Cominform Rages As Yugoslavs Welcome Visitors

The Kremlin has been thrown into a frenzy by the Tito-Stalinist rupture. This is not just a question of squabbling among free labor leaders, but a dispute which affects the whole international labor movement.

The Communists have been making every effort to create a split between the Socialists and the Cominform. They are using all sorts of cheap tricks to divide the Socialists and Cominform leaders. As a result, this rift will undoubtedly be exploited by the Cominform in its efforts to further its own political aims.

**YPAS Supporters Rogge Meeting On Yugoslavia**

**New York, June 15 —** To bring to the public the record of the MEETING call of the national committee to initiate the formation of the Communist Party National Committee, I attended a meeting called by the national committee to initiate the formation of the Communist Party National Committee, on Friday night at the MEETING Hall of the MEETING Club of the Young Progressives of America.

The meeting was addressed by Mr. Rogge, who spoke on the importance of the formation of the Communist Party National Committee. He emphasized the need for a united front of all pro-democratic forces in America, and urged the supporters of the Cominform to join forces with other pro-democratic organizations.

Mr. Rogge's speech was well received, and the meeting was concluded with the adoption of a resolution calling for the formation of the Communist Party National Committee.

The Guild has 400 members in the New York City area. The guild is composed of skilled workers who are employed in the printing industry. The guild has a strong tradition of fighting for worker's rights and improving working conditions.

In the past, the guild has successfully negotiated contracts that have led to increased wages, improved job security, and better working conditions. The guild has also been successful in organizing workers and gaining recognition for their efforts.

The guild is currently negotiating a new contract with the company. The company is resisting the guild's demands, and the guild has threatened to strike if a fair contract is not reached.

Tragedy and Tragi-Comedy in Stalinist Hungary

By Ernest Germain

Some weeks ago a Hungarian Socialist Party member, the 70-year-old Mrs. Szabad Nep, died in a hospital in Budapest. She was a well-known trade union leader and worker who had fought against the Nazis and the Stalinist occupants of Hungary during World War II. Although she was a member of the Social Democratic Party, which after World War II was incorporated into the Hungarian Communist Party, Mrs. Szabad Nep was an outspoken critic of the Stalinist regime and a leading figure in the Independent Labor Party, a small opposition group that was expelled from the Social Democratic Party in 1949.

The Soviet Union took over Hungary in 1944 and installed a Communist government. However, the new regime was not friendly to the Social Democrats and their leader, Arpad Szakasits. The Social Democrats were forced to denounce their commitment to democracy and socialism and to accept the authority of the Communist Party. Mrs. Szabad Nep, who had been a member of the Social Democratic Party since the 1920s, refused to accept these conditions and continued to work for the independence of the Hungarian working class.

In 1949, the Independent Labor Party was expelled from the Social Democratic Party and members of the party were arrested or exiled. Mrs. Szabad Nep was one of those arrested and sent to a prison camp. She was released in 1953, after a few months of imprisonment, but her life was marked by continual harassment and persecution by the Stalinist authorities.

In 1956, when the Hungarian working class rose up against the Soviet occupation forces, Mrs. Szabad Nep was one of the leaders of the independent workers' movement. She played a key role in organizing workers' councils and in fighting for the establishment of a genuine workers' government. However, the Soviet forces quickly crushed the uprising and restored the regime of Stalinism.

Mrs. Szabad Nep spent the last years of her life in prison, where she was subjected to brutal treatment and torture. She was finally released in 1958, but her health had been severely impaired by the years of imprisonment.

Mrs. Szabad Nep was a symbol of the struggle of the Hungarian working class against the Stalinist occupation forces and for the freedom of Hungary. Her death was a tragic reminder of the suffering and sacrifice that the Hungarian working class was forced to endure during the era of Stalinism.

This article was written by Ernest Germain, a member of the International Union of Socialist Trade Unions and a trade union leader in Hungary.

Yugoslavia Today

1: The Heritage of Backwardness

The author recently visited Yugoslavia as a representative of the U.S. Information Agency.
The center of attention today in the world working-class movement is the struggle against the renewal of capitalism in Eastern Europe, particularly in the countries of East Europe, it is clear that the nostalgic dreams of those who believe in the possibility of the rollback of the revolution have been shattered. The world is now under attack by those who would like to use the recent events in Eastern Europe as an opportunity to launch a new wave of colonialism and neo-colonialism. The result of this attack is still very remote.

That means that there is a different pattern of social forces, and therefore also a different strategy. The struggle against the renewal of capitalism is now becoming a battle against the forces of imperialism.

It is not only the V. Stalinist party leaders and its supporters who are fighting the representatives of the imperialists, but also the workers of the world, who are fighting against the renewal of capitalism in their own countries.

Toledo, June 19 — The formal fight in the Toledo UAW Hall was over two days ago, but the government's victory will be celebrated by some UAW leaders for another week. The strike was settled last Tuesday night by the board. The judge, Judge John P. Gray, has been suspended pending a hearing before the board; the girls have been ordered back to their jobs. The strike was called to protest against the local's "management's practice of bringing working girls into the building on Saturdays and Sunday nights to do work on the shop floor."
