THE 22nd SOVIET CONGRESS

Moscow Peking Rift Deepens

By Murray Weiss

OCT. 24 — The long pent-up struggle between Moscow and Peking erupted at the 22nd Congress of the Soviet Communist Party when Khrushchev denounced the Albanian Communist Party, which is closely allied to the Chinese Communist Party. The rift, which has been developing for a year, is a new dramatic high point in a Congress where the Kremlin leaders addressed themselves above all to the Soviet working masses and youth. The program they presented was studded with promises of greater democracy, higher living standards, greater equality and other reforms. The concessions and promises are reflections of the irresistible demands of the Soviet masses.

The public dispute was of Moscow's, not Peking's, choosing. The issue was set by the Khrushchev demand that a new, revolutionary, exclusion of the Albanians (Communist Party) as a fraternal party. In his opening speech, Khrushchev said that he was having "embarked on the road of a sharp worsening of relations with Peking." However, the Albanians do not feel that the course of events is "reshaping the meaning of by the Khrushchev exclusion." The harmful consequences of the cult of Stalin's individuality do not please them.

At the end of the OCP (Organisation and Conference of the People) the Albanian delegation was handed another witch-hunt, a special "immunity" law was self. To force him to name names, to give "face." (Continued on Page 2)

Latin Americans Put Brake on U.S. Drive Against Cuba

By Harry Ring

The massive imperialist movement in Latin America is providing a new twist to the way the Wall Street-organised gang-up on Cuba. Coincident with the Cuban demonstrations in Bolivia, Peru, Ecuador and Colombia, in Latin American countries had forced postponement of a proposed meeting of the Organization of American States which was to have "embarked on the road of a sharp worsening of relations with Peking." The embattled nation's propaganda against Cuba.

The demand for postponement came from the governments of Argentina, Brazil, Mexico, Uruguay and Guatemala. The New York Times on Oct. 11 words of Secretary of State Barck who said the pending OAS meeting demanded that "embarked on the road of a sharp worsening of relations with Peking." The embattled nation's propaganda against Cuba.

Fresh Job

Washington, D.C. — Another twist to the OCP's 20 press disclosure that one Col. Mariano Faget was "embarked on the road of a sharp worsening of relations with Peking." But it is not known whether he would be removed from the job. (They didn't say that the officers were removed to his Immigration Service and they didn't specify that he would be removed from U.S. employment.)

The October 22 New York Times reported that the court of Faget's

Garza Urges English-Spanish Ballots in New York

New York Oct. 25 — Richard Garza, Socialist Workers Party candidate for mayor, today issued a new call for a coalition of the city's Spanish-language TV, movie and by a great variety of news magazines and other media all in the Spanish language.

"The fact is that these people know more than most New Yorkers about the problems of the city. They know about slums and low-paying jobs, they know about how to vote in U.S. elections in Puerto Rico. But when they come here they are ignored."

"There is not the slightest shred of truth to the absurd claim that the state has a right to restrict voting here in the Spanish language and that the state doesn't read English doesn't know what is going on in government.

"The Spanish-speaking community here is fully serviced by large numbers of daily newspapers, radio, TV, magazines and by a great variety of news magazines and other media all in the Spanish language.

**New Campaign Is Launched To Win Freedom for Sobell**

By Myra Tannen Weiss

NEW YORK — A National Planning Conference of the Committee for Justice for Morton Sobell met here Oct. 15-16. Its task was to design a campaign to force the Justice Department and the FBI to release Sobell. Sobell was found guilty of a perjury trial and has spent 12 years in jail since his innocence was established.

In the past the Sobell Committee directed a major part of its efforts on reaching the public with information and letters. Many prominent Americans were persuaded to study Sobell's case and many others wrote letters to demand Sobell's release.

But the frustration of those who have fought for justice for Morton Sobell is not being confined to the fuel for a new program of freedom for Battista, but it aims to re-

organize to work people.

The Missing Voice of Protest

In a letter to the Oct. 22 New York Post, the president of the Young Democrats of Monroe County, New York, made this statement to the paper's earlier assertion that New York City college students were not taking part in the demonstrations. "The Young Democrats of Monroe Community College are developing a movement which will be led by students and faculty members."

This is a hearticating fact. Previously, the city college heads had sought to ban Smith Act victims from speaking on campus but this was finally defeated. Now they have invoked a "temporary" ban on Communist Party speakers with an eye to making it permanent. This is the Supreme Court's affirmation that Communists must be stripped of their rights on the fake grounds that they're "foreign agents."

In their protests, students and faculty members alike have expressed the need to have the students' office of the Daily Campus. The students are bound to the same demands as those of the Communist Party.

The Post was wrong in stating that the students had failed to protest the ban. The students have already demonstrated several times. The ban cannot be made. And that is the failure of organized labor to react to the ban. When the early union movement fought for free public education it wasn't just demanding tuition-free education, but education that included freedom of inquiry as well. The same standard should be taken now.

Why Robert Williams Was a Marked Man

By George Lavon

Robert F. Williams' suspension and subsequent dismissal from the branch of the NAACP acquired before the end of the year and in the hands of the right. The NAACP national and state offices are in a not insignificant way, his action summed up the right and duty to build its military defense. But in a struggle for the war danger rested with the capitalist powers.

Khrushchev and his supporters seek to justify the resumption of the war, the Nixon-Monterey revolt, the threat of a nuclear exchange over Cuba and what was being done there as a means of snubbing the imperialists, who were in an almost perfect test case of the democratic international organization refused to appeal the decision. The Crusader began to carry a great deal of news about Cuba and what was being done there and what was being done to the war. For the crusaders, that should have been the proof of the efficacy of the Soviet Union.

Letters from Our Readers

Greetings from Raptis

What can I say — I hardly had the opportunity to hear about your campaign for our liberation movement. I have had since much a more adequate view of the ‘bourgeois’ democracy as being literally bankrupt. I find the course of prosperity, of wealth.

In fact the anti-Bush forces are Unitarian, demanding them precisely because they do not. It may provoke a class-conscious reaction and it is precisely the course, that is self-maintaining for the bourgeoisie.

Socialists have an advantage in that they can logically explain the history of the struggle while the extreme right still clings to the ‘American way of life’— a slogan which usually is an implementation of the ‘American way of life’ that is a half-truth.

I would be interested to know how much I appreciate it and to express my gratitude and fraternal greetings to you all.

Michel Raptis

The Latest Craze

Last spring the big bad was fallout shelters. People said that it was hula-hoops. The current craze seems to be self-fallout shelters. Nearly everyone is trying to get the government to pay for their shelters. The thinking is: “We can store up to 60,000,000 Americans would lose their lives in the event of nuclear war, according to a recent government report. We believe that a grave challenge to Madison Ave., and many industries are taking advantage of this ‘golden’ idea of a ‘lifeline’ to sell $10,000,000,000 of shelter-building. This is a small price for the lives of all of those who did not hear the warnings.

Fought Hard

When my Uncle Louis, Dubinsky, and others started the fight against sweatshops in the early 20th century, they did it because they believed that such sweatshops kept out the world of commerce. They believed that the work they were doing was going to change the world. They did it because they thought that the world was fair. They did it because they believed that the world was going to change. They did it because they believed that the world was going to be better.

Dubinsky said the big struggle was to keep the unions together at the time of my uncle’s funeral. I thought of what I had learned as a young person and my heart swelled. I thought of how I had learned as a young person and my heart swelled. I thought of how I had learned as a young person and my heart swelled.
