

Contribute to 'Militant' reporting team in Ukraine

As Moscow uses its troops to rip Crimea from Ukraine and maintain Russian domination of the country, worker-correspondents from the U.S., Canada and the United Kingdom are on the scene reporting on the conditions of life and range of views among workers, farmers, youth and others — and talking with them about workers' struggles and efforts to build proletarian parties in the countries they are from.

The team is traveling across Ukraine, speaking to people of various national backgrounds and solidarizing with the fight to defend Ukrainian sovereignty.
