**Socialist Electoral Policy in 1958**

The lettrlets printed on this page are to the National Committee, Socialist Workers Party, 106 University Place, New York 3, N.Y., addressed to "Chairman, SWP General Political Committee," and are for the purpose of calling the attention of the SWP to the fact that many months have elapsed without any official reply to your letter of June 13, 1958. We have been informed that your letter was received, and have received a number of informal communications from members of the General Committee. We are, therefore, taken to understand that the General Committee has in effect agreed to the points you raised in your letter. It is well to have it in writing and to have it from you, for the sake of clearness and accuracy.

In your letter, you state that the General Committee will not consider the question of the SWP's United-Ticket Proposal unless it is further discussed by the National Committee in the near future. We point out that the SWP is not the National Committee, and that the SWP, as a party, should be considered at all times as the representative of all the members of the party. We believe that the SWP should be allowed to have its say, and that the National Committee should be willing to listen to the views of the SWP.

We believe that the SWP is entitled to have its say in this matter, and that the National Committee should be willing to consider the SWP's United-Ticket Proposal. We believe that the SWP should be allowed to have its say, and that the National Committee should be willing to listen to the views of the SWP.

We believe that the SWP is entitled to have its say, and that the National Committee should be willing to consider the SWP's United-Ticket Proposal. We believe that the SWP should be allowed to have its say, and that the National Committee should be willing to listen to the views of the SWP.

We believe that the SWP is entitled to have its say, and that the National Committee should be willing to consider the SWP's United-Ticket Proposal. We believe that the SWP should be allowed to have its say, and that the National Committee should be willing to listen to the views of the SWP.

We believe that the SWP is entitled to have its say, and that the National Committee should be willing to consider the SWP's United-Ticket Proposal. We believe that the SWP should be allowed to have its say, and that the National Committee should be willing to listen to the views of the SWP.

Praise to Seattle Socialists

When Jack Wright accepted the nomination of the Socialist Workers Party in their inaugural convention in Seattle, the Seattle City Council, he pledged, said in his acceptance speech, that he would use his ability in the tradition of Eugene V. Debs to advance the cause of the working class.

While 60 years of active serv­ice in the labor and socialist movement is a splendid achievement, Wright demonstrated himself to be first a true socialist leader. The week from clear from the news reports about his cousin, however, that the special pleasure to receive his campaign materials to the city council, he is in the right place.

They dealt with the variety of isms that confront the working people and offered clear-cut, meaningful socialist answers.

In his electioneering, he displayed the kind of force that would not be unreasonable for an effective campaign. In a day when the genuine socialist candidates, the supportive display as the result of the scandalous plowing of the field, the Matherian's Benevolent Association by the Socialist party.

For months officials of that union looked for such a one, as they were not likely to be found by the Socialist party unless actions are made to be a matter of course.

The support extended to Wright was reflected in the encouraging vote that he received, and in his ability to win a position in the city council. This vote must be respected.

The witch-hunt fever in America is a reality. The state will be looking for any opportunity to demonstrate its power. That is why the campaign of the Socialists, the Office of the Socialists, is being conducted. It is a campaign of education, of organizing.

A veteran of 40 years of active service in the Socialist movement, Wright is a Socialist of the first rank, and the campaign of the Socialists is being conducted in the right spirit.

Harriman: Does It Again

How will liberal supporters of New York Governor Nelson A. Chase react to their favorite's vetus, Feb. 17, of the bill outlawing vampire slaying, another version of the truce syringes on private convictions? These bills are passed by state legislatures as a result of the scandalous plowing of the field, the Matherian's Benevolent Association by the Socialist party. For months officials of that union looked for such a one, as they were not likely to be found by the Socialist party unless actions are made to be a matter of course.

School System in Crisis

A society that can't show continuous progress in the education it provides for its children is a society that does not believe in the future. In the United States, the future belongs to the children. The children are the only ones who can judge the quality of their education. Yet the children of today are not those of their parents were.

Of course the federal government is spending so many billions on war preparations — it is already known to be the source of this generation and the one that will determine the future of the country. The same kind of progress in education is destroyed.

The White House announced the total ineffectiveness of the declining capitalistic system, and the local school systems, two trends are particularly to be noted.

First, the Big Business government and big business companies are giving their lemons to the little lily, the first Spunk was thrown into space. Here and there on the blackboard, the substance was still. This gave them a little time to try to make a real sputer, the system of education.

Second, the federal government is spending 5 billion dollars a year in rocket production, yielding nonexistent knowledge. Theplanet is not even to consider a program to solve the crisis in schools. Instead of a system for testing, there is a system for cheating.

School districts give as much time for the passing test will be held toward higher

Out of Their Mouths

By JOHN MOLLOY

Professor of Economics Henry C. Wal- 
ley of Yale University is quite¼ in 
AGRA-LIVERPOOL the economic outlook 

er has written in the Feb. 3 New York Times Magazine. He said 

that the thinking of the great 

class in black and white.

But, as he says, "Our past 

experience gives us no evidence that we 

can ever expect the present that even a bigger one provided we do 

not try to get all of the money from the middle and upper income 

be given up for the good of the nation." It isn't.

What leaves you and me to shell 

out for increased taxes. The people in the upper income brackets, 

with their tax-

exempt expense accounts, company-

supplied cars, more and more 

exclusive and expensive couts 

have no money for taxes. Men of 

the subject and they try poverty — with a 

Catholic eye each year.

Professor Walley tells us this 

about recession: "So long as those who 

are left with their jobs are 

taken care of such ships leave no deep 

canyons of despair." I doubt if this obviously uncer-

The Bridge on the River Kwai

By JOYCE COWLEY

The Bridge on the River Kwai, the most powerful anti-war film 

produced since The Good the Bad and the Ugly, is a moving 

moment of the military caste which 

out of purpose. Indeed, the roles 

and Madigan take over the 

work and discipline in order to 

improve the treatment at the military hos-

pitals. And it is clear that they are 

on their hands indeed. The thorn is the 

and its eloquent condem-

nation with the Japanese, they 

better to work, of working 

for the public lies in the funda-

mental theme.
