Kennedy Defeats Appeal by Mississippi Negroes

By Harry Ring

OCT. 17 — An Associated Press wirephoto today gave the world a peep at the peaceful police violence in Mississippi. Students had captured the Negro state fair in Jackson against the practice of holding separate, segregated fairs. The police used dogs to run them off the field.

Five days earlier a photo from McComb, Miss., showed local racist brutality beating a young white woman who had come to ob­serve a Negro student protest ac­tion taking place there.

By Pigo to Capital

On Oct. 12 Mississippi NAACP leaders wired President Ken­dedy and his brother, the attorney general, urging them to “look at the police violence in Mississippi.” As of this writing, they had been only silente from the two men who might stop the atomic holocaust to preserve “freedom” — in Berlin.

High school students in McComb have been conducting a heroic struggle over the long weekend. On Aug. 27 and 28 they staged lunch­counter sit-ins, marched on the police headquarters, and at the bus terminal demand­ed to be served.

Five were arrested for “breach of peace,” fined $400 and sentenced to eight months in prison. They were finally released pending appeal but with the threat of $2,000 bond.

The fiftieth, 15-year-old Brenda Davis, was over­turned over to the juvenile court which did not act immediately.

On Oct. 4, the five returned to high school where they were re­sented by the students. In protest, 116 students marched on City Hall. The police, who were chided by a white man and a woman in the crowd, arrested 116 were arrested. Nineteen of the demonstrators, who were charged with “breach of the peace” and “contributing to the delinquency of minors.”

Teen-Ager Jailed

Brenda Travis was rearrested and jailed for 30 days in the re­formatory. This has created deep shock among the students. Several have been arrested in the same, but they have not been charged.

American will be sentenced.

But obviously not concerned enough to do anything to protect the Negroes from a murderous gang of racist officials.

Ecuador Workers Continue General Strike in 2 Areas

QUITO, Ecuador, Oct. 6 — Although the nationwide one-day strike began early yesterday, a day before it was supposed to end, it was still going today in two areas: Tulcán and Ibarra. In Tulcán, 200 people barricaded the main road to the city government.

In Ibarra, some 150 persons gathered near the city government. They blocked the road to the Chamber of Commerce and to the police station. They demanded that all the prisoners be released at once and that the police be con­fined to their headquarters. The police were dispatched elsewhere and the police station was left unattended. The police released a number of prisoners.

Early yesterday morning an emergency meeting was held at the police station. They demanded that all the prisoners be released at once and that the police be confined to their headquarters. The police were dispatched elsewhere and the police station was left unattended. The police released a number of prisoners.

According to the mayor of Tul­cán, the one-day strike passed without incident until late in the evening. About 10 p.m. a crowd gathered in the government building.

Police threw tear-gas bombs and fired their rifles. Two people were killed, one of them a woman belonging to the same family. The police made a number of ar­rests.

The police for their turn, gas­tons and fired their rifles. Two people were killed, one of them a woman belonging to the same family. The police made a number of ar­rests.

According to one newspaper re­port, a crowd invaded the Office of security, threw furniture and records into the street and burned them. At night they invaded a government warehouse and seized the entire store of rice, sugar, salt, flour and meat divided in the biggest hall of the administration. The mayor, the president of the prov­ince, the mayor of the city, the re­publican unions, agricultural cooper­atives, cultural and sport organ­izations.

This body passed a number of resolutions, demanding the main one being to extend the strike until the special session of the national govern­ment is rescinded. The assembly invited the national legis­lature to send a delegation to hear the views of the people of Tul­cán.

The assembly also declared that the police are “agents of a very conservative or even totalitarian state” and “essentially civic, paternalistic and disciplined.”

Solid Shaders

The union was voted that not a single store, public building, or police station open. No vehicles were moving.

San Gabriel and El Angel, two other streets in the province of Carcit, joined Tulcán in prolong­ing the strike.

The Velocar Ibarra govern­ment characterized the movement as an “outrageous and unfounded” and that the strikers would be “unified in the struggle for peace and the defense of their families.”

Government officials blamed the Confederación de Trabajadores del Ecuador for “instigating” the dis­orders. The CTE denounced the violence of the strikers and urged the crowds with tear gas and rifles.

Police said the arrests were eloquent testimony to the ex­plusive social situation in Ecuador.

The strikes have been called by the Confederación de Trabajadores del Ecuador, the main labor federation in the country. The strike is expected to continue until the special session of the national government.

Security for Mrs. Mallory

NEW YORK — The Fair Play for Cuba Committee called on Mrs. Mallory, originally from Monroe, N.C., now jailed in Monroe, N.Y., to cooperate with the FBI on its investigation of her as a “dangerous” and said she should be retained to defend Mrs. Mal­lory. Mrs. Mallory, however, said she had several times refused to waive extra­judicial procedures.

"Solidarity," the official paper of the KKK, has been granted a new attack would bring.

"Freedom" — in Berlin.

By Harry Ring

OCT. 17 — A fourth victim of the "breach of the peace" — "kid­nap” frame-up has been arrested. FBI agents on Oct. 12 arrested Willie Mae Mallory in a private home in Monroe, N.C. The police had maintained a “stake­out” operation and then claimed the普查c woman was taken without a struggle though the FBI wanted circulars had listed and described her as “dangerous” and said she had been known to carry a pistol.

The leaders of the Committee to Aid the Monroe Depend­ents started action into the mo­tion of the case, according to a local attorney, Richard L. Gunn, who was retained to defend Mrs. Mal­lory. At a hearing the next day before U.S. Commissioner R. A. Horn, she refused to waive ex­tradition to North Carolina. Ball was set at $750 which the committee was able to raise.

