French Trotskyist Party To Run Candidates For Parliament From Seventeen Key Sections

PARIS, Oct. 26 — The French Communist Party, French section of the Fourth International, PCI, enters the November 10 elections with a vote of 170,000 members and in a greater area of territory than it had in July 1936. The PCI, which was in the anti-Stalinist camp in 1938, has now developed into a Trotskyist organization. Purr of the PCI in France, including Stassino, lead the PCI.

Red-Scare Drive Condemned By Buffalo Unions

Workers in 13 CIO plants are fighting back against red-baiting by building a strong resolution against the “Clubs for True Americanism.” Buffalo Local 1, which conducts a drive against the American Anti-Communist Labor Federation, has been very active. The resolution, drafted by Big Benjamin, has been passed by all local unions. It asks for an end to red bashing in all sections of the state. We urge you to get copies of this resolution and to send them to all your friends and neighbors.

More Signs Of Contraction

With the November elections in sight it is impossible to avoid the fact that the economy is contracting. The three-city closure of the steel mills has been announced. The latest issue of the union bulletin, “The Voice of Labor,” indicates that more steelworkers are going out of work. The heat of the campaign is not helping to change the situation. The union leaders are fighting to hold on to what they have, and the workers are fighting for a better deal.

PCN leaders urge the workers to stay united and to fight for better wages and working conditions. The union must stand up against the bosses and the reactionaries. We urge you to get copies of this resolution and to send them to all your friends and neighbors.

PCI In Freedom League

PCI leaders are working in the Freedom League, a new organization of progressive labor leaders. The PCI is contributing to the league’s fund drive and is actively involved in the league’s activities. The PCI is committed to fighting for a better society and a better world.

The Biggest Campaign In History Of New York SWP

By George Clarke

The New York Socialists of the Workers' Party have launched an intensive campaign to build the SWP in the New York City area. This campaign is one of the largest ever mounted by the SWP in New York City. It will last for a period of several months and will involve all SWP members and sympathizers in the area.

The campaign is based on the SWP's program of organizing the workers and the masses of people in the struggle for social and economic justice. The SWP's program is based on the belief that only a socialist revolution can solve the problems of society.

In addition to the SWP's program, the campaign will also focus on the SWP's recent achievements and successes. The SWP has been successful in organizing workers in a number of industries, and has also been active in the struggle against the capitalist courts.

The campaign will be conducted through a variety of means, including meetings, speeches, and leafleting. Members and sympathizers of the SWP will be encouraged to take part in the campaign.

The SWP hopes that this campaign will help to build the SWP in New York City and to achieve its goals of organizing the workers and the masses of people.

The SWP thanks all those who have supported its work in the past, and looks forward to the support of all those who will participate in this campaign.

The SWP is committed to the struggle for social and economic justice, and will continue to fight for a socialist world.
