought to join in the protest.

### The True Source of Corruption

Senator John L. McClellan, chief labor prober and Senatorial advocate of a national "right to slave" law, clamored against union corruption before the Arkansas Chamber of Commerce in 'Little Rock, Nov. 20. "There is a grave danger that in a few years our cherished free enterprise system will be supplanted by a racketeering, dictatorial-controlled gangsterism economy, unless some present trends can be reversed and a clean-up operation performed by corrective legislation," he said.

What McClellan is saying is that corruption in American society originates in the labor movement and that the unions are on the verge of corrupting his "cherished free enterprise system." The truth is exactly the opposite. Corruption stems from the capitalist class.

For instance, what crooked union boss or corrupt labor official could thrive if the employers didn't favor him? Business makes an extra margin of profit when workers' demands can be sold out by venal union officials.

Again, in making the "free enterprise" system work without too much scandal. all kinds of restraints have to be placed on the individual capitalists. The government has a Pure Food and Drug Act and special inspection agents to enforce it. Even so, there are plenty of unhealthy

foods and inferior drugs on the market. Then, all kinds of restraints must be applied to advertisers to prevent the more tion came into existence - counflagrant lies used to bamboozle consum- cils of working men, or soviets, ers. Even so, one has only to spend a few to give them their Russian name. hours with a television or radio set to

olithic unity" in the soviets. Only the caricature remained.

#### HUNGARIAN EVENTS

Today we still talk and write of the Union of Soviet Socialist Republics even though the traditional forms of soviet rule have long disappeared. Recent events in Hungary once again demonstrated that in a revolutionary situation the working class intuitively throws up workers' councils as instruments of struggle and for wielding power after victory.

The soviet form of government is, so far, the only one which has proved capable of abolishing capitalism and laying the foundations of a socialist society.

Half a century of parliamentary socialism in Scandinavia has left capitalism practically intact, in Russia at the end of the civil complete with monarchy and the war this was impossible. Within rule of finance-capital. Within a week of the establishment of soviet power, capitalism disappeared from the Russian scene, never to return. These historic

## Noted Educator Tells Militant Why He Risked Jail to Defy House Committee

NEW YORK, Nov. 25 - This afternoon I sat with Dr. Otto Mathan in his study discussing the victory that he has just scored for civil liberties — the reversal last Friday of his conviction for contempt of Congress, a conviction that might have car-

ried a one-year prisono term with it.

Every available inch of space n his study is crammed from loor to ceiling with well worn books. On the wall over his desk is a photograph of the late Albert Einstein. Otto Nathan was his close friend and is the executor of his estate. He is a noted professor of economics who has taught in the major universities here and abroad. Seated in his study, a soft-spoken, courteous man, he seems to fit completely the tra-

ditional picture of the scholar. But Otto Nathan is as much a courageous man of action as he is a man of ideas. This became quickly apparent as he explained why and how he deliberately risked imprisonment to defy the witch-hunting House Un-American Activities Commit-

same Judge Curran who was compelled to reverse his deci-

sion last week. Curran "reluctantly" granted motion for acquittal on the basis of the Supreme Court decision of last June in the Watkins case which, he conceded, would apply in Dr. Nathan's case Watkins, a UAW organizer, had also been convicted of contempt of Congress after invoking the First Amendment against the House Committee. The high court ruled he had not been properly advised by the committee as to the purpose of its investigation and the pertinency of the questions he had refused

to answer. Bitterly assailing the Supreme Court stand, Judge Curran branded it "wrong" and "false" and declared he was directing questions Dr. Nathan refused to the acquittal of Dr. Nathan only reply on the grounds that they because "I cannot substitute my judgment for that of the Su-

Returning to the hearing itforded a limited measure of protection to First - Amendment witnesses at Congressional committee hearings, it upheld the penalizing of such witnesses at that time.