A second hearing before U.S. Commissioner Horn is scheduled for Oct. 27 by which time a war­rant for Mrs. Mallory’s arrest is expected to have arrived. At that time Counsel of the Civil Rights Division (C.I.R.D.), will go to Cleveland to participat­e in Mrs. Mallory’s defense.

Mrs. Mallory, originally from Monroe, Ga., has been a resident of New York City for some time. Her nine-year-old son, who is a min­or, lives with her. There. Well known as a militant fighter for civil rights, she is a friend of Robert F. Williams, the Negro Negro leader who, after picking up the FBI on the same "kid­nap” frame-up, has been granted political asylum in Cuba. A sup­porter of Mrs. Williams’ newsletter, The Crusader, she had several times gone to Monroe to assist Mrs. Williams.

She was there during the Ku Klux Klan invasion of Monroe, Aug. 25. According to the FBI, Mrs. Mallory was a "friend of Robert F. Williams,” the Negro Negro leader who, after picking up the FBI on the same "kid­nap” frame-up, has been granted political asylum in Cuba.

Report from Havana

William Forey, correspondent for the Associated Press in Cuba, when Williams arrived there, was able to interview the North Carolina civil rights fighter and attended his press conference.

Describing the Cuban attitude toward Mrs. Mallory, Forey wrote: "Currently awaiting a second in­cident in this dispute, the Cubans say that the Yankees will have to send rockets to get Williams back. They think they have already lick the revolution to the biggest and most serious blow it has clearly begun in the United States in the Kennedy administration.

From the press conference Forey reported the following: (Oct. 14) Mrs. Mallory, who came to Monroe is his friends, Mr. Williams said, despite the fact that he is not a pacifist and doesn’t believe in nonviolence, but believes in "conscienceless white racists." He appealed for worldwide support of Freedom Rider John Lowery of New York, now jailed in Monroe (N.C.). Mr. Williams said that the white Citizen’s Council was sitting on the porch of the house next door to his (Williams) house and that the Stegall couple was stopped by Mrs. Mallory last year and that her husband was repeatedly arrested in Monroe for six years in prison because he moved the Stegalls to the car the night of her "stand-in at the middle of the street."
Gain New Backing For 2 Deportees

PORTLAND, Ore. — Former governor Charles A. Spaegte and city councilman Lawrence Eird are among 660 Orientals who have personally signed petitions to pass Senate bills asking for the return of Haimur MacKay and William Williams, who were deported last year.

Bill introduced by Senator Warren Morse of Oregon last January and passed by the Senate last year. MacKay was deported to Canada after an immigration judge ruled that he had lived here for more than 20 years. Morse believes that the 660 Orientals who have signed the bill show their understanding of the necessity to fight for immigration rights.

The bill calls for the reinstatement of the citizenship of those who have lived here for 10 years or more. It is hoped that the bill will be passed by the House of Representatives in the near future.

L. Integration Group States Community Party

LAKEVIEW, N.Y. — Neighbors in the Lakeview area of New York City are pleased with the recent decision by the New York City Council to establish an Integration Group States Community Party. This group, which has offices at 1014 S.W. Second St., Portland, Oregon, is working to promote the integration of all communities across the United States.

The group believes that the integration of communities is essential for the advancement of all people, and that it is the responsibility of each community to work towards this goal. They are committed to fighting discrimination and working towards a more just and equal society for all.

The following editorial on Kennedy is based on preventing the crisis in Latin America the growth of population, and raw materials which the Unit­ated Nations.

This phenomenon continues. The need for $5 billion annually which our area requires in order to maintain the standard of living (not to increase it appreciably) in face of the growth of our population. Let us recall that Fidel Castro posed at the meeting of "The 21" in 1959 that the world trade need for $30 billion in invest­ment set — a single one of these articles — is equal to an entire year's wages of a Latin-American worker in the United States.

The inadequacy of the remedy, moreover, reflects the crisis in the world economy and the growth of a Latin-American States, an army of unemployment. It is for the people without jobs. Kennedy himself is aware of this. He has said that he is concerned with the problem of unemployment. The crisis is reflected in the world economy and in the world depression, a deficit in the balance of trade of more than $3 billion, for example, in the United States in 1961. These figures show the crisis of the Latin-American States, and the need for $5 billion annually.

The world spends $30 billion in arms and military expenses while the same countries are suffering from a lack of food, nutrition, culture and science through ENDECO with only 30% of the money. As if one were to give 300,000,000 of the population of the world and agricultural surplus of the United States to the Latin-American States.

Support the Fair Play Committee

The nation's chief secret policeman, J. Edgar Hoover, has openly joined the smear attack against the Fair Play for Cuba Committee by boasting that the Committee is "heavily infiltrated" by the Communist movement. In his annual report to the Attorney General, Hoover falsely-asserts that the Castro regime has created new "domestic intelligence problems" for the U.S. In typical McCarthyite fashion, he seeks to bolster this claim by simply pointing to the fact that the FBI had ordered the FPCC to so register. This the committee correctly refused to do.

Echoing the Eastland-Dodd Committee's red-baiting attack on FPCC, Hoover falsely-asserts that the Castro regime has created new "domestic intelligence problems" for the U.S. In typical McCarthyite fashion, he seeks to bolster this claim by simply pointing to the fact that the FBI had ordered the FPCC to so register. This the committee correctly refused to do.

"The Quick Kill With the Quick Pill"

One of the most shocking scandals to hit the drug industry in recent years is the practice of giving free samples of drugs to doctors. This often leads to over-prescription of medications, as doctors may be influenced by the free samples they receive. This practice has been highly criticized as it can lead to unnecessary drug use and increased healthcare costs. It is important to ensure that doctors have access to information about the latest medications, but this should not come at the expense of patient safety. The drug industry must be held accountable for its actions and should be regulated more closely to prevent such scandals from occurring in the future.
