There is no more persistent and progressive sentiment in the United States than its organization into a trade union of labor. The recently published Gallup poll figures, showing that 71 per cent of the American public favor union of labor for this purpose, are in favor of unity, merely attest to a fast growing recognition by anyone with the slightest knowledge of the labor movement. An organization of labor, we need to understand, is a national one, and depends upon a national unity, and national solidarity that is essential to the growth and wide spread of the AFL and CIO, what has presented unity up to now?

The chief obstacle to unity has been the refusal of the AFL, which has been the leading organization of labor in the United States, to recognize the right of the CIO, which has been the outstanding organization for trade union activity in this country, to join in the unity of labor in this country.

In addition, the AFL Union and its affiliates actually look with fear at the prospect of the mass workers production workers joining the new organization. If AFL ranks, particularly in those skilled positions which are currently in the United States labor movement, and which are the most important, will be forced to join the AFL, the new organization is bound to fail.

Granting that labor was motivated by personal considerations, nevertheless, at that time did he believe the progressive plans of the mass workers production workers organization difficult to achieve? After all, the AFL, as the major force in the labor movement, has always been more concerned with the maintenance of its own position to the detriment of the future industrial unionism.
Goldman Analyzes Real Aim Of the Prosecution

The Committee of 96 perceived its red motives in the fight against the leadership of 544 by claiming to fight for the rights of the truck drivers. Since January, 1938 when the party was organized, we have had a long and bloody struggle. Our pamphlets, our speeches, our picketing, our court cases, have been aimed at discrediting the government and proving its iniquity. We believe that we have proved beyond a reasonable doubt that the government has no intention of defending the people, that it is a tool of the capitalist class that is ready to strike against the people at any moment when its interests demand such action.

We proclaim that men are born equal but it can be said that they are equal in freedom of speech and freedom of the press. When a man is accused of crime and is to be tried, he has the right to defend himself, no matter what the crime is. If the crime is murder, the defendant has the right to defend himself. If the crime is crime against society, the defendant has the right to defend himself. If the crime is crime against the state, the defendant has the right to defend himself. If the crime is crime against the people, the defendant has the right to defend himself. If the crime is crime against the church, the defendant has the right to defend himself. If the crime is crime against the government, the defendant has the right to defend himself. If the crime is crime against the people, the defendant has the right to defend himself.

We are convinced of the innocence of the defendants, and we are convinced of the guilt of the government. We believe that the government has no intention of defending the people, that it is a tool of the capitalist class that is ready to strike against the people at any moment when its interests demand such action. We believe that the government has no intention of defending the people, that it is a tool of the capitalist class that is ready to strike against the people at any moment when its interests demand such action. We believe that the government has no intention of defending the people, that it is a tool of the capitalist class that is ready to strike against the people at any moment when its interests demand such action. The Militant

The Alexandria " Riot"

The Jim Crow movement of Negro soldiers in Southern training camps led to open race riots last week in Alexandria, Louisiana. Even some of the younger and more zealous Negroes turned to mob violence. Intense fear, overheated tempers and a lack of leadership led to several deaths, faced beatings, segregation, and on a bridge over the river, the lynching of an ex-army man. All helpful and peaceful voices were hushed by the flood of angry voices.

The report of the NAACP's Southern Regional Office for Mississippi states: "The rioting in Alexandria last week was a reflection of the growing bitterness of the Negro race, in particular, and the white race, in general, over the situa tion of the Negro in the state and nation. "

Negro Struggle

By Ernest Williams

What NAVY CONTRACTS GIVE "Staggering Profits"

"It's not hard for us, we can afford it!" was the response made by the Bremen shipyard to an order for a ship. That ship was a 24,000-ton Liberty ship. The Liberty ship is a cargo ship used to carry war supplies across the Atlantic Ocean. It is a very large ship, capable of carrying thousands of tons of cargo at once. The shipyard was able to earn a large profit on this contract because they were able to build the ship at a lower cost than their competitors. The shipyard was able to do this by using new technologies and by improving their manufacturing processes.

The shipyard was also able to earn a profit on this contract because it was able to sell the ship to the government at a higher price than it cost to build it. The government was willing to pay a higher price for the ship because it was essential for the war effort. The shipyard was able to earn a profit on this contract because it was able to sell the ship to the government at a higher price than it cost to build it. The government was willing to pay a higher price for the ship because it was essential for the war effort.

The government was willing to pay a higher price for the ship because it was essential for the war effort.
JOIN US IN FIGHTING FOR:
1. Military training of workers, financed by the government, but under control of trade unions.
2. Compulsory military training camps, financed by the government, under the control of the trade unions, to train workers to become soldiers.
3. Trade union wages for all workers drafted into the army.
4. Complete control of the armed forces and the war industries—Down with Jim Crow everywhere.
5. Confrontation of all war profits. Expropriation of all imperialist war plants under the direction of the trade unions.
6. Workers Defense Defense against vigilantes. The CIO auto and painters. This is but one example among many of the principle which have long barred the way to a nation—indicates that they have changed their policy.
7. Trade union wages for all workers in the top councils of the AFL.
8. In the Ramzin Trial, the engineers-defendants "confessed" that there was a "close tie with the British". The French court had to find that the link was "interpretaiton"—that it meant "orientation". The boss press would have us believe that shipbuilding in WWI meant the destruction of all the small plants to satisfy Bethlehem Steel and the buyers of the War Department. The bosses would have us accept the notion that the war production program created all the blunders of the big-bosses—bathes-themselves—who didn't have the vaguest idea that they were spending millions on material shortages, that the auto plants couldn't make the goods.

As we see to it that the army procurement of 1940-1943 did not bar the road. A big business in the present AFL Executive Council, as did to reestablish a normal life, this has to he achieved at the expense of the
—excepting our own minor unions, of course.

What is the situation affecting them.
