WAR PROFITEERS SEEK TO SMASH PRICE CONTROLS

By Henry Jordan

A big wave of parish hearings has traveled across the United States and is rapidly reaching the final legs. They could not "surmount" the OPA, says the meat packers, nor "undermine" the controls. They say they have a free hand to boost prices of their products. They go on to explain that the OPA has "inconsistencies" in its regulations that they can use to their advantage. They also mention that the OPA has been "shaped" by the "financial interests" of the meat packers.

DETROIT STRIKERS FIGHT MASS MIRING OF UNION LEADERS

By Jerry Kirk

Detroit's mass morbidity of union leaders is to be expected in view of the continued growth of the packing companies. The packing companies have a long history of anti-union activity and have been known to use various tactics to suppress unionization efforts. The strike is part of a larger movement by workers to organise and improve their working conditions.

In only four weeks a member of the Socialist Workers Party has planned "The Militant" into the middle of the 10,000-circulation comics field. In four weeks they have almost reached the 4,500-subscription mark in their first subscription drive, and they are getting 200 new readers. This high percentage of over 500 new subscriptions a week is an achievement only the largest papers can be proud of.

Henry Bill, Trotsky Youth Group Campaign Director: "The Trotsky Youth Group in New York City is trying to increase the number of young people writing to the Young Socialist League to get information about the youth single-strike campaign of the Militant Sunday newspaper. We are setting up a network of local youth groups in order to increase the number of youth subscribing to The Militant. In the last week alone, we have had over 100 subscriptions. The Militant is the only youth paper that is militant, independent, and democratic. It is our goal to have the Trotskyist Youth throughout the country well mobilized this Sunday so I expect to have many more next week."

Marx Hailed Paris Commune

By Ruth Johnson

Seventy-four years ago, in 1871, the people of Paris established the first workers' state in history—the immortal Commune. The workers took control of their city. They ended the rich men's government. They established the Council of Forty for the Thrice Republic of France.

But the French资产阶级 government grabbed power at the head. He signed a treaty of neutrality with the Commune—against the advice of Versailles and the London powers. He conspired to create the Commune's murder and disband the Workers' and Farmers' government.

COMMUNE'S ACHIEVEMENTS

The Paris Commune, fighting for its very existence, saw to it that each worker had his living wage. It established a large medical service. It provided free education. It has not been possible to glorify the achievements of the workers and the farmers which workers had been promised by the Workers' and Farmers' government. There have been no conditions in the workers' and farmers' party which were not abolished in the face of the most serious obstacles.

The Commune issued a decree demanding the return to the workers all factories abandoned by their masters. It established a new democratic right to the factories upon which we and our families, the returning workers, and the women, the men, the women, and the children are entitled to live. Abolition poverty and wolf! Fight for a Jacobin state where they won't your police on exploitive capitalist state

They are the only thing to open these open factories and return to us the workers' estates.

Let Us Fight for a Socialist Program

Against the darkness and the hopelessness, held up by capitalist party, the Jacobin Workers' party, after the bourgeois revolution, a socialist revolution —a real revolution to the genuine people—life that best suits us.

I invite you, the workers of Los Angeles, to join me and the party in the fight for a better world. I started, and if I win, I will continue to work and fight for a socialist revolution. We are fighting for the destruction of the capitalist state, not for the destruction of capitalism. We are fighting for the destruction of the capitalist state, not for the destruction of capitalism. We are fighting for the destruction of the capitalist state, not for the destruction of capitalism.

HERALDS NEW SOCIETY

The Jacobin Workers' party, established a new democratic right to the workers' estates and served at will the new state's wage. The state is the pattern upon which the Jacobins were building during the Revolution of 1871.

This Jacobin state is to be a state where the working class, organized by the Commune of 1871, will have the power of the state. It is the state of the Jacobins. It is the state of the Jacobins. It is the state of the Jacobins.

Trotskist Marx had this great state of the working class who are better off to the rich and poor. The Jacobins are the working class. The Jacobins are the working class. The Jacobins are the working class.

The Jacobins are the working class.

The Jacobins are the working class.
What Miners Are Fighting To Win

By Evelyn Abraham

The industrial coal miners are correctly again to renew the fight against the greedy mine owners. The miners fight for wages and fight for long hours in the dark, dangerous and dirty mines. They are fighting against the exploitive and oppressive conditions and practices that result in their unemployment. They are fighting against the exploitation of their bodies and souls.

The miners are fighting for the right to live as human beings. They are fighting for the right to work in safety and security. They are fighting for the right to freely express their opinions and to be heard by the people. They are fighting for the right to organize and bargain collectively through representatives of their own choosing.

The miners are fighting for the right to control their own destiny. They are fighting for the right to elect their own leaders and to have the final say in how their wages and working conditions are determined.

The miners are fighting for a just and fair society. They are fighting for a society in which all people are treated with dignity and respect. They are fighting for a society in which all people have the opportunity to live in peace and prosperity.

The miners are fighting for the right to live free of fear and oppression. They are fighting for the right to live in a world where all people are treated with equal respect and dignity.

The miners are fighting for the right to be heard. They are fighting for the right to have their voices heard in decisions that affect their lives. They are fighting for the right to participate in the decisions that affect their lives.

The miners are fighting for a better future. They are fighting for a future in which all people have the opportunity to live in peace and prosperity. They are fighting for a future in which all people are treated with dignity and respect.
1. Military training of workers, financed by the government, will ensure the preparation of a reserve labor force that can be used for any emergency. This is an important duty of every class-conscious worker.

2. Trade union trade for all workers drafted into the army.

3. Full equality for Negroes in the armed forces will be achieved when the Allied trade union officials who are preparing for the next war will not demand any Allied army for the Negroes. It is time for the American people to demand the right to vote for all Negroes in the United States.

4. Imperialism under the most terrible conditions of war will be fought by the American people. This means that the workers must fight in the shops and the streets, and that the capitalists must be put in their place.

5. The world proletariat, against every class-conscious worker, must fight for the independence of the union by rescinding the no-strike pledge, withdrawing the union from the Trades Union Council, and organizing the workers in the various unions in the country which tells the workers to fight against their enemies.

6. The militants in the various unions are fighting against every class-conscious worker. They are fighting against the UAW militants. This is the Main Task.

7. The World Strike will be followed by the world proletariat, against every class-conscious worker, by the formation of new unions in the country which tells the workers to fight against their enemies.

8. The Main Task is to organize the workers in the country which tells the workers to fight against their enemies.
